and related staff appointed by the chairman.

Resolution:

Approved by the voting result as follows

FOR - 394,671,135 shares (92.39% including 124,552,672 shares of e-voting)

AGAINST - 25,120 shares (including 16,720 shares of e-voting)

ABSTAIN - 32,444,082

NULLIFICATION - 0 share

Discussion Items

Item 1

(Proposed by the Board of Directors)

Motion: Discussion on the distribution of cash dividend from capital reserve

Description:

- (1) The Company plans to distribute cash dividend through capital reserve of NT\$861,714,227. The distribution ratio is determined by the holding ratio of shareholders in the register of shareholders on the record date of the distribution. Each share will be distributed NT\$1.5 cash dividend.
- (2) Upon the approval of the Annual General Meeting, the distribution record date will fall on July 30, 2017 and August 16, 2017, the dividend distribution day. The capital premium will be distributed cash rounding to dollar unit. The chairman is authorized to designate a specific person for the adjustment of the total amount of the odd distribution below NT\$1.
- (3) In the event that the proposed capital reserve distribution is affected by a buyback of shares, or issuance or cancellation of transferring treasury shares to employees and execution of warrant etc., it is proposed that the chairman is authorized to distribute the total amount of the capital reserve according to this proposal.
- (4) Resolution requested.

Shareholder's statement: Stated by shareholder No. 59509, advised/responded by the chairman and related staff appointed by the chairman.

Resolution:

Approved by the voting result as follows

FOR - 394,688,857 shares (92.40% including 124,563,394 shares of e-voting)

AGAINST - 17,924 shares (including 9,524 shares of e-voting)

ABSTAIN - 32,433,556

NULLIFICATION - 0 share

Item 2

(Proposed by the Board of Directors)

Motion: Discussion on the issuance of Restricted Stock Awards

Description:

- (1) It is proposed to issue Restricted Stock Awards in accordance with Article 267 of the Company Act and the Regulations Governing the Offering and Issuance of Securities by Securities Issuers ("the offering Regulations").
- (2) Relevant details:
 1. Total amounts of issuance: The maximum number of shares issued by the Company under this plan is 6,000,000 common shares, each share having a par value of NT\$10, for a total amount of NT\$60,000,000. It is allowed to register multiple issuances over a period of 1 year from the date the authorities approves. The actual issuance date shall be determined by the chairman authorized by the board meeting.
 2. Issuance conditions:
 1. Issue price: NT\$20 per share
 2. Vesting conditions: Employee's continuous employment with the Company through the vesting period and achievement of personal performance criterion of "A" (and above) are required to receive the vesting shares by the portion of:
1 year: 40%
2 years: 70%
3 years: 100%
 3. Issue type: Common share of the Company
 4. Handling of employee's failure to meet the vesting conditions: Refer to attachment 27 (P.27) – the 5th item of Article 5 in the 2017 Regulations of Governing the Offering and Issuance of Restricted Stock Awards.
- (3) Qualification requirements for employees:
 1. Qualification: Regular employees as a manager (and above) of the Company who are already employed over 1 year before the date that the restricted employee shares are awarded and meet certain performance requirements shall be eligible to Restricted Stock Award Plan. The actual awarded amount shall be determined by employee's seniority, position, performance, overall contribution, specific contribution or other managerial factors also taken into account, and submit to the board meeting for approval after reviewed by the chairman. However, for directors who are managerial officers or employees, the award of such shares is subject to approval by the compensation committee.
 2. Shares awarded: In compliance with the Item 1 of Article 56-1, accumulated total shares of employee stock option distributed to single subscriber plus the restricted stock awards cannot exceed three-thousandths of the total outstanding shares. Issuers, in accordance with the Item 1 of Article 56, shall not issue more than one-hundredth of the total outstanding shares for the distribution of accumulated employee stock option to single subscriber.

- (4) Reason for the issuance of Restricted Stock Awards: To retain and attract talents, enhance employees' sense of belonging to the Company so as to ensure the alignment of the Company and shareholders' interests.
- (5) Calculated expense amount: The expected issuance of Restricted Stock Awards will be 1.04% of the current outstanding common shares of 574,476,151 shares (with 5,555,000 shares of treasury stocks excluded.) With a issue price of NT\$20 for each share, the maximum expense is approximately in the amount of NT\$150,000,000. The amortized expense, calculated based on the closing price of NT\$45 on March 22, 2017, is estimated to be in the amount of NT\$46,450,000, NT\$48,388,000, NT\$45,000,000 and NT\$10,162,000 for 2017, 2018, 2019 and 2020 respectively under the assumption of the total issuance. Dilution from the aforesaid expense is estimated to be NT\$0.08, NT\$0.08, NT\$0.08 and NT\$0.02 for 2017, 2018, 2019 and 2020 respectively. There is limited dilution of the Company's future EPS, and there is no material impact on existing shareholders' equity.
- (6) For details of the 2107 Regulations Governing the Offering and Issuance of Restricted Stock Awards, refer to Attachment 27.
- (7) With respect to the issuance of Restricted Stock Awards, the relevant restrictions, important agreements and any other matters not set forth here shall be dealt with in accordance with the applicable laws and regulations and the issuance rules set by the Company.
- (8) Resolution requested

Shareholder's statement: Stated by shareholder No. 59509, advised/responded by the chairman and related staff appointed by the chairman.

Resolution:

Approved by the voting result as follows

FOR - 382,897,172 shares (89.64% including 112,771,709 shares of e-voting)

AGAINST - 11,805,608 shares (including 11,797,208 shares of e-voting)

ABSTAIN - 32,437,557

NULLIFICATION - 0 share

Item 3

(Proposed by the Board of Directors)

Motion: Discussion on issuance of new shares through GDR or local SPO or Private Placement

Description:

- (1) To meet the development of alliance with major companies and to increase working capital, or overseas purchase, prepayment of bank loan, purchase of equipment and machinery for future needs, and long-term investments and/or others to improve competitiveness, the Company proposes to authorize the Board to issue new stocks up to

85,000,000 shares under appropriate conditions and in determination of the method of stock issuance in common shares or in GDR for common shares or private placement for common shares, and adjustment of issuing size within the said quota at once or through installment (less than twice for private placement).

(2) Principles and Conducting of Raising Funds

1. The issuance of new common shares for capital increase in cash

Pursuant to the Article 28-1 of Securities and Exchange Act, Board of Directors delegates Chairman to choose either book building or public application regarding underwriting and proceed as below:

I. Book Building

Unless otherwise the Article 267 of the company law to retain 10%-15% new issuance shares for the company employees, and the remaining 85%-90% according to the Securities and Exchange Act Rule 28-1, shall be all provided with public application in the book building method. In case the actual purchases of the reserved stock options for the employees falls short, the chairman is authorized to negotiate with specific parties to purchase those shares at the issue price in accordance with the Taiwan Securities Association Rules Governing Underwriting and Resale of Securities by Securities Firms.

The issue price by the Taiwan Securities Association Rules Governing Issue Company raising and issuing securities (hereinafter "Discipline Principles") may not be lower than 90% of the average closing prices of common shares of the Company for either one, three, or five business days before either the date on which the application is filed at Taipei Exchange or the five business days before the ex-rights date. The aforementioned price should be determined in compliance with related requirements of competent authorities. The Board of Directors will be authorized to negotiate with the lead underwriter to have actual price determined in light of market status.

II. Public Application Offering

Pursuant to the Article 267 of Company Act, 10%-15% of the new share issuance will be reserved for employees' preemptive subscription and 10% will be reserved for public offer. The remaining 75%-80% of the share issuance will be reserved for preemptive purchase of original shareholders based on the shareholder's name and his/her shares registered in the shareholders roster at the dividend record date. For the issuance not subscribed by employees and the original shareholders in proportion or as a whole, the chairman of the Board is to be authorized to negotiate with specific parties to purchase shares at issuing price. The issue price of new common shares from the cash capital increase may not be lower than 70% of the average closing prices of common shares of the Company for either the one, three, or five business days before either the date on which the application is filed with the Financial Supervisory Commission or the five business days before the ex-rights date. The average closing price mentioned above shall be after adjustment for any distribution

of stock/cash dividends or capital reduction.

2. The issuance of GDR for the new common shares from cash capital increase:
 - I. Pursuant to the Article 267 of Company Act, 10%-15% of the share issuance will be reserved for employees' preemptive subscription. For those stocks not subscribed by employees in proportion or as a whole, the chairman of the Board is to be authorized to negotiate with specific parties to purchase the unsubscribed share in common stock or GDR of subscription at the issuing price in accordance with the market development. For the remaining 85%-90% of issuance, based on the Article 28-1 of the Securities and Exchange Act, the board proposes to offer through public application offering for the issuance of GDR according to the Taiwan Securities Association Rules Governing Underwriting and Resale of Securities by Securities Firms.
 - II. The issuing price of new common shares for capital increase in cash or the issuing price of GDR for the new common shares from cash capital increase is to be determined based on general practices worldwide and it shall not affect shareholder's interests. However, the final issuing price is to be determined by the lead underwriter and the Chairman of the Board who is authorized by the Shareholders' Meeting by referring to market conditions at the time of issuance; also, it must be in compliance with related requirements of competent authorities.
 - a. According to the "Disciplinary Rules", the issuing price of the new common shares from cash capital increase may not be lower than 90% of the closing price of common shares at Taipei Exchange on the price determination day or 90% of average closing price of the common shares of the Company for either one, three, or five business days before the price determination date, after adjustment for any distribution of stock/cash dividends or capital reduction. The aforementioned price may adjust when variation occurred in domestic requirements. Since domestic share price may vary excessively within a short period, the Chairman of the Board of Directors will be authorized to negotiate with the lead underwriter to have actual price determined in light of international conventions, capital market, domestic share price and overall book building.
 - b. For the rights of original shareholders, the issuance of new shares for cash capital increase up to 85,000,000 common shares will have the maximum dilution effect of at 14.8%. The funds raised from the capital increase in cash shall generate sustainable growth in Company's business; reinforce competitiveness, and surely benefit shareholders. GDR issue price is determined according to fair value domestically. Original shareholders may purchase common stock in domestic market at Taipei Exchange for the price close to GDR price, exempting from currency and fluidity risks. There is no huge impact on original shareholders.
3. Private placement for common shares for capital Increase by cash:

The issuance plan of private placement for common shares is conducted pursuant to Article 43-6 of Securities Exchange Act and Directions for Public Companies Conducting Private Placements of Securities.

I. The necessity of private placement

a. The reasons for not taking a public offering:

Consider the capital market status, effectiveness of financing, feasibility, issuance cost, and actual requirement of bringing in strategic investors. With the limit of no-trading period of 3 years, it is better to maintain a long-term relationship with strategic partners by such security issuance of private placement. Therefore, the Company proposed to raise capital through private placement, rather than public offering.

b. The amount of the private placement: less than 85,000,000 shares.

c. The capital usage plan and projected benefits of private placement:

In response to strategic alliance development or operational funds increase, overseas purchase, reimbursement of bank loan, purchase of machinery and equipment or reinvestment and any capital needs in the future, single or twice private placement at the maximum can be executed in terms of the market condition in order to bring in long-term funds at appropriate time responding to the rapidly changing industry environment and strengthening the equity structure and competitiveness of the company.

II. The rationality to determine the price of private placement:

The common stock price per share shall be no less than 80% of the reference price.

The reference price is set as the higher of the following two basis prices:

a. The average closing price from either 1, 3 or 5 days before the pricing date, minus dividends adjustment, plus price discount adjustment due to capital reduction.

b. The average price of 30 days before the pricing date, minus dividends adjustment, plus price discount adjustment due to capital reduction.

The foregoing pricing method is considered within reason. The pricing date, actual issuance price are proposed to authorize the Board to determine after taking into consideration the market status, objective conditions. The price determination above shall follow regulations from government authorities.

III. The method to determine specific parties:

No specific subscriber, selected in accordance with Article 43-6 of Security and Exchange Act, has been appointed for the private placement for common shares. The strategic investors have the priority to be considered as specific parties for private placement to meet the Company's needs on technology cooperation and operation strategy. If subscribers are stakeholders or insiders, consideration for subscription will, effectiveness of issuance and funding should be taken when selecting methods and targets so as to accomplish the private placement timely.

The subscriber list is as follows:

- A. Director: Kuen-chan Company, Kai-chiang Company, Kan-hsin Liu, Chin-long Chang, Wen-huei Tsai, Ting-guo Chen.
- B. Supervisor: M.K. Lu, Tan-liang Yao, Hsio-lan Hsu, Guei-chang Hsu.
- C. Manager: Solar Energy Corp.

The first 10 shareholders of Kun-chang Investment Company:

Name	Shareholding Ratio	Relation with the Company
Christian Faith/Hope/Love Welfare Committee	19.90%	NA

Sino-American Silicon Products Inc.

Fiscal 2016 Business Report

Dear Shareholders,

Thank you for joining SAs annual general meeting. We deeply appreciate your support.

The year 2016 was surly full of dramatic changes to the Taiwan solar industry. The market showed an overall supply shortage resulted from the strong demand over China market in the first half and then drastically fallen into irrational price down due to the end of China's installation rush and low price driven by high inventory. Price lower than the cost caused makers at home again had to face the pressure from loss. In 2016, SAS continued to generate group revenue through resource integration, leading technology capability and differentiation selling strategy. In solar business, consolidated revenue accumulated NT\$13.2 billion, up 2% YoY. Owing to the price drop of the entire supply chain plus losses from long-term investment recognition and exchange rates, our revenue failed to achieve the expected goal in 2016. Nevertheless SAS still kept increases in revenue and the minimum of losses by taking selected orders, reducing and adjusting the inventory and cost control. The group consolidated revenue for 2016 amounted to NT\$31.59 billion, up by 12% than NT\$28.26 billion of the previous year. Net loss was NT\$1.28 billion with an EPS of –NT\$2.77.

The 2016 operating results and 2017 business plan overview are presented as follows.

A. Operation Performance in 2016

1. Operation Performance

Unit: NT\$'000

Year Item	2016 (IFRSs)	2015 (IFRSs)	Change (%)
Operating Revenue	31,599,040	28,269,357	11.78%
Operating Costs	28,164,027	23,998,126	17.36%
Operating Profit from Operations	3,435,013	4,271,231	(19.58%)

Operating Expenses	3,392,953	2,034,619	66.76%
Operating Income (Loss)	42,060	2,236,612	(98.12%)
Income before Tax (Loss)	(856,378)	1,960,181	(143.69%)
Net Income (Loss)	(1,289,006)	1,056,402	(222.02%)
Net Income Attributable to the parent Company	(1,589,225)	534,837	(397.14%)

Almost all production lines of Taiwanese makers were fully loaded in the first half of 2016 while a heavy slump in prices came right after the shortage of demand in the latter half. According to data from MIC, the installation of the global PV in 2016 was 79.4GW, increasing by 43% compared with the 55.4GW in 2015. In 2015 SAS solar business focused on cost reduction and conversion efficiency of high efficiency products. In reinvestment business SAS also brought good performance. GWC, its semiconductor business unit made contribution with NT\$18.43 billion of consolidated revenue, NT\$939 million of net income and NT\$2.54 EPS.

2. Budget Implementation: No financial forecast for 2016

3. Profitability Analysis

Item		2016	2015
Financial Structure	Debt ratio (%)	67	38
	Long-term funds to fixed assets (%)	122	191
Profitability	Rate of return on assets (%)	(1.43)	2.57
	Rate of return on stock equity (%)	(4.62)	4.21
	Operating income to capital (%)	0.73	24.94
	Income before tax to capital (%)	(14.76)	33.19
	Net income to sales (%)	(4.08)	3.74
	Earnings per share (NT\$)	(2.77)	0.93

4. Financial structure

2016 revenue is NT\$31,599,040,000. Operating cost is NT\$28,164,027,000.

Operating expense is NT\$3,392,953,000. Other income is NT\$898,438,000. Net income before tax is NT\$856,378,000. Net income after tax is NT\$1,289,006,000.

The financial structure is healthy.

5. Research & Development Status

1) 2016 Research & Development Expenditure

Unit: NT\$'000

Item/ Year	2016	2015
------------	------	------

Research & Development Expenses	976,091	790,448
Net Revenue	31,599,040	28,269,357
R&D Expenses to Net Revenue (%)	3.09	2.80

2) Research & Development Achievement in 2016

Our technology / products

- (1) Ultra efficiency multi-crystal black wafer
- (2) High strength solar wafer
- (3) N type solar wafer
- (4) Ultra-thin solar wafer
- (5) DW mc-si wafer
- (6) High efficiency mono-crystal solar cell

Future Plan

- (1) A6+ crystal growth technology
- (2) Low impurity diffusion multi-crystal ingot growth technology
- (3) G6 hot zone energy conservation technology
- (4) Ultra efficiency P type mono-crystal solar cell
- (5) Extra high efficiency and low lid P-type solar cell

B. 2017 Operation Guideline

1. Guideline

- 1) Maintaining our leading advantages for the mono-Si PERC cell conversion, improving the production and quality of high efficiency multi-Si cells so as to provide customer service with vertical integration and stimulating customers' interest to change.
- 2) Heating up the momentum of new technology and new product development, as well as continuous development of high efficiency mc-si crystal growth and ultra-thin silicon wafer precision machining technology. Accelerating diamond wire cut multi black wafers and R wafers new product release to create our competitiveness core.
- 3) Aggressively planning layout for expending solar power plants in response to government's renewable energy policy by catching up with the local installation rush so as to accumulate the momentum to expend overseas markets through the investment experience in Taiwan

2. Sales Forecast

According to the data from MIC, due to slow demand of installation in the US, subsidies cut by Japanese government and the installation suspension from China, the forecast for 2017 installation volume will drop to 73GW. In summary, the market trend is seeking for high conversion efficiency development, such as high efficiency wafers, high efficiency cells and high efficiency modules. Thus SAS will focus on improving the quality and conversion efficiency of high efficiency Si wafers and Celco mono-crystal cell. Developing new generation of products with high efficiency and price competitiveness will help keep us well positioned in the market.

3. Sales & Production Policy

- 1) Seeking for new customers and developing emerging areas such as India and Southeast Asia.
- 2) Enhancing the connection with downstream customers and increasing added value by core technology capability and lower manufacturing costs for profitable opportunities.
- 3) Establishing long-term and steady cash income by adopting an overall vertical integration strategy and responding to the government's green power policy.

4. Future Strategy

- 1) Making a breakthrough on Si wafers and cells so as to release high efficiency wafer and cell products of the next generation.
- 2) Maintaining our position by resource integration, cost reduction, as well as skill and product differentiation.
- 3) Establishing integrated supply chain from up, middle and downstream and reducing operating risks through vertical and diversified strategy so as to become a global leading green energy provider.
- 4) Aggressively involving in solar power plant business and construction service to expand markets continuously at home and abroad.

5. Influences from External Competition, Regulations and Economy

- 1) To survive from various competitors and oversupply, SAS has aggressively continued to explore new customers and provide superior products and service by developing highly cost-effective new products.
- 2) To respond the price drop out of oversupply, SAS will improve the connection with downstream customers to increase our value by developing high efficiency niche products through our core technology.
- 3) Establishing global patent core strategy to enhance our capability facing international competitiveness and market changes.

Looking forward to 2017, the global solar market will enter a slow season due to various factors of installation decline, oversupply and policy changes from the government. It is going to be another challenging year with uncertainty for most Taiwanese solar makers. According to data from MIC, it is assumed that supply will add up to 90GW while only 76.9GW is demanded from the market. The oversupply is estimated to affect the price for cell as well as gains of manufacturers. To fight in such industry environment, the main target of SAS is to reduce costs and speed up the development of our high efficiency products of the next generation for building up our competitive advantage. SAS has already accomplished the blueprint for our territory after vertical integration starting from high efficiency wafers at the upstream to cells, modules and high efficiency mono-crystal PERC product out of mid to downstream plus an entire layout of the system arrangement. SAS will continue to expand our layout regarding solar power farms and aggressively increase the power farm construction domestically through group integration so as to stabilized long-term gains with sound operating scale for accomplishing the goal of maximizing benefits of shareholders and continuous operation of the industry.

Audit Committee Review Audit Report

The Board of Directors has prepared the Company's 2016 Business Report, Consolidated and Standalone Financial Statements and Earnings Distribution Proposal. Sino American Silicon Products Inc. Stand-alone and Consolidated Financial Statements have been audited and certified by Tseng, Mei-Yu, CPA, and Huang, Yong-Hwa, CPA, of KPMG and an audit report relating to the Financial Statements has been issued. The Business Report, Stand-alone and Consolidated Financial Statements and Earnings Distribution Proposal have been reviewed and considered to be complied with relevant rules by the undersigned, the supervisor of Sino American Silicon Products Inc. According to Article 219 of the Company Law, I hereby submit this report.

Sino American Silicon Products Inc

Audit Committee Convener:

Ting-Kuo Chen

April 21, 2017

Attachment 3

Independent Auditors' Report (Consolidated)

To the Board of Directors of Sino-American Silicon Products Inc.,

Opinion

We have audited the consolidated financial statements of Sino-American Silicon Products Inc. and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of December 31, 2016 and 2015 and January 1, 2015, the consolidated statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2016 and 2015 and January 1, 2015, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the report of other auditors (please refer to Other Matter paragraph), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2016 and 2015 and January 1, 2015, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), interpretations as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained, inclusive of the report from other auditors, is sufficient and appropriate to provide a basis for our opinion.

Other Matter

Among the inclusion of the Group's investment accounted for using the equity method, audit on the financial report of Crystalwise Technology was not conducted by us but by other accountants. Therefore, the opinion we provided for the standalone financial report about the recognition amount from Crystalwise Technology's financial report was based on the audit report of other accountant. The investment amounts using equity method by Crystalwise Technology as at December 31, 2016 and 2015 respectively were 1% and 3% of the total asset. The loss of affiliated

enterprises using equity method from January 1 to December 31, 2016 and 2015 was 40% of loss before tax and (29)% of profit before tax respectively.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of 2016. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on our judgment, the key audit matter that should be disclosed in this audit report are as follows.

1. Revenue recognition

Please refer to note 4(16) "Revenue recognition" for accounting policy and note 6(25) "Revenue" of the consolidated financial statements.

Description of key audit matter:

The main revenue of the Group came from the selling of semiconductor silicon materials and related components. The timing for revenue recognition was determined according to agreements with customers. With large transaction volume from each operating site all over the world, we considered it one of the important matter while auditing the consolidated financial report of the Group.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding of revenue recognition policies and assessing whether revenue recognition policies are appropriate based on sales terms and revenue recognition criteria; understanding the design and process of implementation of internal controls and testing operating effectiveness; testing selected sales samples and agreeing to customer orders, delivery note, cash receipts and related documentation supporting sales before or after the balance sheet date by reviewing related sales terms, inspecting delivery documents, and other related supporting document to evaluate whether the revenue was recorded in proper period.

2. Inventory valuation

Please refer to note 4(8) "Inventories", note 5(1) "Inventory valuation" and note 6(4) of the consolidated financial statements.

Description of key audit matter:

The solar business unit of the Group sells and manufactures solar silicon wafers, solar cells and power generation business. The market demand and prices of its related products fluctuated due to factors as governments' subsidy policy and anti-dumping that may resulted in risks of high inventory cost over net realization value. Thus we considered it as one of the important matters regarding its standalone financial report. While its semiconductor business unit selling and manufacturing semiconductor silicon materials with a variety of product applications also

showed risks for technology changes, phased-out inventory or sluggishness that made inventory evaluation considered as an important asset of the Group. Thus we considered it one of the important matters while auditing the financial report of the Group.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding of inventory valuation policies and assessing whether those policies are applied consistently to inventory valuation; testing the accuracy of inventory aging report; analyzing the change of inventory items aged over two years; and selecting samples for testing and inspecting the source of inventory net realizable value information used in valuation purposely to assess for reasonableness.

3. Realty, factories and equipment valuation

Please refer to note 4(13) “Non-financial asset valuation” and note 5(2) of the consolidated financial statements.

Description of key audit matter:

The product prices of the solar business unit of the Group continued to drop due to market factors and green power policy changes from governments. Thus we considered it important to estimate the loss on their realty, factories and equipment. The loss evaluation on asset included cash generation unit distinction, evaluation method determination, crucial consumption selection and receivable amount calculation etc. that required subjective judgments of the management level. Thus we consider it as an important matter for auditing.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding and testing of the important assumptions such as valuation model, future cash flow forecast, service life and weighted average cost of capital taken by the authorities including the expected product income, costs and expenses etc., evaluating of the accuracy of the authorities in the past; analyzing the outcome sensitivity; also indentifying through inquiring related procedures if there is any matter affecting the outcome of loss testing after the financial information is reported.

4. Business combination

Please refer to the note 4(20) “Business combination” for accounting policy, note 5(3) “Business combination” for fair value determination of indentifiable assets and liabilities, and note 6(9) for the acquisition of subsidiary of the consolidated financial statements for further details.

Description of key audit matter:

To expand their global sales network and increase product development capability, the Group acquired all shareholding of the semiconductor business unit of Topsil Semiconductor

materials A/S and SunEdison Semiconductor limited in 2016. The transaction amount of the above acquisition for operating assets, technology and goodwill of each operating site contained complicated accounting details. Thus we considered it as one of the important matter for auditing the consolidated financial report of the Group.

How the matter was addressed in our audit:

In relation to the key audit above, we have performed certain key audit procedures that included reading of share purchase agreements to identify the counterparty, purchase price and relevant terms and conditions, and what specific accounting standard is applicable or additional information needed to be disclosed in the notes of the financial statements; reviewing the Group's purchase price allocation to the identifiable assets and liabilities; assessing the reasonableness of sources and key assumptions used for determining the fair value; reviewing business acquisition related transactions in the subsequent period to indentify whether there are necessary significant adjustments to the purchase price; and evaluating whether the disclosure in the notes to the consolidated financial statements of the business acquisitions is appropriate.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is **responsible** for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, interpretations as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic

decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Independent Auditors' Report (Standalone)

To the Board of Directors of Sino-American Silicon Products Inc.,

Opinion

We have audited the financial statements of Sino-American Silicon Products inc. ("the Company"), which comprise the balance sheets as of December 31, 2016 and 2015 and January 1, 2015, the statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2016 and 2015 and January 1, 2015, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the report of other auditors, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2016 and 2015 and January 1, 2015, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained, inclusive of the report from other auditors, is sufficient and appropriate to provide a basis of our opinion.

Other Matter

Among the inclusion of the Company's investment accounted for using the equity method, audit on the financial report of Crystalwise Technology was not conducted by us but by other accountants. Therefore, the opinion we provided for the standalone financial report about the recognition amount from Crystalwise Technology's financial report was based on the audit report of other accountant. The investment amounts using equity method by Crystalwise Technology as at December 31, 2016 and 2015 respectively were 4% and 5% of the total asset. The loss of affiliated

enterprises using equity method from January 1 to December 31, 2016 and 2015 was 21% of loss before tax and (59)% of profit before tax respectively.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

1. Inventory valuation

Please refer to note 4(7) "Inventories", note 5(1) "Inventory valuation" and note 6(3) of the consolidated financial statements.

Description of key audit matter:

The Company sells and manufactures solar silicon wafers, solar cells and power generation business. The market demand and prices of its related products fluctuated due to factors as governments' subsidy policy and anti-dumping that may resulted in risks of high inventory cost over net realization value. Thus we considered it as one of the important matters regarding its standalone financial report.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding of inventory valuation policies and assessing whether those policies are applied consistently to inventory valuation; testing the accuracy of inventory aging report; analyzing the change of inventory items aged over two years; and selecting samples for testing and inspecting the source of inventory net realizable value information used in valuation purposely to assess for reasonableness.

2. Realty, factories and equipment valuation

Please refer to note 4(13) "Non-financial asset valuation" and note 5(2) of the consolidated financial statements.

Description of key audit matter:

The product prices of the Company continued to drop due to market factors and green power policy changes from governments. Thus we considered it important to estimate the loss on their realty, factories and equipment. The loss evaluation on asset included cash generation unit distinction, evaluation method determination, crucial consumption selection and receivable amount calculation etc. that required subjective judgments of the management level. Thus we consider it as an important matter for auditing.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding and testing of the important assumptions such as valuation model, future cash flow forecast, service life and weighted average cost of capital taken by the authorities including the expected product income, costs and expenses etc., evaluating of the accuracy of the authorities in the past; analyzing the outcome sensitivity; also indentifying through inquiring related procedures if there is any matter affecting the outcome of loss testing after the financial information is reported.

3. Impairment on investment accounted for using the equity method

Please refer to note 4(9) “Invest subsidiary”, note 6(7) “Investment adopting equity method” and note 6(8) changes to all equity of its subsidiary.

Description of key audit matter:

The Company holds investment using the equity method – 60.20% shareholding of its subsidiary (GlobalWafers Co., Ltd.) which takes 32% of the Company’s total asset. We consider it one of the important matter for auditing.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included auditing the comprehensive profit and loss of the investment toward its subsidiary according to the shareholding ratio; confirming the number of the share held; discussing and understanding with the management level about important valuations on its subsidiary so as to indentify the reasonableness of accounting if the revenue recognition of the subsidiary is dealt in proper period by inventory valuation and business combination; reviewing the adequacy of the financial information disclosed by the management level.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company’s financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the investment in other entities accounted for using the equity method to express an opinion on

this financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Attachment 6

Sino-American Silicon Products Inc.

Rules for Issuance of Restricted Stock Awards

Article 1 Purpose

To retain and attract talents and enhance employees' sense of belonging to the Company so as to foster the best interests of the Company and its shareholders, it is proposed to set up Issuance of Restricted Stock Award in accordance with Article 267 of the Company Act and the Regulations Governing the Offering and Issuance of Securities by Securities Issuers (the "Offering Regulations") issued by Financial Supervisory Commission.

Article 2 Issuance Period

It is allowed to register multiple issuances over a period of 1 year from the date of the resolution of the shareholders' general meeting. Multiple issuances are allowed depending on actual needs within 1 year after the authorities approves. Issue dates shall be determined by the chairman authorized by the board of directors.

Article 3 Qualification requirements for employees

1. Qualification: Regular employees as a manager (and above) of the Company who are already employed over 1 year before the date that the restricted employee shares are awarded and meet certain performance requirements shall be eligible to Restricted Stock Award Plan.
2. The actual awarded amount shall be determined by employee's seniority, position, performance, overall contribution, specific contribution or other managerial factors also taken into account, and submit to the board meeting for approval after reviewed by the chairman. However, for directors who are managerial officers or employees, the award of such shares is subject to approval by the compensation committee.
3. Shares awarded: In compliance with the Item 1 of Article 56-1, accumulated total shares of employee stock option distributed to single subscriber plus the restricted stock award cannot exceed three-thousandths of the total outstanding shares. Issuers, in accordance with the Item 1 of Article 56, shall not issue more than one-hundredth of the total outstanding shares for the distribution of accumulated employee stock option to single subscriber.

Article 4 Total amounts of issuance

The maximum number of shares issued by the Company under this plan is 6,000,000 common shares, each share having a par value of NT\$10, for a total amount of NT\$60,000,000.

Article 5 Determination of the terms and conditions

1. Issue price: NT\$20 per share
2. The rights and obligation of the new share issuance awarded to employees is based on the Article 6 with others which are the same as those of common outstanding shares.
3. Vesting conditions: Employee's continuous employment with the Company through the vesting period and achievement of personal performance criterion of "A" (and above) are required to receive the vesting shares by the portion of:
 - 1 year: 40%
 - 2 years: 70%
 - 3 years: 100%
4. Issue type: Common share of the Company
5. Handling of employee's failure to meet the vesting conditions
 - (1) Resignation, dismissal, layoff:

The Company will redeem the issued restricted employee shares on the effective day of the resignation.
 - (2) Retirement:

All restricted employee shares will be vested to the employee on the retirement day.
 - (3) Handicap, death out of occupational hazard or general death
 - A. Handicap out of occupational hazard: all restricted employee shares will be vested to the employee on the date of resignation.
 - B. Death out of occupational hazard or general death: all restricted employee shares will be vested to the heir of the employee.
 - (4) Leave without pay:
 - A. Employees who go on leave without pay for official business will acquire all restricted employee shares after reporting back to work.
 - B. Restricted employee share of employees who take leave without pay for private reasons will be redeemed by the Company on the effective day of the unpaid leave.
 - (5) Job relocation:
 - A. Employees with continuous employment with the transferred department through the vesting dates will acquire all granted shares. Handling of employee's resignation after the job relocation will be regarded as the same as Resignation.

- B. Granted shares of those who is not transferred due to business need will be redeemed by the Company on the day of the job relocation.
- (6) The issued restricted award shares redeemed by the Company shall be cancelled officially.
- (7) The Company shall buy back the granted shares from the employee with issue price if the employee violets Item 6 of the regulation to terminate or dissolve the proxy authorization of the Company before the vesting conditions are met.
- 6. Other agreements: The Company shall act as the sole agent for employees to handle disposal, signing, revision, extension, cancellation, termination, and delivery, application and disposal of the trust contract after the restricted award shares are issued and deposited in a security trust account.

Article 6 Restriction on the rights associated with shars that have not yet vested

- 1. During the vesting period, employee may not sell, pledge, transfer, give to another person, create any encumbrance on, or otherwise dispose of restricted award shares.
- 2. Restricted Stock Awards have the right to join stock dividend distribution from which the interest will not be restricted by the vesting period. The interest of the stock dividend will be appropriated in one month after the distribution date from security trust account to employee's account.
- 3. All rights as making a proposal, a statement, a vote and other related matters at the shareholders meeting will be conducted by custody institutions of security trust.
- 4. The Restricted Stock Awards shall be delivered to the trust account after issuance and it is not allowed by any reason or method to request for returning before the vesting conditions are meet.

Article 7 Agreement and Confidentiality

- 1. Employees shall obey the rules to practice secrecy to others after signing "A Letter of Consent on Restricted Stock Awards."
- 2. Employees who do not sign the letter of consent in accordance with rules shall be regarded as abandonment.
- 3. Anyone who acquire the vesting shares and derivative rights through this plan shall follow the rules and A Letter of Consent on Restricted Stock Awards. Disciplinary action against violation will be taken in reference to relative regulation of the Company.

Article 8 Other issues

1. The rules were effective upon the approval of more than 2/3 of the board of directors with more than 1/2 of the directors present and shall be subject to the approval of the competent authority, so is the same for any amendments requested by the authority or actual condition before the issuance of the restricted stock awards.
2. Any other matters not set forth here shall be dealt with in accordance with the applicable laws and the issuance rules set by the Company.

Article 9 The rules were enacted on March 23, 2017.
