台灣 一個被海洋簇擁的美麗島嶼

16世紀葡萄牙航海員發現台灣時 對島嶼的美景深深著迷  
並且留下了「福爾摩沙」美麗之島的美名

而因台灣島嶼地形多樣 在海岸的類型以及景色都有其獨特  
的地方

各地區的海岸也經常成為國人假日休閒旅遊的好選擇

但是在人為廢棄物的污染之下 海灘的美景被垃圾山取代  
也進而污染環境與生態 美麗的海灘與生態在漸漸消失！

本公司秉持著環境保育、回饋鄉里的態度舉辦本次於南寮  
漁港之淨灘活動，盼使活動蘊含環境保護之教育意義，期  
望以一次的淨灘活動帶給參與者永遠的環境保護意識。

本次活動由環球晶圓股份有限公司中德分公司發起，除了  
提升公司內部同仁對於環境保護的意識，也透過本次活動  
促進公司同仁相互合作之精神，對於公司之ESG也有非常  
重要的象徵意義。

# Motivation

---

Taiwan is a gorgeous island surrounded by the ocean.

In the 16th century, Portuguese explorers discovered and became entranced by the island's beauty, thus leaving behind the name "Formosa."

Due to its diverse terrain, Taiwan has a unique coastal scenery. Coasts around the island, therefore, are popular vacation spots.

In recent years, harmful man-made wastes have replaced the coastal scenery. Consequently, breathtaking beaches and their inhabitants have disappeared.

The company hosted the Nanliao beach cleanup in alignment with its values on protecting the environment and giving back to local communities, hoping that it could take this educational and proactive opportunity to advocate for personal sustainability habits.

# Motivation

---

This event was initiated by the Taisil branch of GlobalWafers Co., Ltd. It not only enhanced participants' environmental awareness but also promoted team-bonding, both of which were integral to our company's commitment to ESG.

Event Highlights

在蒐集了從輪胎、塑膠籃、塑膠瓶與保麗龍製品等廢棄物後，本次活動在炎熱的天氣以及眾人的歡笑之下宣告成功！

The successful event concluded with smiles in the summer heat after collecting garbage ranging from tires and plastic baskets to PET bottles and Styrofoam cups.

# 結語

---

如果沒有多個部門的協助，以及新竹市環境保護局與其他政府機構的幫忙，這場淨灘活動就不會如此的成功圓滿。公司也非常感謝同仁與其家人、朋友的參與。

在47位熱情參與者的共同努力下，公司收集了18大袋的垃圾。其中包括PET保特瓶，泡沫聚苯乙烯碎片，塑料籃，佈滿海藻的漁網，裝飲料的紙箱，以及其他對海洋生物極為有害的人造廢棄物。

而因為許多家庭的熱心以及公司同仁共同為環境努力之下，讓這場淨灘活動的意義是無價的。且在活動開始前的課程內容中，也向所有參與者介紹了可以持續且能夠保護環境的具體做法。總體而言，本次淨灘活動非常成功，對於公司社會與環境公益事業上也有實質的幫助與貢獻。

# Conclusion

---

This Beach Cleanup campaign wouldn't have been so successful without the help of the multiple collaborating departments, the Hsinchu Environmental Protection Agency, and other governmental entities. The company is also grateful for the participation of our colleagues and their families and friends.

With the unified efforts of 47 passionate participants, the company was able to gather 18 large bags of carefully sorted garbage. These included PET bottles, Styrofoam pieces, plastic baskets, fishnet-tangled seaweed, milk tea cartons, and other miscellaneous man-made wastes which would have been extremely detrimental to ocean organisms.

The heart-warming sight of family and corporate teamwork to give back to the environment made this event invaluable. Supplemented with an educational workshop in the beginning, the beach cleanup event taught participants about sustainability and concrete actions for environmental protection. Overall, this event was a success, and it contributed to the company commitment to social and environmental good.
