I. Spokesperson of the Company

Name: Chung-Wei Lee

Title: Vice President of Corporate Development

Tel: 886-3-577-2233

E-mail: CWLee@saswafer.com

Acting Spokesperson

Name: Pei-Yi Chen

Title: Vice President of Marketing

Tel: 886-3-577-2233

E-mail: JenniferChen@saswafer.com

II. Address and Telephone Number of The Company Headquarter, Subsidiaries, and Plants

A. Headquarters and Plant

Address: 4F, No.8, Industrial East Road 2, Hsinchu Science Park, Hsinchu, Taiwan, R.O.C.

Tel: 886-3-577-2233 Fax: 886-3-578-1706

B. Chunan Branch and Plant

Address: No. 6, Kezhong Road, Chunan Town, Miaoli County, Hsinchu Science Park

Tel: 886-37-582-533 Fax: 886-37-580-206

C. Yilan Branch and Plant

Address: No. 1, Section 2, Ligong First Road, Wujie Township, Yilan County

Tel: 886-3-990-5511 Fax: 886-3-990-3141

D. Hsu-Hsin Branch and Plant

Address: No. 6, Kezhong Rd., Chunan Township, Miaoli County

Tel: 886-37-582-533 Fax: 886-37-580-206

E. Subsidiaries and Plants

Name: Globalwafers Co., Ltd.

Address: No. 8, Industrial East Second Road, Hsinchu Science Park

Tel: 886-3-577-2255 Fax: 866-3-578-1706

III. Stock Transfer Agency

Name: Stock Agency Department of Yuanta Securities Co., Ltd. Address: B1, No. 210, Section 3, Chengde Road, Taipei City

Tel: 886-2-2586-5859

Website: http://www.yuanta.com.tw

IV. External Auditor

Name of Accounting Firm: KPMG Taiwan Name of CPAs: An-Chih Cheng, Mei-Yu Tseng Address: 68F, No. 7, Sec. 5, Hsinyi Rd., Taipei City

Tel: 886-2-8101-6666

Website: http://www.kpmg.com

ATTACHMENT 1 - 2022 CONSOLIDATED FINANCIAL STATEMENTS

ATTACHMENT 2 - 2022 STANDALONE FINANCIAL STATEMENTS

I. Letter to Shareholders

Dear Shareholders,

Thank you for attending the 2023 Shareholders' Meeting of Sino-American Silicon Products Inc. (SAS) and for your support and love for the Company.

The year 2022 has been affected by the energy price hikes due to the Russia-Ukraine war and extreme climate events that aggravated the power shortage crisis in this year's winter, which caused local electricity prices to surge drastically worldwide, impacting people's livelihood and the economy. To reduce such impacts and respond to global greening trends, countries around the world have encouraged the development of renewable energy through legislation or actions in order to stabilize energy supplies. For example, the United States introduced the Inflation Reduction Act of 2022 to curb inflation by providing tax incentives to attract investments in renewable energy. The European Union formed the European Solar PV Industrial Alliance to expand local supply chains. The Taiwanese government also announced its Action Plan for Achieving Net Zero Transition Through 12 Key Strategies, and updated its nationally determined contribution (NDC) to reduce GHG emissions by 24±1% before 2030 (compared to 2005 levels) and to increase the installed capacity of renewable energy in Taiwan to 45-46GW by 2030, with solar PV energy accounting for 31GW. Governments worldwide are actively seeking the safety and environmental benefits of renewable energies by continuing to implement zero carbon emission policies to unlock unprecedented growth opportunities from renewable energy. Sino-American Silicon (SAS) has robust operations in the solar energy supply chain. Except for providing single crystalline silicon solar cells with high performance, modules and downstream power plant operation and maintenance, the Company has also actively positioned itself in areas like energy storage to expand the green power sales market, while actively expanding its key industrial positioning within the semiconductor industry chain to boost high value businesses, resulting in outstanding operating results in 2022!

The full year consolidated revenue for 2022 of SAS totaled NT\$81.87 billion with YoY 18.9%; gross profit of NT\$31.93 billion; operating income of NT\$25.4 billion; profit before tax of NT\$20.83 billion; net profit of NT\$16.16 billion; net profit attributed to the parent company of NT\$8.72 billion; EPS of NT\$14.87. Performance has been outstanding throughout 2022, with consolidated revenue, gross profit, operating income, and EPS all hitting record highs!

The operating results in 2022 and the business plan in 2023 are reported as follows:

I. Operating Results in 2022

A. Operational Performance

Unit: NT\$ thousands

Year Item	2022	2021	Percent Change (%)
Operating Revenue	81,871,496	68,841,250	18.93
Operating Costs	49,942,234	44,314,606	12.70
Gross Profit from Operations	31,929,262	24,526,644	30.18
Operating Expense	6,529,448	6,446,651	1.28
Operating Income	25,399,814	18,079,993	40.49
Income Before Income Tax	20,828,706	17,205,727	21.06
Net Income	16,160,497	12,615,390	28.10
Net Income (Attributed to the parent company of the current period)	8,715,811	6,811,050	27.97

B. Budget Implementation: The Company had not announced its financial forecast for 2022.

C. Profitability Analysis

	Item									
Financial	Debt to Asset Ratio (%)	65.35	68.81							
Structure	Long-term Funds to PPE (%) (PPE - Equipment)	295.00	326.57							
	Return on Assets (%)	9.12	9.29							
	Return on Equity (%)	26.87	24.78							
Profitability	Percentage in Paid-up Capital (%)	Operating Profit	433.28	308.42						
Analysis	referringe in Faid-up Capital (70)	Profit Before Tax	355.30	293.50						
	Net Profit Margin (%)	Net Profit Margin (%)								
	Earnings Per Share (NT\$)		14.87	11.62						

D. Financial Income and Expenditure

The Company's operating revenue for 2022 totaled NT\$81,871,496 thousand, with operating costs of NT\$49,942,234 thousand, operating expenses of NT\$6,529,448 thousand, non-operating net expenses of NT\$4,571,108 thousand, Income before income tax of NT\$20,828,706 thousand, net income of NT\$16,160,497 thousand. The Company's financial structure was healthy.

E. Research and Development

1. 2022 Research & Development Expenditure

Unit: NTS thousands

Item/Year	2022	2021
Research and Development Expenses	2,348,112	2,165,030
Operating Revenue	81,871,496	68,841,250
R&D expenses as a percentage of revenue (%)	2.87	3.14

2. 2022 Achievement

Technology or product

- a. High Quality Multi-Crystalline Silicon Materials
- b. Large-Size High-Efficiency P-type mono-Si Solar Cells

3. Future R&D Plan

a. Development of Large Size Ultra-High Efficiency mono-Si Solar Cell Technology

II. Summary of the Business Plan for 2023

A. Business Guideline

- 1. Actively develop the growth momentum and position the opportunities in the compound semiconductors.
- 2. Enter the long-term agreement with strategic customers, to introduce the new-generation large-sized products for better competitiveness.
- 3. Diversified energy applications and services, including the opportunities derived from energy storage and green power.
- 4. Monitor the environment, social, and governance (ESG) issues, and enhance the energy utilization efficiency by using renewable energies, to achieve the goal of net-zero emission by 2050.
- 5. Utilize the Group's resources for vertical integration to expand the market and make profitable investment plans for power plants.

B. Sales Forecast and Its Basis

Energy supply has been stabilized by new green policies and legislations or actions around the world that encourage renewable energy development. Consequently, global demand for solar energy has increased substantially. Analysts at PV InfoLink project that 338 GW of solar power will be installed throughout 2023, with large-size monocrystal products with high efficiency becoming mainstream. Therefore, the Company has a firm grasp of market trends and industry pulse, by timely adjustment on management strategies and by developing new-generation ultra-efficient products so as to strengthen the Company's overall maneuvering competitiveness.

C. Important Production and Marketing Policies

- 1. Continuously develop the regional market, to catch the trading opportunities under the trade war and new green policies.
- 2. Strengthen cooperation with long-term customers, and develop high-efficiency and large-size niche products with core technology.
- Increase the added values while actively reducing the manufacturing costs to increase margins.
- 4. Explore the downstream system business, strengthen vertical integration and global footprint, further expand the product market, and increase operating profit margin.
- 5. Expanding the collaboration with different types of renewable energy power generators, to satisfy the self and supply chain demands.

D. Future Strategy

- 1. Use the synergy of the group to develop the third type of semiconductor platform.
- 2. Continuously develop and enhance the quality-price ratio of solar products through technologies and product differentiation strategies, to solidify the competitive position.
- 3. Actively give play to the strategic layout of solar power plants, develop new solar energy system investment partners, and create the Group's terminal market to obtain long-term stable returns.
- 4. Establish a fully integrated supply chain in the upper, middle and lower reaches, spread operational risks through vertical integration and diversified business strategies, and become the world's provider of green energy solutions with leading technologies.
- 5. In response to the business opportunities of solutions derived from climate change, become a sustainable business partner for customers.
- 6. In response to the review of energy policies by various countries, seize overseas sample testing opportunities to develop and expand markets.

E. Effect of External Competition, Regulatory Environment and Macroeconomic

- In response to a number of competitors, the Company has accelerated the development
 of strategic customers and continued to develop new products with high-cost
 effectiveness. At the same time, it accelerates the integration of downstream system
 power stations to strengthen the downstream market of the Group's products.
- 2. Uncertainties of geopolitics: the battles of new energies between China and the U.S., and the uncertainties related to the tariff barrier policies.
- 3. To accommodate the liberalization of the green power transaction market, assistance services provided by Taipower, and the corporates' demands toward green power, the new energy strategy and opportunity development workforce has been established to meet the clients' new demands through internal transformation.
- 4. Enhance confidentiality control and establish a global core patent distribution strategy to improve international competitiveness and respond to market changes.

5. The Carbon Border Adjustment Mechanism (CBAM) promulgated officially by the EU will impose taxes o6n these imported goods failing to comply with the EU carbon emission regulations, and this shall expand internationally. Taiwan's Climate Change Response Act, which passed the third legislative reading, will impact companies that have not yet prepared themselves.

The energy crisis has caused increases in electricity prices. In response, countries have adjusted their energy policies and formulated corresponding plans to increase local renewable energy infrastructure and reduce their dependence on imported energy. At the end of 2022, the Taiwanese government announced the Action Plan for Achieving Net Zero Transition Through 12 Key Strategies and passed the Climate Change Response Act in early January this year. These efforts are expected to boost the development of solar PV energy in Taiwan. Through diversified deployment of comprehensive energy applications and services, SAS actively develops high-performance product applications and installs energy storage systems to provide stable power grid scheduling services to the country. The Group also adopts circular designs in its product development and aligns its operational research and development with the government's net zero goals for society, thereby maximizing the synergy of its existing foundation. Look into the future, SAS will focus on the robust operation of the key services and keep on expanding strategic positioning in the semiconductor sector, which will become SAS' profitability foundation in terms of overall performance, seeking to increase the operating performance improvement, with another year of outperformance.

Finally, I would like to thank all shareholders for their long-term support and encouragement. I hope that all shareholders will continue to give the Company their love and support. On behalf of all our colleagues and the Board of Directors, I would like to express my sincere thanks.

ı	wish v	/OII	hoog	health	and	all	the	hest
ı	VVISII	you	goou	Health	anu	an	uic	nest.

Chairperson

Hsiu-Lan Hsu

II. Company Profile

I. Date of Incorporation

January 21, 1981

II. Company History

The Company was officially established.
Trial production of silicon monocrystal rod and silicon wafer was successful.
Dr. Yan Dao served as Chairperson of the Board of Directors.
Cash capital increase to NT\$300 million was formally approved.
The mass production of automobile rectifiers was successful and they were officially sold.
The Company became the first company in China which independently developed and completed the mass production of zinc oxide surge absorber, namely zinc oxide rheostat.
The monthly production of automotive rectifiers exceeded 2 million, second only to Motorola.
Cash increased to NT\$400 million.
ISO-9002 certification was obtained.
Phase IV plant renovation and new works were completed.
Ms. Sun Lingling served as the Chairperson of the Board.
Cash increased to NT\$600 million.
The Company invested in Songlong Electronics Co., Ltd. to manufacture surge absorbers.
The capital reserve converted into capital increase was NT\$630 million.
The Company invested in Actron Technology Corporation.
QS-9000 certification was passed.
The Company invested in Chinese Mainland and set up Kunshan Sino Silicon Co., Ltd.
Cash increased to NT\$780 million.
The mass production of polished wafers was successful.
Zhongchen completed the construction of the plant and began mass

production.

•	March 2001	Official listing and launching.
•	October 2001	"Ultrathin Wafer Processing Technology" won the Award of Research and Development Program of Innovative Technologies in Science Industrial Parks.
•	June 2002	"The High-efficiency Monocrystal Lifting Technology Development" Plan obtained the subsidy of Special Science and Technology Case of the Ministry of Economy.
•	November 2002	The Company invested in Topsil, Denmark.
•	December 2003	The eight-inch long crystal technology was successfully developed.
•	June 2004	"The Development Plan of 2.5mohm-cm Monocrystal Substrate Material with Ultra-low Resistance and Heavy Arsenic Doped Silicon" won the Award of Research and Development Program of Innovative Technologies in Science Industrial Parks.
•	July 2004	"The Large-size and High-efficiency Solar PV Silicon Monocrystal Substrate Material Development Plan" obtained the R&D Subsidy of Leading New Products of the Ministry of Economy.
•	July 2004	"The Sino-American Silicon Innovation Technology Research and Development Center" was established.
•	September 2004	"The High-power Power and Electronics Wafer Technology Development Plan" was awarded the Science and Technology Project of the Ministry of Economy.
•	September 2004	ISO 14001 certification was passed.
•	October 2004	The Company won the 12th Industrial Science and Technology Development Award.
•	November 2004	"Blue Diode Sapphire Substrate Material Development Plan" won the Award of Research and Development Program of Innovative Technologies in Science Industrial Parks.
•	April 2005	The research and development of thick film bonded wafer (SOI wafer) was successful.
•	June 2005	Chunan Branch was established.
•	July 2005	TS16949:2002 certification was passed.
•	September 2005	"Deep Diffusion Polishing Wafer Development Plan" won the Award of Research and Development Program of Innovative Technologies in Science Industrial Parks.
•	November 2005	Chunan Branch held the Beam Raising Ceremony.
•	November 2005	Phase II expansion of Zhongchen Plant was completed.
•	May 2006	Trial production of Chunan Branch was successful.
•	July 2006	The mass production of the Chunan Branch officially started.

 October 2006 Opening ceremony of Chunan Branch. April 2007 Mr. Ming-Kuang Lu served as the Chairperson of the Board. Acquisition of 100% of stock equity of GlobiTech Incorporated from April 2008 the US was completed. • October 2008 The Company won the Outstanding Innovative Enterprise Award of the 16th "Industrial Science and Technology Development Award" of the Ministry of Economy. October 2009 The 100 MW Acquaviva 3 solar power plant was installed in Bari, Italy, via SilFab Spa, a reinvestment company. • June 2010 The construction of Chunan No. 2 Plant was completed. September 2010 The Company won the Excellent Industry Contribution Award for the Implementation of Industry Science and Technology Program issued by the Ministry of Economy. November 2010 With Shengyang Photoelectric Technology Corporation and Xindong Investment Corporation, the Company established Zhongyang PV Corporation. The certification of the Taiwan Intelligent Property Management February 2011 System (TIPS) was passed. October 2011 The company division plan of three major business divisions was completed; Sino-American Silicon retained the solar energy business, and newly established Globalwafers (Semiconductor Division and Transfer) and Sino Sapphire (Sapphire Division and Transfer). April 2012 Globalwafers Corporation, a subsidiary of Sino-American Silicon, completed the acquisition of the semiconductor silicon wafer business division of Japanese company Covalent Materials Corporation. • September 2012 Aegis® Wafer won the Solar Energy Industry Award/Silicon Material Innovation Award. January 2013 Sino Sapphire, a subsidiary of Sino-American Silicon, was formally merged into Crystalwise Corporation. February 2013 The further certification of the Taiwan Intelligent Property Management System (TIPS) was passed. May 2013 Sino-American Silicon merged Zhongyang PV, and integrated solar energy business resources. Sino-American Silicon was awarded the title of Top 50 Taiwan's September 2013 Listed Enterprises in Terms of Patent Value of the United States. August 2014 The mergers and acquisition of Sunrise Global Solar Energy Co., Ltd. was completed.

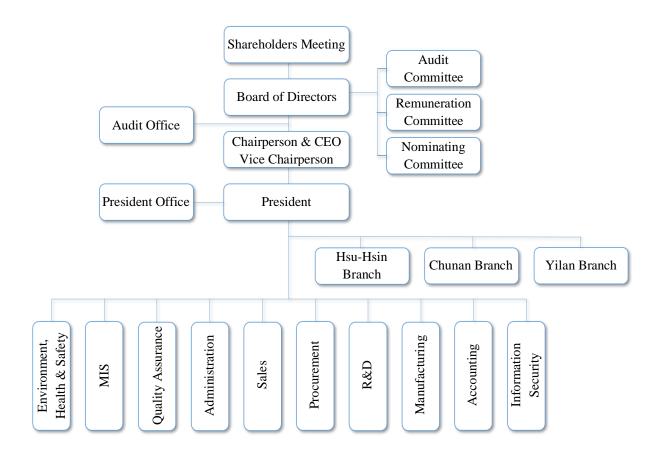

April 20)15	The certification of Occupational Safety and Health Management System OHSAS 18001 was passed.
• April 20)15	The Company won the title of "Top 5% of TPEx Listed Companies" of the First Corporate Governance Appraisal.
• July 201	15	Sino-American Silicon was engaged in solar system, and the construction of Palo Power Plant in Philippines started.
March 2	2016	The ISO 9001:2015 certification of Chunan Plant was passed.
• April 20	016	The Company won the title of "Top 5% of TPEx Listed Companies" of the Second Corporate Governance Appraisal.
• May 20	16	The 50MW solar power plant built on Wright Island in the Philippines was officially commercialized.
 August 	2016	The Company won Laudise Prize of the International Organization of Crystal Growth (IOCG).
 December 	oer 2016	President Hsiu-Lan Hsu won the Award of National Outstanding Executive Award of Business Managers Association.
 December 	oer 2016	The Company won the Golden Energy Award awarded by the Energy Bureau of the Ministry of Economy.
• Februar	ry 2017	The subsidiary FZtech Inc. won the Integration Output Award of Smart City Exhibition System in 2017.
• April 20)17	The Company won the title of "Top 5% of TPEx Listed Companies" of the Third Corporate Governance Appraisal.
• April 20)17	The Company won the National Invention and Creation Award in 2016.
• Novem	ber 2017	The Company participated in the establishment of the Product Carbon Footprint Emission Coefficient Database of Environmental Protection Administration, Executive Yuan in 2017 and contributed a lot.
• Novem	ber 2017	The Company won the Gold Award of Electronic and Information Manufacturing Industry Group of "Taiwan Company Sustainability Award (TCSA) in 2017".
December	oer 2017	The Company was selected as a benchmark enterprise in Economic Daily's "Corporate Social Responsibility Yearbook in 2017".
April 20	18	The Company won the title of "Top 5% of TPEx Listed Companies" of the Fourth Corporate Governance Appraisal.
April 20	19	The Company won the title of "Top 5% of TPEx Listed Companies" of the Fifth Corporate Governance Appraisal.
• May 20	19	The solar cells are certified with the Made in Taiwan MIT Smile Product.

• April 2020	The Company won the title of "Top 5% of TPEx Listed Companies" of the Sixth Corporate Governance Appraisal.
September 2020	The Company won the Excellency Award for "2020 Outstanding Enterprise of Waste Reduction and Circular Economy" sponsored by the Science Park.
• April 2021	The Company won the title of "Top 5% of TPEx Listed Companies" of the Seventh Corporate Governance Appraisal.
• May 2021	The Chunan Plant won the Diamond Grade Label of Green Buildings.
• December 2021	The Chunan Plant won the Green Factory Label.
• April 2022	The Company won the title of "Top 5% of TPEx Listed Companies" of the Eighth Corporate Governance Appraisal.
October 2022	The Come won Taiwan Excellent PV Award.
• April 2023	The Company won the title of "Top 5% of TPEx Listed Companies" of the Nineth Corporate Governance Appraisal.

III. Corporate Governance Report

I. Organization Structure

A. Organization Chart

B. Responsibilities of Major Departments

Department	Responsibilities
Chairperson	Set up business plans, strategies, and targets. Execute resolutions from Board of Directors Meeting and Shareholder Meeting
Audit Office	Inspect and assess the soundness, adequacy and effectiveness over the Company's internal control system. Responsible for the execution, audit and reports over the internal controls.
President and President's Office	Perform resolutions from meetings of Board of Directors. Execution of management and projects. Define business plans and strategies and ensure planned business targets achieved. Evaluate and analyze business and management performance.
MIS	 Maintain IT hardware & software Plan and execute E-working
Information Security	 Promotion of cyber security Legal compliance of cyber security Promotion of cyber security policies
Environment, Health & Safety	Responsible for the formulation and management of the Company's occupational safety and health management norms and systems, identify and prevent accidents and disaster risks, promote the management, and improve the promotion of staff health and safety and other related business activities.
Quality Assurance	Establish and maintain products standards and its relevant inspection standards. Inspect on purchased materials, tools, production process, and finished products. Perform product quality improvement activities.
Administration	 Plan, recruit and train human resources, plan and perform annual training courses. Legal related business, including compliance of laws and regulations, contracts and lawsuits.
Accounting	Capital, taxation, asset management, finance and management accounting.
Sales	 Market strategy, explore potential market, customer communication and after service. Collect market information, customer service and product application, assist the R&D and promotion activities of new products.
Procurement	Procure and purchase. Evaluate new suppliers. Manage raw materials and suppliers.
R&D	Research, develop, test new products. Improve production technology, yield and capacity. Collaborate with academic institutions. Design and improve machineries.
Manufacturing	 Manage production and quality, abnormity, utilization of raw materials, scrap, maintain work environment and security, human resource arrangement and training, expansion preparation and execution. Construct and maintain plant facilities of the Company, and execute environmental safety, sanitary and industrial safety issues Evaluate and purchase new machineries and in charge of maintenance and improvement.

II. Information on the Company's Directors, Supervisors, President, Vice President, Assistant Vice President, and The Supervisors of All the Company's Divisions and Branch Units

5. The board of directors' diversity and independence:

a. The board of directors' diversity:

The Company's "Corporate Governance Best-Practice Principles" has expressly defined the formation of the Board members and ability to be held by the members. The Company has also established the diversified policy for the Board members. The composition of the board of directors has been determined by taking diversity into consideration, and appropriate policy on diversity based on the Company's business operations, operating dynamics, and development has been formulated, as the following two general standards:

- 1. Basic requirements and values: Gender, age, nationality, and culture.
- 2. Professional knowledge and skills: A professional background (e.g., law, accounting, industry, finance, marketing, or technology), professional skills, and industry experience.

All members of the board shall have the knowledge, skills, and experience necessary to perform their duties. To achieve the ideal goal of corporate governance, the board of directors shall possess the following abilities:

- 1. Operational Judgment Ability
- 2. Accounting and Financial Analysis Ability
- 3. Business Management Ability
- 4. Ability to conduct crisis management.
- 5. Industrial Knowledge
- 6. International Market Perspective
- 7. Leadership Ability
- 8. Decision-making Ability

The implementation of diversity by board members is illustrated as follows:

Of the seven current directors of the Company, three are independent directors (accounting 30%); one is female director (10%), and two are directors with employee status (20%); three independent directors have a term of less than three years. The Company emphasizes the gender equality among the board members, and the target is at least one seat of female director.

The board members possess the work experience and expertise in operation and management, industrial knowledge, finance and strategic management; the implementation of the board members' diversity are as following table:

Diversified Core Items			an employee			Age			Terr offic indepe dire	e for endent	Ability	lysis Ability	Ability	lures	ge	spective		lity

b. The board of directors' independence

The Company's Board of Directors consists of ten directors, including three independent directors, which account for 30% of the board composition and all of whom meet the independence criteria set forth in Article 3 of and the concurrent position restriction set forth in Article 4 of the "Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies." The composition of the board has no circumstances provided in paragraph 3 and 4 of Article 26-3, the Securities and Exchange Act (spouses or relatives within the second degree of kinship among directors). The composition of the board meets the independence requirement.

President and	0.70%	1.34%	0.80%	1.53%
Vice President	0.70%	1.34/0	0.80%	1.33%

- 2. The policies, standards, and portfolios for the payment of remuneration, the procedures for determining remuneration, and the correlation with business performance.
 - a. The policies, standards, and portfolios for the payment of remuneration:

The Company's remuneration for Directors is handled in accordance with the Company's Articles of Incorporation and the allocation rules of Directors' remuneration, which can be divided into three categories: Directors' compensation, Directors' remuneration and operating expenses; and the remuneration for Presidents and Vice President of the Company can be divided into three categories: salary, bonus and car allotment, employee remuneration, which are authorized by the Board of Directors to be verified based on the relevant provisions of the Company's salary verification.

b. Procedures of Remuneration:

According to the Company's Articles of Incorporation, if the Company is profitable during the year, it shall allocate 3–15% as employee remuneration in shares or cash upon the resolution of the Board of Directors. Employees of subsidiaries of the company meeting certain specific requirements shall be entitled to receive remuneration. The Company may allocate at most 3% of the aforementioned profit as directors' remuneration upon the resolution of the Board of Directors. The distribution proposal of remuneration of employees and Directors should be submitted and reported to the shareholders' meeting.

If it has accumulative losses, the Company should reserve and make up the amount before distributing remuneration to the employees and Directors according to the percentage mentioned in the preceding paragraph. In addition, in the business execution cost, only the traffic allowance for each Directors' meeting is distributed. The procedures for determining Directors' remuneration should be based on the performance evaluation method of the Board of Directors of the Company, the participation in and contribution to the Company's operation should be considered, and reasonable remuneration should be given. The part of remuneration received by the President and Vice President of the Company is based on the operating performance quota of the annual budget approved by the Board of Directors each year. The payment method is based on "Measures for the Administration of Wages and Remuneration of the Company's Managers" and "Measures for Employee Remuneration Distribution."

The Company established Remuneration Committee at the end of 2011, which periodically examines performance of Directors and managers, as well as remuneration policy, system, standard and structure. Report if above-mentioned will be discussed in the Board of Directors.

c. Connection between operation performance and future risk:

Performance evaluation and remuneration of Directors and managers are measured based on market average, operating results, degree of participation (including the attendance rate, the frequency of communication, the suggestions provided, etc.) and contribution to the Company's performance (including financial indicators such as revenue and profit achievement rate, and non-financial indicators such as law and internal control compliance, or special achievements, etc.), and comprehensively consider the monetary amount, distribution method and future risk of the Company. It has a positive correlation with the performance and responsibility of the Company's business.

III. Implementation of Corporate Governance

A. Operations of the Board of Directors

The Board of Directors was held for 7 sessions in 2022. The Attendance of Directors was as follows:

Title	Name	Attendance in Person	By Proxy	Attendance Rate in Person (%)	Note
Chairperson	Hsiu-Lan Hsu	7	0	100%	Reappointed on June 24, 2020
Vice Chairperson	Tang-Liang Yao	7	0	100%	Reappointed on June 24, 2020
Director	Ming-Kuang Lu	7	0	100%	Reappointed on June 24, 2020
Director	Wen-Huei Tsai	7	0	100%	Reappointed on June 24, 2020
Director	Feng-Ming Chang	7	0	100%	Elected on June 24, 2020
Director	Kai Jiang Co., Ltd. Representative: Hau Fang	7	0	100%	Reappointed on June 24, 2020
Director	Kun Chang Investment Co., Ltd. Representative: Edward Andrew Ow	6	1	86%	Elected on June 24, 2020
Independent Director	Jin-Tang Liu	7	0	100%	Elected on June 24, 2020
Independent Director	Hou-Chung Kuo	7	0	100%	Elected on June 24, 2020
Independent Director	Shao-Lun Li	7	0	100%	Elected on June 24, 2020

Other mentionable items

- I. If there are any of below circumstances, the dates of meetings, sessions, contents of motions, all Independent Directors' opinion and the Company's response to Independent Directors' opinion should be specified:
 - A. Matters listed in Article 14-3 of the Securities and Exchange Act:
 Not applicable. The Company has set up an Audit Committee, which is governed by Article 14-5 of the Securities and Exchange Act.
 - B. Despite issues previously mentioned, other resolutions of the Directors' meetings objected by Independent Directors or subject to qualified opinion and recorded or declared in writing: No such matter has occurred in the Company.
- II. If there is Directors' avoidance of motions in conflict of interest, the Directors' names, contents of motions, causes for avoidance and voting should be specified:
 - A. On March 17, 2022, the Board of Directors discussed about the Letter of Support to be issued by the Company for Crystalwise Technology Inc. As Chairperson Hsiu-Lan Hsu and Vice Chairperson Tang-Liang Yao were Director and Chairperson of Crystalwise Technology Inc. and the interested party in the case, he was avoided of motions in conflict of interest according to law and did not participate in the discussion and voting.

- B. On March 17, 2022, the Board of Directors discussed about buying more shares of Advanced Wireless Semiconductor Company. As Directors of Advanced Wireless Semiconductor Company, Chairperson Hsiu-Lan Hsu and Director Wen-Huei Tsai are a party of interest in this agenda and therefore recused themselves from discussion and voting.
- C. On April 7, 2022, the Board of Directors discussed about buying more shares of Advanced Wireless Semiconductor Company. As Directors of Advanced Wireless Semiconductor Company, Chairperson Hsiu-Lan Hsu and Director Wen-Huei Tsai are a party of interest in this agenda and therefore recused themselves from discussion and voting.
- D. On May 5, 2022, the Board of Directors discussed about buying more shares of Advanced Wireless Semiconductor Company. As Directors of Advanced Wireless Semiconductor Company, Chairperson Hsiu-Lan Hsu and Director Wen-Huei Tsai are a party of interest in this agenda and therefore recused themselves from discussion and voting as required by law.
- E. On May 5, 2022, the Board meeting discussed the distribution of directors. The proposal is voted one by one for each individual director; and each director recused him/herself for his/her own remuneration due to conflict of interest, not participating discussion and voting.
- F. On May 5, 2022, the Board of Directors discussed the distribution of remuneration to managerial officers. Because Chairperson Hsiu-lan Hsu and Vice Chairperson Tang-Liang Yao are subject to the distributions, they recused themselves from discussion and voting as required by law.
- G. On August 4, 2022, the Board of Directors discussed the proposal on salary adjustments for managerial officers. Because Chairperson Hsiu-lan Hsu and Vice Chairperson Tang-Liang Yao are a party of interest in this agenda, they recused themselves from discussion and voting as required by law.
- H. On September 22, 2022, the Board of Directors discussed about the extension of unsecured ordinary corporate bonds privately placed by Crystalwise Technology Inc. As the Director and Chairperson of Crystalwise Technology Inc., Chairperson Hsiu-Lan Hsu and Vice Chairperson Tang-Liang Yao are, respectively, a party of interest in this agenda and therefore recused themselves from discussion and voting as required by law.
- I. On December 8, 2022, the Board of Directors discussed about the Letter of Support to be issued by the Company for Crystalwise Technology Inc. As Chairperson Hsiu-Lan Hsu and Vice Chairperson Tang-Liang Yao were Director and Chairperson of Crystalwise Technology Inc. and the interested party in the case, he was avoided of motions in conflict of interest according to law and did not participate in the discussion and voting.

Committee	managers.		
Continuously incomes the	The Company appointed a special person to be responsible for the		
Continuously improve the	disclosure of Company information and updating information on the		
information transparency	Company website.		

Actively make communication with stakeholders	The Company has spokespersons and acting spokespersons, and stakeholders can use them as channels of communication. Every year, the shareholder's meeting accepts the shareholders' proposals according to the schedule. The shareholders who have the right to submit proposals can apply to the Company during the period of acceptance. The Company will convene the meeting of Board of Directors to examine the proposals in accordance with the relevant provisions.
Improve the operational	The Company has formulated "the Meeting Standards of Board of
efficiency and decision-	Directors" to strengthen the implementation of the functions of the
making ability of the Board of	Board of Directors, and promote the healthy development of the Board
Directors	of Directors' participation in decision-making.
Strengthen professional knowledge	The Directors and Supervisors of the Company should study for a number of hours per year as prescribed by the competent authority, the relevant members of the Board of Directors should be encouraged to participate in various professional courses, and the relevant decrees should be promulgated at the meeting of the Board of Directors to comply with the provisions of the decree.
Appoint Corporate Governance Officer	In order to implement corporate governance and enhance the effectiveness of the Board of Directors, on May 9, 2019, the Board of Directors set the position of Corporate Governance Supervisor to provide Directors with relevant information to perform their duties and other necessary assistance.

B. The Operation of the Audit Committee:

A total of 7 Audit Committee meetings were held in 2022. The attendance of the Independent Directors was as follows:

Title	Name	Attendance in Person	By Proxy	Attendance Rate (%)	Note
Independent Director	Jin-Tang Liu	7	0	100%	Elected on June 24, 2020
Independent Director	Hou-Chung Kuo	6	1	86%	Elected on June 24, 2020
Independent Director	Shao-Lun Li	7	0	100%	Elected on June 24, 2020

For the professional qualifications and experience of members of the Audit Committee, please refer to the relevant content of this annual report "III. Corporate Governance Report / II. Directors' Information / 4. Directors' Professional Qualifications and Information Disclosure of Independent Directors' Independence".

Formation and operations of Audit Committee:

The Company's Audit Committee consists of three independent directors, and operates primarily in order to supervise the following matters:

- I. The fair expression of the Company's financial statements
- II. Selection (dismissal) of certification accountants and their capability, credentials, independence and performance.
- III. Effective implementation of the Company's internal control
- IV. Company compliance with laws and regulations.
- V. Control and management of the company's potential or existing risks.

Other mentionable items

- Where the operation of the Audit Committee meets any of the following circumstances, the minutes
 concerned shall clearly state the meeting date, term, contents of motions, independent directors'
 dissent, qualified opinion, or material recommendations, resolution of the Audit Committee and the
 Company's handling of said resolution.
 - A. Items specified in Article 14-5 of the Securities and Exchange Act:
 The motions of 2022 were approved by all the members present in the Audit Committee and all the directors present in the Board of Directors. The operation of the Audit Committee in 2022 was as follows.

				Company renamed its sustainability organization the "ESG Committee,"	
				which shall be chaired by the Chairperson of the Board of Directors, to	
				facilitate deeper promotion and implementation of sustainability goals.	
				The ESG Committee is the highest governing body overseeing the	
				management and supervision of sustainability practices within Sino-US	
				Silicon. To promote ESG-related activities, the ESG Committee has set up	
				professional committees (incorporated as needed). Promotion	
				committees are established in the early stage of project implementation	
				to achieve short-term goals. The Company has established two promotion	
				committees as needed, namely the Greenhouse Gas Inventory and	
				Reduction Promotion Committee, and the TCFD Promotion Committee.	
				Both promotional projects have been completed and will be forwarded to	
				the respective professional committees for task integration, regular	
				follow-up monitoring, review, and inspection. Each year, the chair of the	

			Implementation Status	Deviations from "the
Evaluation Item	Yes	No	Abstract Explanation	Corporate Social Responsibility Best- Practice Principles for TWSE/TPEx Listed Companies" and Reasons
			ESG Committee reviews the performance and the achievement of goals and performs continuous review for improvement. With the concerted efforts of all departments, we strive to fulfill our corporate sustainability commitments. In addition, the ESG Committee has reported to the Board of Directors on August 4, 2022 regarding implementation focuses, annual targets, and implementation results. The Committee is supervised by the board of directors. In addition to the annual report by the chair to the board of directors on the implementation of sustainable development and the achievement of goals, it also reports ESG promotions to the board of directors every quarter. The board of directors supervises the goal-setting for sustainable development and reviews the implementation, while giving relevant advices and guidance based on the content of the report.	
II. Whether the company conducts business operations in accordance with the principle of materiality risk assessment of environmental, social and corporate governance issues, and formulates relevant risk management policies or strategies?	V		The Company has prescribed the "Risk Management Policy and Procedures" approved by the board of directors. The board of directors is the highest risk management unit, based on the overall operating strategies and operating environment, aims to comply with laws and regulations, promote and implement the Company's holistic risk management, and bear the ultimate responsibility for risk management; the senior management is responsible for planning, commanding, and deploying the implementation of risk management decisions by the board of directors, and coordinating interaction and communication for the cross-departmental risk management; each functional unit is responsible for analyzing, managing and monitoring related risks within their	difference

			Implementation Status	Deviations from "the
				Corporate Social
				Responsibility Best-
Evaluation Item	.,			Practice Principles for

				Companies" and
				Reasons
			respective units; the internal audit is an independent unit that assists the	
			board of directors to monitor the implementation of the risk management	
			mechanism, to ensure the effective implementation of the risk control	
			mechanism and procedures. The scope of risk management includes	
			hazard risk, operational risk, financial risk, strategic risk, compliance	
			risk/contract risk, environmental risk and other risks. Through the	
			effective implementation of risk management processes (including risk	
			identification, risk measurement, risk monitoring, risk reporting, and risk	
			response), the Company's risk management mechanism is realized.	
			The Company's ESG Committee conducts risk evaluation on	
			environmental, social and governance issues related to company	
			operations based on the principle of materiality; establishes relevant risk	
			management strategies to identify more risks following the three major	
			emerging risks identified in 2020—climate change, information security,	
			and epidemic diseases; and formulates risk strategies and action plans to	
			mitigate any possible impacts on all aspects of the company's operations.	
			In doing so, we ensure that risks are effectively controlled. For more	
			information on each risk and corresponding risk management strategies,	
			please refer to the "Governance and Operations" section and "Climate	
			Change Risk Management" section in the Company's Sustainability	
			Report.	
			The Company regularly assesses risks every year. The risk assessment	
			boundary covers all the Company's operations and production bases, and	
			the assessment is reported to the board of directors annually. The latest	
			report was made to the board of directors on August 4, 2022.	

			Implementation Status	Deviations from "the
Evaluation Item	Yes	No	Abstract Explanation	Corporate Social Responsibility Best- Practice Principles for TWSE/TPEx Listed Companies" and Reasons
III. Environmental issues (I) Whether the Company establishes an appropriate environmental management system which suits its industrial characteristics?	V		The Company insists the promotion of ISO 14001 Environment Management System," and "ISO 50001 Energy Management System, "The Company introduces the concept of product lifecycles, and starts from improving the manufacturing process and product design stage in order to truly achieve reduction of source raw materials. The Company accommodates the environment and energy management system, to determine the goal of energy saving and material saving every year, while continuously implementing water recycling and waste reduction measures, to treasure resources and reduce uses of resources, and achieving the effect of reducing greenhouse gas emissions. The Company abides by relevant domestic laws and regulations. Chunan plant and llan plant have passed and renewed the internationally recognized environmental and safety and health management system certification of ISO 14001 and ISO 45001 certification. The updated certifications information as below: ISO 45001: 2018 Expiry: 11 March, 2022-11 March, 2025 Approved Date: 17 February, 2022 Certification No.: 196466-2016-ASA-RGC-JAS-ANZ ISO 14001: 2015 Expiry: 11 March, 2022- 11 March, 2025 Approved Date: 17 February, 2022 Certification No.: 196463-2016-AE-RGC-UKAS	difference

			Implementation Status	Deviations from "the
Evaluation Item	Yes	No	Abstract Explanation	Corporate Social Responsibility Best- Practice Principles for TWSE/TPEx Listed Companies" and Reasons
			The company upholds the corporate social responsibility and aims to take care of environmental protection while serving customers, and provide a better and safer working environment. The implementation of ESH through the "compliance with laws and regulations, environmental protection, hazard prevention, continuous improvement, all staff awareness" policy. The company has obtained environmental management system, energy management system, and occupational safety and health management system certifications, meanwhile, the company is responsible for boosting and execution of environmental protection problems, safety and health affairs for environmental management by promoting the environmental protection concept, strengthening the educational training, saving energy and reducing carbon internally, fulfilling the environmental management policies and establishing the unit dedicated to managing labor safety and health affairs.	
(II) Whether the Company is committed to improving the utilization efficiency of various resources and using recycled materials with low impact on environmental?	V		The Company, by promoting the "ISO 14001 environmental management system," has introduced the product life cycle concept in order to reduce raw material consumption and waste output, and achieve the goal of sustainable operation and environmental protection. To achieve the goal of sustainable utilization of environmental resources, the Company focuses on the improvement of the efficiency of the use of various resources, gives priority to the process reduction and reuse, and finally makes disposal; in the selection of raw materials, it will choose recycled materials with low impact on the environment as far as possible in order to reduce the impact on the environment.

			United Nations Global Compact, and the International Labor Conventions,	
			and abide by relevant labor laws and above international human rights	
			regulations, setting "Human Rights Policy", in an effort to creating an	
			equal, safe, and dignified workplace environment.	
			The five policy guideline and related implementation status of the	
			Company "Human Rights Policy" as below:	
			1. Continuing to create opportunities for achieving diversity,	
			inclusiveness, and equality and prohibit any forms of discrimination	
			(including on the basis of gender, gender orientation, race, class, age,	
			marital status, language, thought, religion, political party, place of	
			origin, place of birth, appearance, facial features, disability, etc.)	
			The Company continues to promote the prohibition of all	
			inappropriate discrimination in recruitment, appointment, and	
			operating processes. To fulfill the responsibility of caring for migrant	
			workers, we not only organize Christmas parties or prepare	
			Christmas gifts for Filipino workers every year, but also commit to	
			improving their overseas living conditions.	
			2. Prohibiting forced labor and child labor The Company complies with all labor related laws and regulations	
			The Company complies with all labor-related laws and regulations, respects the wishes of all employees, and encourages work–life	
			balance. In addition, methods of detecting child labor and remedial	
			measures are clearly stipulated in the "Personnel Employment Rules"	
			to ensure that all operating activities are free from the illegal use of	
			child labor. If use of child labor in operational processes is found,	
			onita labor. It use of child labor in operational processes is found,

Compan Reas	
	es" and
relevant remedial plans will be enforced for six months or until the child reaches the age of 16 in order to protect the rights of the child. 3. Creating a safe and healthy work environment The Company continues to provide free health examination, arrange on-premise medical services, organize health promotion activities, and keep track of specific populations to raise employees' awareness of self-health management. In 2022, we organized a total of 62 health promotion activities such as lectures, first aid courses, cancer prevention screening, etc., for a total of 2,517 participants. The Company also establishes various work safety and health management procedures and operating standards, and implements special hazardous operation control, chemical management, and environmental monitoring to prevent occupational injuries, eliminate hazards, and reduce environmental safety and health risks, thereby creating a safe operating environment for employees. 4. Providing fair and reasonable salary and working conditions Each year, the Company determines industry salary standards through salary surveys, and appropriately adjusts employee salaries with reference to objective data such as overall economic indicators and price indexes. For the purpose of fairness, employee remuneration standards are based on job position, seniority, and professional skills to ensure equal pay for equal work and avoid discrimination and differential treatment on the basis of gender, age, or other conditions. The Company also strictly control working hours to not exceed the statutory limit, and actively prevent overwork by

Evaluation Item	Yes	No	Abstract Explanation	Practice Principles for
			'	TWSE/TPEx Listed
				Companies" and
				Reasons
			regularly reviewing attendance analysis reports and management	
			systems.	
			5. Providing avenues and environment for freedom of expression and	
			respecting employees' freedom of association.	
			The Company convenes four employer-employee meetings each year	
			during which matters concerning the coordination of labor-	
			management relations, labor conditions, and worker benefits are	
			discussed so as to promote harmonious employer-employee	
			relations. The Company also sets up employee suggestion boxes in	
			appropriate and obvious places to provide employees with	
			whistleblowing and grievance channels, so that their dissatisfaction	
			and concerns can be expressed and resolved.	
			The above policies and statements have been declared by senior	
			executives and are published on the Company's website.	
			Each year, the Company assesses risks associated with human rights and	
			labor rights in accordance with the Responsible Business Alliance (RBA)	
			standards, which are incorporated in the Company's "Personnel	
			Employment Rules" and "Sexual Harassment Preventive Measures,	
			Complaint and Punishment Regulations". Employees can anonymously	
			submit grievances via such channels as the mailbox or telephone to report	
			illegal infringements. Relevant committees will keep the entire handling	
			process confidential. Meeting outcomes will be used to actively track,	
			monitor, and afford necessary support to the parties involved so as to	
			safeguard human rights and avoid recurrence. The Company has not been	
			the subject of any complaints for violation of human rights (forced labor,	

	Implementation Status			Deviations from "the
Evaluation Item	Yes	No	Abstract Explanation	Corporate Social Responsibility Best- Practice Principles for TWSE/TPEx Listed Companies" and Reasons
			child labor, discrimination, harassment, and freedom of association) at all operating locations in the past three years.	
			Regarding training, new recruits are trained on human rights when they report for duty; existing employees are arranged from time to time to take courses on workplace violence and sexual harassment prevention. These training courses are mandatory to employees in managerial roles, who are identified as one of the main stakeholders of the Company, so as to actively prevent illegal infringement in the workplace. In 2022, the Company recorded 303 people in attendance, for a total 265 hours of training.	
(II) Whether the Company legislates and implement reasonable employee welfare measures (including compensation, vacations and other benefits), and appropriately reflect operating performance or results in employee compensation?			The Company fairly decides and distributes employees' remunerations from the annual profit, if any, for 3%~15%, as set for in the Articles of Incorporation, and the performance of individual employee pursuant to the "Employee Remuneration Distribution Procedures." It seeks to properly reflect the operating performance or results on the employees' remunerations. The Company establishes attendance rules in accordance with the Labor Standards Act. The attendance rules specify paid leaves to which employees are entitled. All employees of the Company are entitled to labor insurance, health insurance, group insurance, and pension contribution, among other general benefits. Company-provided benefits include year-end bonus, gifts for birthday and festivities, year-end banquet, subsidies for matrimony, bereavement, and other celebration, domestic and overseas travel, emergency relief fund, scholarship, on-the-	difference

(III) Whether the Company provides its employees with a safe and healthy work environment, and regularly implements employee safety and health education measures?			job education subsidies, childbirth subsidy, meals, and comprehensive range of training programs. The Company also creates a cross-functional team to be in charge of an Employee Care Program (ECP) that integrates employee benefits and plans ways to improve their benefits so that appropriate resources are made immediately available when employees encounter a personal problem. Since 2021, the trust of employee shareholding was also added. Employees may evaluate on their own whether to join or not, and participants are given rewards equal to 100% of the amount contributed by themselves. 1. The Company regularly inspects the working environment of employees, and conducts various safety and health education and training courses and health seminars based on the needs of employees, promotes anti-bullying in the workplace, annual physical checks of employees, and distribute health information to all employees weekly, to create a happy, healthy and safe workplace environment for each employees. 2. The Company's Chunan and Yilan Plants have passed the environmental and occupational safety management system verification and updated their ISO 14001 and ISO 45001 certificates to provide the employees with a healthy and safe working environment. The updated certifications information as below: ■ISO 45001: 2018 Expiry: 11 March, 2022-11 March, 2025 Verification date: 17 February, 2022	No significant

			and other matters. The matters discussed about in the meeting are recorded, and continuously tracked and improved. 3. In 2022, there were no work-related incidents of death, occupational illness, or major occupational hazards. The Company recorded 10 occupational injuries (excluding incidents that occurred during employees' commute), 4 of which involved falling, 2 entrapment, 1 chemical exposure, and 1 injury due to improper operations. The Ministry of Labor-defined disability injury frequency rate (FR) was 5.62, and disability injury severity rate (SR) was 144. We have conducted special investigations for each occupational disaster incident, and taken improvement measures (such as improving facilities/equipment, establishing systematic document specifications, or strengthening personnel education and training) based on the root cause of the incident, and provided training to other departments to prevent similar incidents from occurring again. Please refer to the Company's Sustainability Report "Chapter V. Great Workplace Health and Safety" for detailed information.	
(IV) Whether the Company establishes some effective career development training plan for employees?	V		Each year the Company establishes annual education training program based on our operation strategies and short/mid/long term goals, and consider talent cultivation and technology inheritance as our key task. We strengthen our talent database in order to keep track of the talent dynamics and development direction in the group. We host various types of training courses, academia-industry collaboration and research projects, in order for our employees to stay tuned to real-time global political and economic trends and status, technology updates, while	difference

			conflict-free minerals, trade compliance, non-infringement, prohibition of silicon materials linked to forced labor, and green procurement (RoHS, REACH and WEEE). The Statement also emphasizes that the suppliers are obligated to observe regulations that apply to their business activities. In our "Purchase Order Form", we also request suppliers to comply with the Responsible Business Alliance (RBA) Code of Conduct, including requirements related to RoHS, REACH and WEEE, and to ban the use of conflicting minerals, promote engagement in green procurement, and enforce policies and regulations related to environmental protection, occupational safety and health, intellectual property rights, labor rights, and human rights.	
V. Does the company prepare sustainability reports and other reports that disclose non-financial information by following international reporting standards or guidelines? Does the company obtain third-party assurance or guarantees for the reports above?	V		 The Company prepares Sustainability Reports in alignment with the Global Reporting Initiative (GRI) Standards, indicators of semiconductor industry in the "Sustainability Accounting Standards" issued by the Sustainability Accounting Standards Board (SASB), and "Taipei Exchange Rules Governing the Preparation and Filing of Sustainability Reports by TPEx Listed Companies". The Company's 2022 Sustainability Report has been verified by DNV GL Business Assurance Co., Ltd. as meeting the requirements of the GRI Standards and moderate level of assurance of DNV VeriSustain. The Sustainability Report and verification statement are disclosed on the Company website and Market Observation Post System. 	difference

VI. If the Company has established the corporate social responsibility principles based on "the Corporate Social Responsibility Best-Practice Principles for TWSE/TPEx Listed Companies", please describe any discrepancy between the Principles and their implementation:

			Deviations from "the	
				Corporate Social
				Responsibility Best-
Evaluation Item	Voc		Abstract Explanation	Practice Principles for
	Yes	No		TWSE/TPEx Listed
			Companies" and	
				Reasons

The Company has established the "Sustainable Development Best-Practice Principles" and devoted to promote the sustainable development, which has no significant difference with the Rules.

- VII. Other important information to facilitate better understanding of the Company's promotion of sustainability development:
 - 1. Environmental protection: It is everyone's responsibility to promote environmental protection and low-carbon activities. In addition to strengthening energy-saving management and control of the process, the Company actively implements waste classification and resource recovery, promotes energy saving and carbon reduction, and has energy-saving and carbon-reduction equipment expenditure.
 - 2. Social welfare: The Company continues to assess risks and opportunities in our place of business operations. We are committed to taking care of disadvantaged individuals in rural areas, such as economically disadvantaged families, children, and those with physical and mental disabilities, expecting through the charity donation activity support to improve their life and education condition. In addition, implement specific action plans for environmental protection in the place of operation through local volunteer services. To encourage employee participation in charity and welfare, the Company will match employee's contribution at a 1: 1 ratio (i.e., the company will donate the exact same amount of donation made by employees), thereby increasing the size of donation to help more places that are in need of assistance. The Company invested resources in the following social welfare activities in 2022:
 - (1) "Hsinchu Wujian Center Healthy Fundraising" in which we donated NT\$32,000 to World Vision Taiwan Taochumiao Office.
 - (2) "Caring for Angel Families" in which we donated NT\$50,000 to Angel Heart Family Social Welfare Foundation.
 - (3) "Learning Care Program for Disadvantaged Children in Yilan" in which we donated NT\$131,000 to Yilan Taiwan Fund for Children and Families.
 - (4) "Be a Protector Safeguarding the Home of People in Vegetative State" in which we donated NT\$57,000 to Genesis Social Welfare Foundation Miaoli Branch.
 - (5) "2022–2023 Hsinchu Children Safety and Home Safety Improvement Plan" in which we donated NT\$190,000 to World Vision Taiwan Taochumiao Office.
 - (6) "2022 Charity Bazaar Fundraising" in which we donated NT\$61,000 to the Association for Victim Support (ACS) Hsinchu Branch.
 - (7) "Canes for the Blind" in which we donated NT\$85,000 to Taiwan Foundation for Blind.
 - (8) "2023 Rural Family Education Program (Mobile Library/In-Home Cooking Service)" in which we donated NT\$205,000 to World Vision Taiwan Yilan Office.
 - (9) "Winter Charity Fair Sponsorship Program" in which we donated NT\$10,000 to Hsinchu Center of Taiwan Fund for Children and Families.
 - (10) "2022 Mid-Autumn Festival Moon Cake Donation Charity Event" in which we donated NT\$10,000 to to Holy Family for Special Education.

			Deviations from "the	
				Corporate Social
			Abstract Explanation	Responsibility Best-

				Companies" and
			Reasons	

- (11) "2022 Beach Cleanup and Forest Protection" in which together with GlobalWafers mobilized 174 volunteers to clean up the beach by Longfeng Fishing Harbor in Chunan Township, Miaoli County. In total, 600 kg of litter were removed, averaging approximately 3.5 kg per person.
- 3. Consumer rights: The Company has internally established the "Customer Complaint Management Procedure" to provide customers with a channel to express their complaints, and signed contracts such as supply contracts and quality contracts with its customers, in order to fully ensure customer's rights and interests.
- 4. Human rights: The Company attaches great importance to human rights. Regardless of race, gender and age, employees enjoy the same right to work, and the Company also provides opportunities for free expression and development to standalone, in order to achieve respect for personal dignity.
- 5. Safety and health: With zero disaster as the goal, the Company is committed to the promotion of safety and health policy and the continuous improvement of process and working environment. Through the joint efforts of all staffs, we continuously improve the occupational safety and health performance.
- 6. Employee health care: The Company carries out health examination for employees each year to let them know their health status each ear, and then care for and strengthen their health. We also arrange professional medical specialists to visit our plant every month for consulting services. In the workplace, in order to grasp the status of employees' working environment and assess the exposure status of hazard factors, besides setting detection and alarm equipments at appropriate positions, work environment test is also done regularly as a basis for improving the workplace environment.
- 7. Human capital development: The Company identifies, cultivates, and rewards talented employees by adopting a sound performance-based reward system, fostering professionals who are still studying, subsidizing continuing education for in-house employees, or signing contracts with a cadre of key employees, so as to facilitate talent retention. In addition, we motivate employees to stay with the company by issuing employee stock ownership trust and awarding medals to senior employees.
 - (1) PhD and Masters scholarships: The Company has Rules on Applying for PhD and Masters Scholarships in place to continue to support the education of professionals and secure a pool of talents for the company after they graduate.
 - (2) Funding for on-the-job continuing education: The Company has "On-the-Job Continuing Education Rules" in place to fully subsidize the continuing education of in-house employees who demonstrate excellent performance and willingness to pursue further studies, thereby encouraging employees to advance their career.
 - (3) Signing contracts with a cadre of key employees: The Company enters a contractual relationship with a cadre of key employees in managerial roles who possess strategic planning capabilities or irreplaceable skills, so as to achieve talent retention and ensure the sustainable development of the Company's human capitals.

			Reasons	

- 8. Plant pandemic prevention: In 2022, the world has been still under the disturbance of COVID-19 pandemic, the Company monitored the pandemic evolution via the internal pandemic containment panel, and took the plant pandemic prevention measures. Under the side-by-side cooperation of various departments, pandemic prevention operations in the plant area were fully undertaken; the pandemic prevention strategies were formulated, and the management of hierarchical measures and inventory of resources for pandemic prevention were carried out. The Company has regularly held meetings to formulate pandemic prevention measures, to ensure healthy and safe workplace. The relevant pandemic prevention measures are as follows:
 - (1) Pandemic prevention information: in order to enable employees to correctly grasp the real-time information of pandemic prevention, the health management center regularly issues global pandemic information and in-plant pandemic prevention measures, so that employees may quickly receive correct pandemic prevention information.
 - (2) Health monitoring: Full body temperature monitoring is carried out at the accesses of each plant. If there is a fever or a history of suspected contact, entry into the plant is completely prohibited, and an internal electronic questionnaire survey will be conducted simultaneously with the central command center to track the confirmed case's footprint, as implementing the initiative of employees' report and voluntary health management.
 - (3) Visitor management: use emails and paper fliers to advocate on-site epidemic prevention measures to supply chain manufacturers, require visitors to fill-in the health declaration form before entry, and wear masks to protect the safety of employees.
 - (4) Office epidemic prevention: To prevent the infection risks due to crowd gathering, office workers have taken a number of contingency measures such as: crisscross seating, cabin separation, traffic flow diversion, and work from home in order to minimize crowd gathering and reduce the frequency of employee contact.
 - (5) Safe dining environment: The Company has planned epidemic prevention dining lines, table plastic partitions, disposable lunch boxes, and divided the dining area by units to ensure worry-free meal dining safety in the plants.
 - (6) Disinfection in the plants: The Company has formulated public area disinfection and cleaning measures, increase internal ventilation, encourage staff to open windows at confined spaces, affixed adhesive films on top of frequently used buttons, added partitions in restaurants, increased dry-cleaning equipment, and posted correct hand-washing instructions in all restrooms.
 - (7) Employee care: For high-risk groups, tracking is taken and the temperature re-examination and follow-up control is conducted. The outpatient services of psychologists is provided when necessary to help employees resolve negative emotions and stress.

G. The Company's Performance of Ethical Corporate Management and the Measures Taken

Evaluation Item		No	Abstract Explanation	"the Ethical Corporate Management Best- Practice Principles for TWSE/TPEx Listed Companies" and Reasons
and at least covers the "Ethical Corporate Management Best Practice Principles for TWSE/GTSM Listed Companies " Article 7, paragraph 2 of the prevention measures? (III) Whether the Company specify the operating procedures, behavior guidelines, disciplinary penalties and grievance system in the plan to prevent dishonesty, and implement it, and regularly review and revise the pre-disclosure plan?	V		mechanism involves collecting data by using departmental compliance checklist, qualitative interviews, and tracking of emails by the IT department, to regularly analyze, assess, and identify high-risk individuals, and conducting individual investigation if required, with the assistance of internal audit unit. Based on these results, prevention programs are established, including preventive measures against offering and acceptance of bribes, illegal political donations, improper benefits, infringement of intellectual property rights, and engaging in unfair competitive practices, among other unethical conducts, to ensure a corporate culture of ethical management. Within the scope of business activities, all employees are obliged to cooperate with the compliance office for the investigation related to the said unethical conducts. (III) The Company's plan for preventing dishonesty in accordance with "the Ethical Corporate Management Best-Practice Principle" includes "Procedures for Ethical Management and Guidelines for Conduct", "Codes of Ethical Conduct ", and "Reporting Illegal and Handling Measures for Cases of Unethical or Dishonest Conduct" which clearly regulate no acceptance to any unrightful benefits, or to commit behaviors that violate integrity, and to encourage the reporting of any illegal or ethical conduct violations, the Company also stipulates the importance of integrity should be regularly announced to directors and	No significant difference

				Deviations from	
	Evaluation Item		No	Abstract Explanation	"the Ethical Corporate Management Best- Practice Principles for TWSE/TPEx Listed Companies" and Reasons
				employees. The above plan regularly reviews the appropriateness and effectiveness of the prevention plan according to the method set by the risk assessment mechanism of dishonesty behavior, and makes appropriate adjustments or amendments. In 2022, the Company amended the Code of Conduct for Reporting Illegal, Unethical or Dishonest Cases by introducing clauses on the authorization of independent directors to receive complaint reports and clauses on recusal of conflicts of interest, which stipulate that handlers shall recuse themselves if they have conflict of interest in a case and its investigation process.	
(1)	Fulfill operations integrity policy Does the Company evaluate business partners' ethical records and include ethics-related clauses in business contracts?			(I) The Company's "Ethical Corporate Management Best-Practice Principles" has clearly stated that before business transactions, the legality of business transactions and whether there is dishonesty should be considered, and transactions with persons involved in dishonesty should be avoided. In addition, according to the Company's "Procedures for Ethical Management and Guidelines for Conducts", it is necessary to undergo an integrity operation evaluation before establishing a business relationship with others. The customers evaluation (and its distributors/agents) is conducted by sales department; The suppliers' evaluation (and its distributors/agents) is conducted by purchase department. The integrity management evaluation	difference

			Deviations from	
Evaluation Item	Yes	No	Abstract Explanation	"the Ethical Corporate Management Best- Practice Principles for TWSE/TPEx Listed Companies" and Reasons
(II) Does the Company set up a special unit for promoting corporate integrity management under the Board of Directors, and regularly (at least once a year) report to the Board of Directors on its integrity management policies and plans to prevent dishonesty, and monitor implementation?			form is written and quantified; the contract signed with the business transaction partners should specify the integrity management clauses to ensure that the counterparty abides by the company's integrity management policy. (II) The Company has established a Legal Compliance Division in the Legal Department. The division is responsible for overseeing the promotion of ethical management policies and development and supervision of unethical conduct prevention programs. The Compliance Officer reports implementation status to the Board of Directors once a year, with the most recent report given on November 3, 2022. Auditors also supervise the progress of daily audits, and report to the Board of Directors at any time if any irregularities are found. Implementation Status of Current Year: A. Establishing and reviewing policies related to ethical corporate management. The Company has set up the "Ethical Corporate Management Best-Practice Principles", "Code of Ethical Conduct" and "Reporting Illegal and Handling Measures for Cases of Unethical or Dishonest Conduct", which clearly stipulates no acceptance to inrightful benefit, or violate integrity or dishonesty; the above internal regulations are examined by the legal compliance department with reference of changes in external regulations and the	No significant difference

(111)	Does the Company provide proper whistleblower protection?	V		instruct the relevant departments to review and propose improvement measures to prevent the same behavior from happening again; the legal department will separately report the whistleblowing case, handling and follow-up to the board of directors. (III) The Company handles whistle-blowing cases in a confidential manner in accordance with the "Guidelines for Whistleblowing on Illegal, Immoral or Unethical Conduct", and offers full protection to the whistleblowers. Their identity will be kept absolutely confidential and will not face mistreatment due to the whistleblowing. Case handlers shall also indicate in writing that whistleblower's identity and any details of the report will be kept confidential.	No significant difference
IV. (I)	Enhanced information disclosure Does the Company disclose its ethical corporate management policies and the results of its implementation on the Company's website and MOPS?			(I) The Company has an official website that disclose relevant information such as corporate culture, business policies and the "Ethical Corporate Management Best-Practice Principles", "Procedures for Ethical Management and Guidelines for Conduct", "Code of Ethical Conduct", "Guidelines for Whistleblowing on Illegal, Immoral or Unethical Conduct" and the Company's implementation on good faith management.	difference

V. If the company has established the ethical corporate management policies based on the "Ethical Corporate Management Best-Practice Principles for TWSE/TPEx Listed Companies", please describe any discrepancy between the policies and their implementation:

			Deviations from		
				"the Ethical	
				Corporate	
Evaluation Itam				Management Best-	
Evaluation Item	Yes	No	No	Abstract Explanation	Practice Principles
				for TWSE/TPEx	
				Listed Companies"	
				and Reasons	

The Company has established the "Ethical Corporate Management Best-Practice Principles" which clearly regulates the matters to be followed by the Company's staff. Other accusation cases and penalties are also clearly set out in relevant measures. There is no significant difference between the policies and the "Ethical Corporate Management Best-Practice Principles for TWSE/TPEx Listed Companies."

- VI. Other important information to facilitate a better understanding of the company's ethical corporate management policies: (Such as reviewing and revising its ethical business codes, etc.)
 - 1. The Company complies with Company Act, Securities and Exchange Act, Business Entity Accounting Act, Political Donations Act, Anti-Corruption Act, Government Procurement Act, Act on Recusal of Public Servants Due to Conflicts of Interest as well as relevant regulations for the listed companies or other business entities as basic premise for fulfilling good faith management. The Company also fully dedicates in environmental and quality policies by adopting high standards.
 - 2. The Company has set up the "Regulations Governing the Prevention of Insider Trading" which stipulated that directors, supervisors, managers and employees must not disclose any material information to others. They must not inquire or collect undisclosed material information within the Company that are not related to personal duties, and shall not disclose to others any undisclosed material insider information that is not obtained from the execution of business activities during discussion and voting on that item and may not act as another director's proxy to exercise voting rights on that matter.
 - 3. The Company has set up the "Regulations Governing the Prevention of Insider Trading" which stipulates that upon actually knowing of any material information, the insiders, quasi-insiders and tippees shall not purchase or sell shares of the company that are listed on an exchange or an over-the-counter market, or any other equity-type security of the company after the information is precise, and prior to the public disclosure of such information or within 18 hours after its public disclosure in case accidentally violate insider trading because they are not familiar with the regulations. In addition, the "Procedure for Insider Trading Prevention" stipulates that directors, managerial officers, and natural persons designated as their proxy specified in Paragraph 1, Article 27 of the Company Act, shall not trade their shares during the closed period of 30 days prior to the publication of the annual financial reports and 15 days prior to the publication of the quarterly financial reports. The Company requested the President Office to inform the persons subject to the provisions the lock period forbidding trading after arranging dates of board meetings; the President Office also review the compliance of the concerned persons when reporting the equity every month.
 - 4. The Company stipulates "Procedures for Handling Material Inside Information" to establish sound mechanisms for the handling and disclosure of material inside information in order to prevent improper information disclosures and to ensure the consistency and accuracy of information released by this

			Deviations from	
				"the Ethical
				Corporate

				for TWSE/TPEx
				Listed Companies"
				and Reasons

Corporation to the public. The procedure regulates that no director, supervisor, managerial officer, or employee with knowledge of material inside information of the Company may divulge the information to others, nor inquire about or collect any non-public material inside information of this Company not related to their individual duties from a person with knowledge of such information, nor may they disclose to others any non-public material inside information of this Corporation of which they become aware for reasons other than the performance of their duties.

- 5. On December 8, 2022, the Company's Board of Directors approved the 4th amendment to the "Code of Conduct for Reporting Illegal, Unethical or Dishonest Cases" by introducing clauses on the authorization of independent directors to receive complaint reports and clauses on recusal of conflicts of interest, which stipulate that handlers shall recuse themselves if they have conflict of interest in a case and its investigation process.
- 6. The Company inspected the implementation of personal information protection in 2022 by taking an inventory of the personal information that the Company's the unit in charge of data comes into contact with. Such inspection serves to ensure that the unit in charge of data observes the Personal Information Protection Act when collecting, processing, and using personal data.
- 7. The Company inspected the compliance of overseas subsidiaries in 2022, using RBA 7.0 as the pillar to examine the implementation status of compliance in business operations and conducts, including Anti-corruption, Antitrust, Trade secret, Ethics, Whistleblowing, Health and Safety, Environment, Export Control, Personal Data Protection, etc. The objective was to ensure compliance with laws and regulations and meet ethical management requirements.

Note 1: Regardless of whether the evaluation item is achieved or not, the company shall state an appropriate explanation.

- H. The company shall disclose the ways to make inquiries if it has implemented a set of corporate governance guidelines or related rules: The Company has formulated Corporate Governance Best Practice Principles and relevant measures are implemented in accordance with the spirit and norms of "Corporate Governance Best Practice Principles for TWSE/TPEx Listed Companies." Please refer to the Investor Service Area on the Company's website (http://www.saswafer.com).
- I. Other important information sufficient to enhance understanding of the operation of corporate governance should be disclosed together:
 - 1. MOPS: http://mops.twse.com.tw
 - 2. Website of the Company: https://www.saswafer.com (Investor section)
 - 3. Directors' continuing education:

The Board of Directors of the Company had all complete their further education according to the "Directions for the Implementation of Continuing Education for Directors and Supervisors of TWSE Listed and TPEx Listed Companies" specification.

J. Internal Control System Execution Status

1. Statement of Internal Control System

Sino-American Silicon Products Inc.

Internal Control Disclosure Statement

Date: March 16, 2023

Based on the findings of a self-assessment, Sino-American Silicon Products Inc. states the following with regard to its internal control system during the year 2022:

- I. Sino-American Silicon Products incorporation's Board of Directors and Management are responsible for establishing, implementing, and maintaining an adequate internal control system. The aim of the system is to provide reasonable assurance of the achievement of objectives in the effectiveness and efficiency of operations (including profits, performance, and safeguarding of asset security), reliability, timeliness, and transparency of reporting, and compliance with applicable laws and regulations.
- II. An internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reasonable assurance of accomplishing its stated objectives. Moreover, the effectiveness of an internal control system may be subject to changes due to extenuating circumstances beyond our control. Nevertheless, our internal control system contains self-monitoring mechanisms, and Sino-American Silicon Products Inc. takes immediate remedial actions in response to any identified deficiencies.
- III. The Company judges the design and operating effectiveness of its internal control system based on the criteria provided in the Regulations Governing the Establishment of Internal Control Systems by Public Companies (hereinafter referred to as the "Regulations"). The criteria adopted by the Regulations identify five key components of managerial internal control: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring. Each element further contains several items. For more information on the aforementioned items, see the Regulations.
- IV. Sino-American Silicon Products Inc. has evaluated the design and operating effectiveness of its internal control system according to the aforesaid Regulations.
- V. Based on the findings of such evaluation, Sino-American Silicon Products Inc. believes that on December 31, 2022^{Note 2}, we have maintained, in all material respects an effective internal control system (that includes the supervision and management of our subsidiaries), to provide reasonable assurance over our operational effectiveness and efficiency, reliability of financial reporting, and compliance with applicable laws and regulations.
- VI. This Statement will be an integral part of Sino-American Silicon Products incorporation's Annual Report for the year 2022 and Prospectus, and will be made public. Any falsehood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchange Act.
- VII. This Statement has been passed by the Board of Directors in the meeting held on March 16, 2023, with none of the ten attending directors expressing dissenting opinions, and the remainder all affirming the content of this Statement.

Sino-American Silicon Products Inc.

Chairperson Hsiu-Lan Hsu

President: Tang-Liang Yao

- Note 1: Design and implementation of a public company's internal control system, as there are significant deficiency in the year, the internal control system statement should be added explanatory note in the Article 4 that list and explain the significant lack discovery of self-assessment, and the company taken the corrective action to improve the situation before the data of balance sheet.
- Note 2: Date of declaration as "the end of fiscal year".

2. Internal audit organization and operation

The auditing unit of the Company is affiliated to the Board of Directors, and the appointment or removal of the chief internal auditor must be examined by the Audit Committee and sent to the Board of Directors for approval. The Company should report by the Internet Information System for reference in accordance with the provisions of the Financial Regulatory Commission 10 days in the next month after the approval of the Board of Directors. There is currently one chief internal auditor (department manager) and two auditors.

The auditing unit makes an annual audit plan based on the results of risk evaluation, including items to be audited each month. It does carry out audit operations in accordance with the annual audit plan, so as to check the internal control system of the Company.

The Company has set up an Audit Committee, all of which are composed of independent Directors. When submitting the annual audit plan to the Audit Committee for discussion according to regulations, the opinions of independent Directors have been fully taken into account. After each audit, the audit report is made, and the working manuscript and related information are attached. The deficiencies and improvement suggestions will be reported to the management. The audit findings are disclosed in the audit report according to the facts and tracked after the report has been audited at least on a quarterly basis. A tracking report is made until improvement, in order to confirm that the relevant units have taken appropriate improvement measures in time. Members of the Company's Audit Committee communicate well with the chief internal auditor.

The Company's CPAs report the results of the audit or review of the current quarter's financial statements at quarterly meetings of the Audit Committee, as well as other communication matters required by relevant laws and regulations. Members of the Company's Audit Committee communicate well with CPAs.

- 3. CPA audit report should be disclosed If CPA is entrusted to perform internal audit: Not applicable.
- K. F. Dividend Policy and Implementation Status

1. Dividend Policy

If there is surplus in the annual final accounts of the Company, after paying taxes and making up for accumulated losses according to law, 10% is accrued as the statutory surplus reserve, but when the statutory surplus reserve has reached the amount of the Company's paid-in capital, it should not be listed, and the rest should be listed or turned back to the special surplus reserve according to the law. If there is still a surplus and the accumulated undistributed surplus, the Board of Directors should make a surplus allocation proposal, which should be submitted to shareholders' meeting to decide to distribute dividends. According to the 5th Provision of Article 240 from the Company Act, the Company will authorize the distributable dividends and bonuses in whole or in part may be paid in cash after a resolution has been adopted by a majority vote at a meeting of the board of directors attended by two-thirds of the total number of directors; and in addition thereto a report of such distribution shall be submitted to the shareholders' meeting. The distributable dividends and bonuses in whole or in part may be paid in new stock after a resolution has been adopted by the shareholders.

To maintain corporate sustainability and the steady growth of its EPS, dividend for shareholders shall be more than 50% of net profit after deducting the appropriation of

special reserve for the year pursuant to regulations, and the rate of shareholder dividend shall be no less than 50% of the cash dividend.

Regarding the cumulative net amount of other deductions from equity, allocate an amount of special reserve equal to the amount allocated to undistributed earnings for the preceding period. If there remains any insufficiency, allocate it from the amount of the after-tax net profit for the period, plus items other than after-tax net profit for the period, that are included in the undistributed earnings of the period.

2. Dividend allocation

Pursuant to the Articles of Incorporation of the Company, the Board of Directors is authorized to resolve the distribution of profits in cash upon the end of every six months. Regarding the semi-annual cash dividends resolved and approved by the Board of Directors for 2022, the amount and date of distribution are as the following:

2022	Date of approval	Date of distribution	Cash div	vidend per s (NT\$)	Total amount of cash dividends	
2022	(Year/Month/ Day)	(Year/Month/Day)	Earnings	Capital surplus	Total	(NT\$)

	Total		9.0		5,275,994,858	

- 3. Description of expected significant changes in dividend policy: None.
- G. Impact of the Stock Dividend Proposal of this Shareholders meeting on Operational Performance and Earning per Share: not applicable.
- H. Employee Bonus and Directors' and Supervisors' Remuneration
 - 1. The percentage or scope of remuneration for employees and directors contained in the articles of association of the Company:

If the Company is profitable during the year, it shall allocate 3–15% as employee remuneration in shares or cash upon the resolution of the Board of Directors. Employees of subsidiaries of the company meeting certain specific requirements shall be entitled to receive remuneration. The Company may allocate at most 3% of the aforementioned profit as directors' remuneration upon the resolution of the Board of Directors. The distribution proposal of remuneration of employees and directors should be submitted and reported to the shareholders' meeting.

If it has accumulative losses, the Company should reserve and make up the amount before distributing remuneration to the employees and directors according to the percentage mentioned in the preceding paragraph.

2. The basis for estimating the amount of employee and director remuneration, for calculating the number of shares to be distributed as employee remuneration, and the

accounting treatment of the discrepancy, if any, between the actual distributed amount and the estimated figure, for the current period:

- a. Allocation for employee stock bonus and directors' remuneration: In compliance with Articles of Incorporation.
- b. Ratio of employee stock bonus to capitalization of earnings: If employee remuneration is distributed via stock, this will be calculated based on the total equity attributable to owners of parent in the latest financial statement audited by CPA. The Company does not distribute employee remuneration via stock this year.
- c. Accounting Treatment if the Actual Distribution Is Different from Estimation: If shareholder resolution is different from the estimation, it will be deemed as changes in accounting estimates and recognized in current profit and loss.
- 3. Remuneration distribution approved by board meeting:
 - a. Employee, director, and supervisor remuneration will be distributed in cash or shares. If the recommended distribution of employees' bonus and directors' remuneration has differences with estimation, therefore, its reason, variance and dealing should be disclosed.

The Company's employee and directors' remuneration adopted by resolution of the Board of Directors on March 16, 2023 is as follows:

Employees' bonus: NTD 564,770,000, all will be issued in cash

Directors' remuneration: NTD 55,000,000, all will be issued in cash

There is no difference in actual distribution of employee bonus and directors' remuneration with the recognition in 2022 financial statements.

- b. Ratio of recommended employee stock bonus to net income in the current standalone or consolidated financial statements, and the total amount of employees to remuneration: None.
- 4. The actual distribution of employee, director, and supervisor remuneration for the previous fiscal year (with an indication of the number of shares, monetary amount, and stock price, of the shares distributed), and, if there is any discrepancy between the actual distribution and the recognized employee, director, or supervisor remuneration, additionally the discrepancy, cause, and how it is treated:

Unit: NTD

V. Operational Highlights

I. Business Activities

A. Scopes of the business:

1. Main areas of business operations:

CC01080 Electronic Parts and Components Manufacturing

C801990 Other Chemical Materials Manufacturing

IG03010 Energy-related Technology and Service

F119010 Electronic Materials Wholesale (restricted to areas outside Hsinchu Science Park)

F219010 Electronic Materials Retail (restricted to areas outside Hsinchu Science Park)

F401010 International Trade

Research and development, design, manufacture and sell the following products:

- a. Silicon-based semiconductor materials and their components.
- b. Varistor.
- c. Photovoltaic and communication materials.
- d. Silicone Compound.
- e. The technology, management and advisory business related to the products listed above.
- f. Photovoltaic system integration and installation services.
- g. Import-export activities related to the business mentioned above.

2. Operating Percentage:

Unit: NT\$ Thousands; %

Product Name	2022 Operating Revenue	Revenue Percentage
Semiconductor Wafer	70,033,788	85.54%
Solar Cell Products	3,523,022	4.30%
Solar Module	1,278,148	1.56%
Solar Ingot	2,764,045	3.38%
Semiconductor Ingot	905,137	1.11%
Solar Chip Products	273,021	0.33%
Other	3,094,335	3.78%
Total	81,871,496	100.00%

- 3. The Company's current products and service items
 - a. High quality multi-crystalline silicon materials
 - b. High Efficiency Mono-Si Solar Cell
 - c. High efficiency mono-Si bi-facial solar cell
 - d. High-efficiency mono-Si Metal-Wrap-Through back-contact solar cells
 - e. High-efficiency mono-Si multi-busbar solar cell
 - f. High-efficiency mono-Si Busbar-less solar cells
 - g. Customized special design high efficiency mono-si solar cell
 - h. Construction, operation and maintenance of solar power generation equipment
 - i. Renewable energy power generation and certifications
- 4. New technologies and products planned for development
 - a. Development of large size ultra-high efficiency mono-Si solar cell technology
 - b. Development of ultra-high efficiency mono-si bi-facial solar cell technology
 - c. Development of customized special design high efficiency mono-si solar cell

B. Industry Overview

- 1. Present situation and development of the industry
 - a. Solar Energy Industry

The year 2022 marked the end of COVID-19, but it has also been subjected to impacts from natural gas price hikes due to the Russia—Ukraine war, in addition to extreme climate events that aggravated power shortage crisis in winter this year, which caused local electricity prices to surge drastically worldwide, impacting livelihood and the economy. To reduce such impact and respond to global greening trends, countries around the world have encouraged the development of renewable energy through legislation or actions in order to stabilize energy supply. U.S. President Joe Biden signed into law the Inflation Reduction Act (IRA) on August 16, 2022, and invested US\$369 billion in climate change and renewable energy with the goal of a 40% cut in emissions by 2030 relative to 2005. This bill will substantially stimulate the solar energy, wind power, battery industry chain and energy storage market. In terms of energy storage, it introduces investment tax credit (ITC) for independent energy storage in the United States, demonstrating the determination to support new energy industries in the United States.

In Europe, the European Commission established the European Solar PV Industrial Alliance, an initiative that aims to deploy over 320 GW of solar PV by 2025. Europe will also propose a framework for PV manufacturing and introduce incentives and subsidies similar to the U.S. IRA. The Ministry of New and Renewable Energy in India will levy a customs duty of 40% on solar modules and 25% on solar cells from April 2022. This proposal has been agreed to by the Ministry of Finance and is intended

to accelerate and boost the manufacturing of Made in India PV modules while rewarding every aspect of local manufacturing.

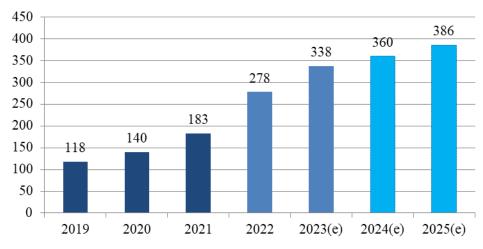

In Taiwan, the government also launched Action Plan for Achieving Net Zero Transition Through 12 Key Strategies and passed the third legislative reading of the Climate Change Response Act in February 2023. However, as the U.S. government aggressively raised interest rates in order to combat unprecedented inflation, the global economy receded, spurring a cascade of price drops across the supply chain in the second half of the year. Solar PV wafer prices also collapsed by 50% in the fourth quarter, which severely affected Q4 demand, prompting the supply and demand chain to recoil and adopt a wait-and-see approach.

For the 2023 outlook, the solar energy market will keep on growing. The main factors are:

- More than 132 countries simultaneously clearly plan the zero-emission in the next decades, and carbon neutrality has become the consensus among major countries around the world. Therefore, the renewable energies, represented by solar energy, are promising.
- 2. As impacts from extreme weather events grow in frequency and severity coupled with surging energy prices caused by the Russia–Ukraine war, many nations have realized the importance of renewable energy and legislated green policies and climate goals to adopt renewable energy.

Taiwan implemented its energy transition policy in 2016, setting the goal of raising renewable energy generation to 20% by 2025 to build a nuclear-free homeland. To keep pace with international standards, the Taiwan government further announced the goal to achieve net-zero emissions by 2050, at which point renewable energy will account for 50–60% of the country's power supply and domestic demand will be strong. According to Taipower's statistics, as of November 2022, the cumulative installed capacity of Taiwan's solar photovoltaic systems is about 9.25GW.

(Based on data from CPIA/Pvinfolink, 2023/02)

More than 130 of the 198 nations worldwide have already declared net-zero emission targets. This goal has become a global consensus and an unavoidable responsibility. President Tsai Ing-wen declared on Earth Day that net-zero transition is the goal of the world, including Taiwan. In March 2022, Taiwan officially published "Taiwan's Pathway to Net-Zero Emissions in 2050", which is based on four major transition strategies (Energy Transition, Industrial Transition, Lifestyle Transition, and Social Transition) and two governance foundations (Technology R&D and Climate Legislation) to realize net zero goals. The goal of generating 20% electricity from renewable energy by 2025 was raised to 70% by 2050, which is a great challenge considering the country's current progress in energy transition.

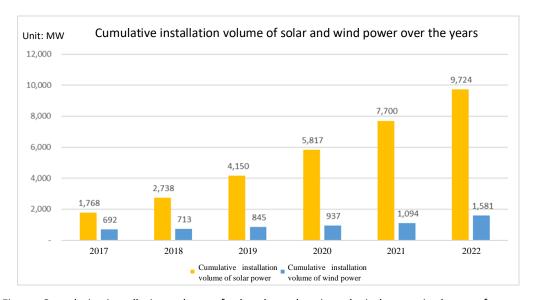

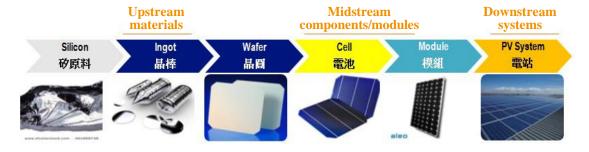

Figure. Cumulative installation volume of solar photoelectric and wind power in the past few years

 - a. Relevant map of solar energy industry

Source: SAS Internal

 Relevant map of semiconductor Industry (See details in the annual report of GlobalWafers, the Company's subsidiary (stock code: 6488))

3. Industrial development trend and competition

a. Solar Energy Industry

- In response to the commitment of RE100/ESG/Carbon Neutrality to reduce carbon required in the international supply chains and surging energy prices caused by the Russia–Ukraine war, many nations have legislated green policies and climate goals to adopt renewable energy, which stimulated the steady growth of renewable energies.
- Regional economy and trade barriers strengthened. Under the battles between China and the U.S. to dominate new energies, the U.S. government has introduced a new bill, encouraging U.S. manufacturers to manufacture locally. By reducing taxes and rewarding U.S. manufacturers to expand production capacities in different stages, overseas orders will be returned to local manufacturers in the U.S. in the long run. In order to counter the U.S. incentive bill, China intends to ban the export of key solar manufacturing technology, foreshadowing a shock to the solar energy market in 2023. Other trade barriers, such as India's safeguard measure survey/third-party anti-circumvention probe, and the implementation of IRA-like laws in Europe, will generate a significant impact on the changes in supply and demand.
- M6 has gradually become the mainstream in Taiwan market in the second half
 of 2022, and M10 has become the mainstream in the global market. The large
 size trend in the market confirms the demand and preference for high power in
 the end market.
- Prices of upstream raw materials collapsed in the fourth quarter of 2022, resulting in a sharp freeze in supply chain demand, which continued to affect demand and supply in early 2023.
- Regarding the crowding-out effect of imported modules from third-party countries, the number of modules imported from third-party countries increased significantly in 2022, which has formed a crowding-out effect on Taiwanese brand modules. According to customs statistics, the number of imported modules from third-party countries in 2022 was equivalent to 600–700MW, accounting for more than 30% of Taiwan's annual installations.
- The Bureau of Energy officially announced the 2023 renewable energy FIT before the Lunar New Year this year. The solar photovoltaic FIT is two terms per year, and the tariff is divided based on the capacity level. The FIT ranges from NT\$3.8680 to NT\$5.8952 per kWh, which is the same as that in 2022. Given the impact of raw material prices on the PV industry, the government maintained FIT at the 2022 level to achieve targets and encourage investments, continued various incentives, added additional tariffs for strengthened power grids, and calculated the rates for Type-1 power generation facilities from the date when these facilities are connected and commissioned.
- The electricity market is moving toward liberalization in the post-FIT era. The renewable energy market will be invigorated by a demand for renewable electricity, carbon reduction benefits, and energy storage market. As green supply chains become mainstream worldwide, the inherent regional restrictions

of green electricity will cause a shortage of renewable energy. In other words, control over renewable electricity is key to gaining competitiveness.

b. Semiconductor industry (See details in the annual report of GlobalWafers, the Company's subsidiary (stock code: 6488))

C. Overview of Technology and R&D

In recent years, the Company has devoted itself to improving the production of silicon wafer, precision processing and cell module. The increase of productivity of polycrystal wafer, the increase of yield of crystal rod, the reduction of density of crystal defects, the improvement of crystal quality, the improvement of the conversion efficiency of wafer and cell, etc. have exceeded international indicators. Many technical indicators have become international benchmarks. In addition, in recent years, the Company has actively carried out patent distribution to protect the Company's intellectual property rights. The R&D achievements are brilliant and have won many international awards. In recent years, the Company exploits the deep technology foundation and rigorous process technologies to improve the crystalline quality continuously, and expands to the silicon material application products. Customization based on clients' need and expand product applications.

1. The proportion of research and development expenditure in revenue in the last two years is as follows:

Unit: NT\$ thousands

Year	2021	2022	As of March 31, 2023
R&D expenses	2,165,030	2,348,112	616,483
Operating Revenue	68,841,250	81,871,496	20,903,549
R&D expenses as a percentage of net revenue (%)	3.14%	2.87%	2.95%

2. Technologies or products successfully developed in recent years and up to the date of publication of the annual report.

Name of Program	Description of Program
Development of high	High quality multi-crystalline silicon materials products for

	front-side power watt that can be increased by 20%, while
	backside generation power can be 10–20% higher than the
	front-side according to environmental conditions.

D. Long-term and short-term business development programs

1. Long-term program

- a. Actively seek customers who need customization services in the field of new energy application, such as aerospace applications/special processes, in order to maintain the company's competitiveness, and actively develop international markets, such as the US/Indian/Turkish markets. Responding to the new energy transition and the need for a de-carbonized and circular economy in the international supply chain. Outlook: SAS will provide green energy solutions, to "serve clients by providing green power and energy storage related product application and plans," while keep on pursuing the maximum interest of the organization as the goal.
- b. Integrate the upstream, midstream and downstream resources, give full play to the advantages of synergy and high-efficiency products, further promote the long-term healthy development of the solar industry and enhance the international competitive advantage. In the long run, the future strategic direction of the Company is to develop towards the system end.
- c. Power station operation and maintenance is a key section in the development strategy for the system end. The solar power station has signed a wholesale contract with Taipower for 20 years, thus the stable power generation and operation is a critical factor in achieving the investment effect. With profound experience in maintenance, operation, and management experience in its own solar power stations, and the development of software for analyzing performance variance of power stations, SAS Group achieves active and timely preventive maintenance. This enhances the operational availability/uptime, and protects the long-term investment effects of investors, while making the Company an operation and maintenance service provider with value.
- d. The renewable energy power generation is intermittent and variable, and solar power generators do not have the inertia reaction capability as the conventional generator, so extra backup capacity is needed. In the future, the energy-storage system will be set up in the self-owned sites, while establishing the ancillary services participating mechanism, to meet the demands of system deployment and fast response to accidents. The installation of energy-storage system will help the optimization of grid quality. In addition, the legislation regarding the gigantic power consumer took effect in 2021. The energy-heavy users who have 5,000kW or more contracted capacity apply the energy storage system to meet their statutory obligations. In 2019, SAS has installed the compounded energy system on the rooftops of the Company's plants. The system integrated solar energy, energy storage, adjustable grid-connected generators, and an energy management system,

to cope with the future demands of integrated energy management. The Company invested in building an energy-storage system in the Yilan Plant in the second half of 2022, and is projected to invest in Taipower frequency-adjustment assistive service in the first half of 2023. In the future, we will also actively evaluate investments in PV storage systems combining solar energy and energy storage.

2. Short-term program

- a. The Company is a leader in single crystal high-efficiency cells, and will keep on perfecting the PERC single-crystalline cells to enable the efficiency to maintain market competitiveness, and will launch M10 products in 2023. Meanwhile, it will also invest in the research and development of high-performance N-type cell process, with large-sized cells, to provide customers with products of high-wattage, high-efficiency and high-quality.
- b. The Company will actively look for suitable subjects to develop the installation of solar power systems.
- c. Develop aqua-photovoltaics and agrivoltaics fields, partner with aquaculturist and expand the application scope of solar photovoltaics.
- d. Invest in the building of solar PV systems in water channels and polluted lands.

II. Market and Sales Overview

- A. Market Analysis
 - 1. Distribution areas of major commodities
 - a. Solar Energy Industry

Unit: NT\$ thousands

Region		20	21	2022		
	Region		Rate (%)	Sales	Rate (%)	
Sales in	Domestic Market	2,737,906	35%	4,844,346	45%	
	Asia	1,474,597	19%	1,520,097	14%	
Exports	America	1,903,650	25%	2,601,104	24%	
Others		1,638,420	21%	1,820,914	17%	
	Total	7,754,573	100%	10,786,461	100%	

b. Semiconductor industry (See details in the annual report of GlobalWafers, the Company's subsidiary (stock code: 6488))

2. Market share

- a. Solar Energy Industry
 - The Yilan Plant will gradually upgrade its entire line to large-size M10 high-efficiency single crystal cells in 2023, becoming the leading high-efficiency single crystal cell manufacturer in Taiwan that holds 26% share of Taiwan's high-efficiency and large-size single crystal cell market.
 - 2. As of now, Sino-American Silicon Group has installed solar energy systems in Taiwan for more than 140MW, including 98MW of grid connection. Based on

the accumulated solar energy installed capacity of 9.7GW in Taiwan at the end of 2022, the Company's market share is about 1%. For the objective of this year, other than the rooftop of the plants, the Company will continuously and actively participate in the public tenders of local government or state-owned lands, as well as aqua-photovoltaics, agrivoltaics, water channels, and polluted land projects.

- b. Semiconductor industry (See details in the annual report of GlobalWafers, the Company's subsidiary (stock code: 6488))
- 3. Supply and Demand, and Growth in the Market of the Future
- a. Solar energy industry
 - 1. With the global initiatives of carbon neutrality and voluntary sustainability of enterprises, solar energy has become an unanimously recognized alternative energy source in the world. As the price of solar energy modules decreases, the demand for solar power generation in various markets around the world will keep on growing. It is estimated that the global solar power generation demands in 2023 will reach a target of 280GW, or an active target of exceeding 330GW (PVinfolink).
 - 2. Global solar energy supply and demand is projected to increase in the first half of 2023 and peak in the second half of the year, bringing supply—demand trends and prices across the supply chain to stability.
 - 3. The Ministry of Economic Affairs sets to install 20 GW of solar energy by 2025. In other words, at least 3.3 GW of solar energy must be installed every year in the next three years in order to achieve this target. Given the saturation of roof-mounted solar panels and unresolved problems with large lands, achieving 3.3 GW this year is extremely unlikely as it will require policy implementation and integration as well as setting up of PV sections. Taiwan is still giving priority to promoting the diversified use of land and installing solar PV systems on aquaphotovoltaic fields, parking lots, and polluted lands.
 - 4. The FIT rates for 2023 are the same as those in 2022. The demand for green supply chains of large international corporations is projected to trigger the vigorous development of Taiwan's solar PV market in 2023, driving development in the following directions:

Direction 1:

Demand for green electricity and carbon reduction of energy-heavy users

The "Power Heavy User Clause" officially took effect in 2021, requiring companies with a contracted capacity of more than 5,000 KW to use 10% renewable energy. More than 300 companies in Taiwan are affected. Currently, regulations require that power heavy users may meet their obligations by setting up green power equipment, energy storage equipment, purchasing power generated with renewable energy and certificates, or paying cash. Setting up green power equipment and purchasing green power are the fastest

and most effective way. In January of this year, the Legislative Yuan passed the third reading of Climate Change Response Act with a carbon fee system, which is set to levy carbon fees as soon as 2024 on 287 large emitters that produce more than 25,000 tons of carbon per year. Carbon domestic enterprises will face unprecedented pressure of carbon reduction, which in turn promotes the development of the green energy industry.

Direction 2:

The electronic market is liberalized, and the corporate renewable power purchase agreements (CPPA) market is robust.

The Bureau of Standards, Metrology and Inspection, Ministry of Economic Affairs, has issued 2.15 million renewable energy certificates, equivalent to 2.1 billion kWh. With the gradual improvement of green electricity trading mechanism and 37 electricity sellers, the strong trend in the green electricity trading market is seen when matching the price and conditions of green electricity supply and demand.

Direction 3:

PV-energy storage combination improves power grid stability

The Ministry of Economic Affairs (MOEA) amended the 2022 Guidelines on the Bidding and Allocation of Installed Capacity for Battery Energy Storage Systems Combined with Solar Power Generation Facilities in September 2022 and called for bids in January. The combined energy storage systems will reach a capacity of 70.6 MW. As the number of solar installations increases, daytime power generation may exceed power demand. Energy storage can fill the gap in nighttime power consumption, ensure greater energy efficiency, and achieve a balanced and stable power grid. The government has stipulated that Taipower must complete 1GW of energy storage by 2025 and will enforce the installation of solar energy storage systems in the future.

- b. Semiconductor market (See details in the annual report of GlobalWafers, the Company's subsidiary (stock code: 6488))
- 4. Competitive niche
- a. Long-term R&D investment creates core competitive advantages and holds patents.
- b. Extensive cooperation between industry, government and university has a high level of product innovation capability.
- c. Work closely with downstream customers to grasp market demands and development trend.
- d. Long-term cooperation with raw material suppliers to grasp the stable supply of key raw materials and cost advantages.
- e. Abundant experience in establishment, maintenance, operation, and management of solar power stations.

- f. Vertically integrated company with the robustest financial position in the solar energy industry.
- g. Strong customization capability, capable of adjusting product designs as needed.
- 5. Advantages and disadvantages of development prospect
- a. Favorable factors

Solar Energy Industry

- Although the solar PV industry is still not completely separated from the stage
 of government subsidies, more and more renewable energies enter the green
 power sales market, which has the value of sustainable operation and longterm development.
- 2. R&D and process improvement is of international standard, which can help to improve product quality and competitiveness.
- 3. Vertical integration and layout of export are complete. Combined with the government's vigorous promotion of green energy, it has comparative advantages.
- 4. Governments worldwide have realized the importance of energy autonomy and legalized green policies to promote the use of renewable energy.
- 5. Nuclear power plant has been decommissioned; under the net zero policy without nuclear energy, such vacancy will be filled by renewable energies.
- 6. The experience of managing power station with more than 137MW capacity enable the Company to accelerate the operation and maintenance business.
- 7. The international green tide and the gigantic power user policy accelerate the green power industry's development.
- 8. With the experience of energy storage integration, the Company may participate in the energy storage opportunities brought by Taipower and gigantic power users.
- 9. The government's energy transition policy, with the goal of 20GW solar photovoltaics by 2025, remains unchanged.

Semiconductor industry

(See details in the annual report of GlobalWafers, the Company's subsidiary (stock code: 6488))

b. Unfavorable factors and the response

Solar Energy Industry

- 1. The pricing power of the upstream materials is concentrated in very few manufacturers/single countries.
- 2. Various uncertainties regarding setting up fields in Taiwan, including the environment evaluation, feeders, and lands.

- 3. Uncertainties of geopolitics: China and the United States compete in the new energy industry, as well as the policy uncertainty of tariff barriers in various countries, will impact the global supply and demand and changes in prices.
- 4. The contradiction between solar energy manufacturing and end systems will introduce system modules from third-party countries.
- 5. The development of aqua-photovoltaics and fish farming are completely different areas. The feeders, land consolidation, and communication to fish farmers still need time and care to deal with, and balance among all parties is required.
- 6. Rise in material and equipment costs will raise installation costs.
- 7. Most of the power heavy users choose to build their own equipment, and EPCs with development capabilities may be contracted directly.

Coping measures

- 1. Actively develop new clients and new products with better price—performance ratio and large sizes.
- 2. Strengthen R&D links with downstream customers, develop efficient niche products by integrating core technological capabilities from both ends, increase added value, and actively reduce manufacturing costs to increase profit margins.
- 3. Establish the market value, promote presence in international markets such as US/India, and concurrently cultivate markets in Taiwan, and integrate toward the downstream power stations with strategic partnership, to solidify and develop the green energy application opportunities.
- 4. Continue to communicate with landlords and fish farmers; select suitable species for farming, and the field design shall meet the farming demands. The existing farmers have the priority to lease first.
- 5. Implement the construction period control and project management efficiency, and increase the selections of raw material or equipment suppliers.
- 6. Strengthen self-development capabilities, and provide three-in-one service solutions of engineering, maintenance and operation, and green power, with market differentiation.

Semiconductor industry

(See details in the annual report of GlobalWafers, the Company's subsidiary (stock code: 6488))

B. The Production Procedures of Main Products

1. Important uses of products

Product Name	Statement of Important Uses				
High quality multi- crystalline silicon materials	Application of silicon material products and customized according to customer's needs.				
High Efficiency Mono-Si Solar Cell	 The conversion efficiency of high-efficiency mono-Si solar cells is higher than 22.50%. The conversion efficiency of high-efficiency multi-busbar mono-Si bifacial solar cells is higher than 22.85% and bifacility is higher than 60%. The conversion efficiency of high-efficiency Metal-Wrap-Through back-contact mono-Si solar cells is higher than 23%. 				

2. Process

High quality multi-crystalline silicon materials

Silicon raw material \rightarrow crystal growth \rightarrow processing \rightarrow crystal quality inspection \rightarrow finished product inspection \rightarrow packaging

Solar cells

Solar cells Wafer production \rightarrow surface roughening \rightarrow surface diffusion layer formation \rightarrow surface cleaning and edge insulation \rightarrow formation of anti-reflection layer and passivation layer on the surface \rightarrow metallization and sintering \rightarrow solar cell efficiency measurement and classification

C. Supply Status of Main Raw Materials

Product Item	Main Raw Materials	Major Suppliers	Supply Situation
Wafer	Polysilicon	Company A, Company B, Company C	Good

- D. The names of customers who accounted for more than 10% of the total purchase (sale) in any of the last 2 years, the amount of purchase (sale) and proportion to the total amount of purchase (sale)
 - 1. The names of parties who accounted for more than 10% of the total purchase in any of the last 2 years, the amount of purchase and proportion to the total amount of purchase, and explain the reason for the changes, where applicable.

		202	21		2022			
Item	Company Name	Amount	Percent in the Total Annual Net Purchases (%)	Relation with	Company Name	Amount	Percent in the Total Annual Net Purchases (%)	Relation with Issuer
1	Α	2,175,879	9.51	None	С	2,694,831	10.44	None
2	В	1,989,474	8.70	None	Α	2,264,983	8.78	None
3	С	1,215,355	5.31	None	В	1,998,293	7.74	None
4	Other	17,499,056	76.48	None	Other	18,847,989	75.54	None
	Net purchase	22,879,764	100.00		Net purchase	25,806,096	100.00	

Note 1: Provide a list of any suppliers accounting for 10 percent or more of the company's total procurement amount in the 2 most recent fiscal years, the amounts bought from each, and the percentage of total procurement accounted for by each. Where the company is prohibited by contract from revealing the name of a supplier, or where a trading counterpart is an individual person who is not a related party, it may use a code in place of the actual name.

Note 2: Up to the date of publication of the annual report, companies listed or whose stocks have been bought and sold in the securities firm's business premises should disclose the latest financial information which has been audited and verified by the accountant.

Note to the changes:

Mainly because the steady growth of solar energy and semiconductor market demand, sales have increased compared with last year. The production plan has been adjusted in line with sales demand, and annual purchases have increased compared with last year to meet production needs.

2. The names of customers who accounted for more than 10% of the total sale in any of the last 2 years, the amount of sale and proportion to the total amount of sale, and explain the reason for changes, where applicable.

Unit: NT\$ thousands

		202	21	2022				
	Company Percent in the Relation Company		Percent in the Rela		ny (Company		Percent in the	
Item	Name	Amount	Total Annual	with	Name	Amount	Total Annual	with
	Ivallie		Net Sales (%)	Issuer	ivaille		Net Sales (%)	Issuer

2	Other	56,052,177	81.42	None	Other	67,089,615	81.95	None
	Net Sales	68,841,250	100.00		Net Sale	81,871,496	100.00	

Note 1: Provide a list of any clients accounting for 10 percent or more of the company's total sales amount in the 2 most recent fiscal years, the amounts sold to each, and the percentage of total sales accounted for by each. Where the company is prohibited by contract from revealing the name of a client, or where a trading counterpart is an individual person who is not a related party, it may use a code in place of the actual name.

Note 2: Up to the date of publication of the annual report, companies listed or whose stocks have been bought and sold in the securities firm's business premises should disclose the latest financial information which has been audited and verified by the accountant.

Note to the changes:

Mainly because the the strong demand in the solar energy and semiconductor markets, the sales amount of various sales targets increased.

E. Production in the Last Two Years

Unit: NT\$ thousands

Year		2021		2022			
Output Main Products	Capacity	Quantity	Amount	Capacity	Quantity	Amount	
Solar Ingot (thousand kg)	1,954	1,319	1,324,586	2,782	2,141	2,764,000	
Solar Silicon Wafer (thousand pieces)	0	0	0	0	0	0	
Semiconductor Crystal Rod (thousand pieces)	344	299	1,429,890	370	322	1,535,423	
Semiconductor Wafer (thousand pieces)	57,046	53,103	35,689,395	56,329	50,901	38,160,437	
Solar Cells (thousand pieces)	71,435	67,516	2,372,289	89,765	76,845	3,529,007	
Total	-	-	40,816,160	-	-	45,988,867	

Note 1: Capacity refers to the amount of production that the Company can reach under normal operation by using existing production equipment after measuring factors such as necessary shutdown and holidays.

F. Sales in the Last Two Years

Unit: NT\$ thousands

Year	2021				2022			
Sales	L	.ocal	E	xport	Local		Export	
Main Products	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity
Solar Ingot (thousand kg)	-	-	475	1,624,328	-	-	716	2,764,045

Total	71,907	12,885,229	64,586	55,956,021	92,304	16,920,610	42,325	64,950,886

III. Employee Data for the Last Two Years

	Year		2022	As of March 31, 2023
Nh	Staffs	264	276	274
Number of Employees	Operators	393	453	435
Limployees	Total	657	729	709
Av	erage Age	40	40 40	
Average	Years of Service	8	8	9
	Doctorate degree	0.46%	0.41%	0.42%
Education	Masters	12.48%	11.39%	11.57%
Education	Junior College	61.04%	63.51%	64.03%
	Senior High School or below	26.03%	24.69%	23.98%

Note: Not include subsidiary.

IV. Environmental Protection Expenditures

- A. According to the Law, a Company Shall Apply Permission for Pollution Facilities Placement, Pollutant Emission; Pay Prevention Fee; Set up Environmental Department, above Explanations are as below: The Company has applied Permission for Pollution Facilities Placement and set up Environmental Department to deal with related Matters.
- B. Investment of pollution preventing main facilities, and the purposes and possible benefits:

1. Pollution and its improvement

In order to prevent the occurrence of environmental pollution, we have successively carried out the renovation and improvement of old pollution prevention and control equipment in plants, and continuously strengthened the education and training of operators.

2. Environmental Protection Expenditure in the Recent Year

Environmental Protection Expenditure in 2022

The total cost of air pollution prevention and maintenance was NT\$17,155 thousand.

The total cost of treatment and maintenance of industrial wastewater was NT33,802 thousand.

The total cost of industrial waste treatment and maintenance was NT\$16,866 thousand.

The total cost of other environmental protection expenditures was NT\$1,349 thousand.

3. Expected improvement

The investment of the above pollution prevention and control equipment can effectively respond to the amendment to environmental protection laws and regulations, and the environmental pollution of wastewater and waste gas can be more effectively treated and reduced to ensure its discharge quality.

- C. The Company shall specify if there's any conflict related to pollution in the last two years to the date issued annual report:
 - There was no pollution dispute in 2021 and 2022.
- D. The Company shall specify the total amount of loss (Including compensation), punishment of environment pollution, and disclose future countermeasures (Including Improvement) and possible expenditures (Including estimate of possible loss, punishment, compensation, or specify facts if cannot be estimated) in the last two years to the date issued annual report:

 There was no penalty imposed in 2021 and 2022.
- E. Effects of current pollution condition and improvement to company profit, competition and capital expense, with anticipated major environmental protection expenditures in the next two years: None.
- F. Relevant information of the Company complying with the European Union Environmental Protection Directive (RoHS): Samples of banned and restricted substances of wafer based on RoHS were sent for testing in accordance with the business demands.

V. Labor Relations

- A. The Company's employee welfare measures, further education, training, retirement system and its implementation, as well as labor agreements and various measures to safeguard employees' rights and interests.
 - 1. Employee welfare measures:
 - a. High-quality salary, and fair and just incentive and promotion methods are provided to recognize the contributions of all colleagues to the Company. In addition to general benefits such as labor insurance, health insurance, group insurance and pension payment, the benefits provided by the Company to staffs include festival bonuses, birthday and festival gifts, year-end party, weddings and funerals, domestic and foreign tourism, emergency relief, scholarship, birth allowance, group lunch, equity incentive plan, complete education and training, etc. Since 2021, the trust of employee shareholding was also added. Employees may evaluate on their own whether to join or not, and participants are given rewards equal to 100% of the amount contributed by themselves.
 - b. 0.1% of the monthly turnover and 40% of the sales income is allocated to the Employee Welfare Committee each month, which is operated by its members in accordance with relevant regulations.
 - c. The company fully recognizes that the health of all employees is critical to work efficiency, and hopes to create a safe working environment by caring for employees. Since 2020, the Employee Caring Program has been established. Through the formation of cross-departmental teams, an overall plan has been formulated to provide employees with work, health, life, and welfare, and improve overall employee welfare.

2. Employees' further education and training and their implementation:

The Company provides diversified training courses and various professional on-the-job training and self-development courses, including new entrant training, on-the-job training courses, labor safety and health education training, professional courses and various post-related assignment training courses, in order to cultivate professionally competent and challenging talents.

- 3. Retirement system and its implementation:
- a. There are two types of retirement: voluntary retirement and compulsory retirement.

Voluntary retirement

Those who have worked for more than 15 years and are over 55 years old, those who have worked for more than 25 years or those who have worked for more than 10 years and are over 60 years old.

Compulsory retirement

The Company may compel a person who is over 65 years old from May 14th, 2008 or who is mentally or physically disabled and incompetent to retire.

- b. The calculation of seniority: Calculated from the date of arrival: The seniority in the period of leaving without pay should be deducted.
- c. Standards of pension payment:

Old system:

Two bases are given for each year of service. For over 15 years of service, a base is given every year, but the maximum is 45 bases. Less than half a year is counted as half a year, and more than half a year is counted as one year. If the mental or physical disability of a compulsorily retired worker is caused by the performance of his duties, the base of his pension should be increased by 20% in accordance with provisions of the preceding paragraph.

New system

If the new system was chosen after July 2005, the seniority should be calculated by the old system before July 2005, and by the new system after July 2005.

- d. The pension of employees arriving after July 2005 is calculated according to the new system (The employer allocates 6% of salary each month and deposits in the personal account of the Labor Insurance Bureau).
- 4. Labor agreements:

The Company's provisions are based on the Labor Standard Law as a guideline. In accordance with the implementation measures of the Labor Conference, labor meetings are held regularly. Labor relations have always been quite harmonious, and communication channels are unblocked. At the same time, through the joint discussion of the Labor Conference and the Staff Welfare Committee, the mutual benefit and other issues between the two sides are negotiated. In addition to further understanding of each other's needs and expectations, all our colleagues work together to create the

future of the Company based on the business philosophy of coexistence and coprosperity.

5. Protection measures of employees' rights and interests:

The Company has a sound management system, which sets out various management measures, stipulates the rights and obligations of colleagues and welfare items, and irregularly reviews and revises the welfare content to safeguard the rights and interests of all colleagues.

B. Losses incurred as a result of labor disputes in recent years and up to the date of publication of the annual report, and disclosure of current and future possible estimated amounts and response measures:

The Company's labor relations are harmonious and labor disputes are mediated in accordance with the adjustment procedures. In recent years and up to the date of publication of the annual report, there was no loss due to labor disputes.

C. Employees' behaviors or ethical codes:

In order to let all employee understand employees' behaviors and ethics as well as enhance internal cohesion, the Company has formulated relevant measures and regulations to be followed by the Company's management and all employees. The relevant measures and codes are summarized as follows:

- 1. Provisions of layered responsibilities and delegation of authorization: The Company implements layered responsibilities. There are also substitutes staff at all levels, all departments comply with provisions of delegation of authorization to ensure the normal operation of the Company's business.
- 2. Formulate reward and punishment methods: Except for those in the rules of the Company, the rewards can be divided into three categories: Reward, small merit and big merit. The punishment can be divided into three categories: admonition, small demerit and big demerit.
- 3. Implement measures for maintaining business secrets: In order to ensure the Company's business secrets and intellectual property rights, employees are asked to follow the non-compete clause in business. Employees are required to sign contracts for keeping business secrets and attribution of intellectual property rights.
- 4. Employees' annual performance evaluation methods: To enhance the morale and performance of the Company's employees, explore outstanding talents, and make employee promotion, rewards and punishments fair and reasonable.
- 5. Sexual harassment prevention and treatment measures: In order to safeguard gender equality in work and personal dignity, the Company strictly prohibits sexual harassment in the workplace, and specifies rules and employee complaint channels to regulate employees' behaviors in the workplace.
- 6. Principles of work and codes of conduct for colleagues: In order to clearly regulate the rights and obligations of both employer and employees, improve the management system of modern operation, and urge all employees to work together to achieve the

goal of high utilization of human resources and seek for business development, the Company has formulated these rules with reference to relevant laws and decrees. The main contents are as follows:

- Chapter 1 Personnel Appointment
- Chapter 2 Attendance
- Chapter 3 Working Overtime and Duty on Holidays
- Chapter 4 Salaries, Allowances and Bonuses
- Chapter 5 Performance Evaluation, Rewards and Punishments, Promotion and Mobilization
- Chapter 6 Resignation, Leaving without Pay, Lay-off, Removal and Retirement
- Chapter 7 Labor, Health, Group and Employment Insurance
- Chapter 8 Employee Welfare Committee
- Chapter 9 Marriage, Funeral, Birthday Celebration, Emergency Relief and Assistance
- Chapter 10 Compensation and Pension for Occupational Disasters
- Chapter 11 Labor Safety and Health
- Chapter 12 Communication System and Others
- 7. The rewards and punishments in plant regulations and the rules to be followed by employees of plant: The plant has formulated "Code of Work for Colleagues" for behaviors and ethics of employees in the plant. It ensures the quality of products of the Company and conforms to the operating standards. Rules for entering and leaving the plant, establishing a good working environment and providing work efficiency to maintain the image of the Company as well as improving the quality of employees should be followed.
- a. Follow the rules of work and all laws, regulations and rules.
- b. Obey the distribution, guidance, management and assignment of supervisors at all levels without putting off.
- c. Do not operate business related to the Company's business or use the name of the Company without authorization.
- d. Do not seek personal interests through the use of power or official status or information.
- e. The Company's colleagues should abide by the rules and not disclose the Company's technology, management and business secrets.
- f. Without the consent of the Company, no company information should be released to the communication industry without authorization.
- g. Confidential information of the Company should not be collected or disseminated privately.

- h. No contraband or inflammable articles should be brought into the Company or production area.
- i. Do not enter the prohibited area with warning slogans or bring relatives, friends and employees who have left the Company into the workplace without permission.
- j. The salaries of our colleagues should be treated as confidential. Also, it should not be arbitrarily told to others, and the compensation of other colleagues should not be asked about.
- k. Do not gamble, take drugs, smoke, eat betel nut or act indecent in the workplace.
- I. Alcoholic beverages should not be consumed during working hours.
- m. Public property should be cherished, and should not be wasted, damaged, changed or used privately.
- n. Pay attention to appearance, and wear overalls and company service certificates. General rules formulated to standardize all employees' compliance, ensure that the quality of our products meets the operating standards, and provide work efficiency to maintain the image of the Company and improve the quality of employees. The above measures and regulations should be trained upon the arrival of new employees, and the latest edition should be announced on the bulletin board in the plant for staffs to enquire at any time.
- D. Measures to Protect the Working Environment and Personal Safety of Employees:

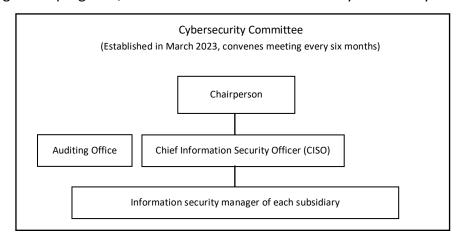

According to the Labor Safety and Health Law, the Company has established "the Labor Safety and Health Management Unit", set up the management personnel of the Labor Safety and Health Business, and formulated "the Labor Safety and Health Management Guidelines." The main contents related to the working environment of the plant area and the protection of personal safety of employees are summarized as follows:

- 1. Work environment regulations and measures
- a. Staffs should always pay attention to self-adjustment of physical and mental health and develop good hygienic habits.
- b. The workplace should be tidied up in proper time and kept clean and tidy.
- c. Smoking, eating betel nut and drinking alcoholic beverages are strictly prohibited in the plant.
- d. Smoking should be in the prescribed smoking room and the cigarette butt should not be discarded at will.
- e. Protective devices should be correctly used when hazardous substances are disposed of.
- f. Hazardous substances should be clearly marked and should not be damaged arbitrarily.
- g. Water drinking equipment that meets the drinking water standards should be installed in appropriate places in the workplace and regularly cleaned, and the water quality should be tested.

- h. Disinfect the whole plant area every year.
- i. Toilets should be well ventilated, cleaned and disinfected.
- j. All employees must keep the 6S environment clean and hygienic in the plant area and form good habits.
- k. No spitting, drowning, throwing of cigarette butts or littering is allowed.
- 2. Protection of personal safety of employees
- a. All work should be carried out and audited in accordance with relevant safety standards, operating procedures and safety checklist of working procedures.
- b. If temporary or non-regular operations do not have such safety standards to follow, they should not be conducted. Flexibly use existing safety standards and decide on the safety steps and methods to be adopted after discussion with the person in charge of the operation.
- c. Safety hats and belts should be worn by those who are engaged in elevated work with a height of more than two meters or work with objects fallen or fallen apart, inspectors and supervisors.
- d. Safety belts and auxiliary ropes or safety ropes should be used correctly in the operation on pipes, towers or racks which are not installed with platforms and guardrails and are above two meters above the ground or at the edges and openings of workplaces.
- e. When partial blackout operation is implemented for substation equipment or plant area, the blackout operation scope should be enclosed and isolated by the iron network or construction warning belt, and the signs of "blackout operation" or "power danger" should be suspended separately for warning purposes. After the completion of the operation, it should be confirmed that the employees who are engaged in the operation have left without the risk of induction before removal.
- f. Personal protective devices should be worn in accordance with the regulations of each station in work. If unsafe conditions, equipment and operation methods are found, they should be reported immediately.
- g. Chasing, bantering or other unsafe acts are prohibited in work.
- h. The maximum operating load of machines and tools should not be exceeded in use.

VI. Cyber Security Management

A. Describe the cyber security risk management framework, cyber security policies, concrete management programs, and investments in resources for cyber security management.

The Company established an Information Security Division on March 1, 2022 and a Cybersecurity Committee on March 1, 2023. The committee is composed of information or cybersecurity managers from the Company and its subsidiaries. Each subsidiary then forms its own cybersecurity promotion task force to oversee the formulation and implementation of cybersecurity and protection policies, risk management, and compliance.

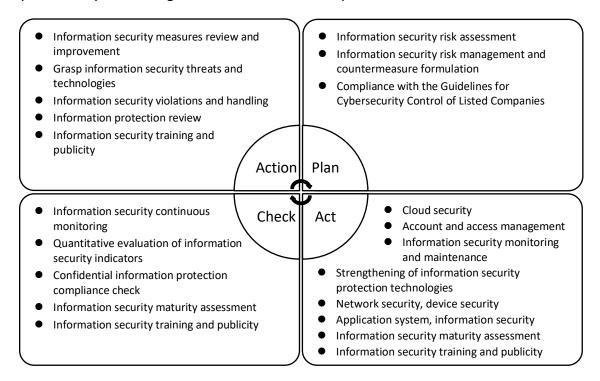

The Company has a Chief Information Security Officer (CISO) and cybersecurity organization in place to supervise cybersecurity operations company-wide and the effectiveness of cybersecurity management mechanism. The CISO reports to the Chairperson the effectiveness with which cybersecurity management organizations carry out and implement cybersecurity management operations and systems.

The Company is subject to annual information system and cyber security inspection led by the auditing unit, and the status of audit is regularly reported to the Board of Directors.

The Company takes "Information Security Governance" as the theme of the information security strategy – pursuit in compliance with the Information Security Policy, with timely introduction of new technologies for the improvement of the capacity in security information governance. "Compliance" – the Company reviews newly enacted legal rules and regulations and introduces new technology products for enhancing information security management. "Application of Technology" – cooperation with famous professional information security service provider to make improvement of information security governance capacity in these 3 aspects. Through close cooperation and mutual support, and endless improvement, the Company optimizes its capacity in overall information security defense.

The Company has adopted the PDCA cycle operation model to achieve the objectives and provide continuous improvement, established information security monitoring and vulnerability scanning systems to prevent external hacker intrusions and internal secret theft, and implemented strict software and hardware control (including Internet and personal information equipment) to ensure personal data and internal confidential data protection and security.

Cybersecurity risk management and continuous improvement framework:

Three aspects of cybersecurity are specifically managed to ensure effective cybersecurity practices and reduce risks:

- 1. Information System Security Management
- a. Install endpoint protection software on servers and personal computers or laptops, and automatically update virus definitions or signatures.
- b. Construct email security gateway equipped with information security modules such as spam filtering, malicious file detection, and phishing email detection in order to enhance email attack protection.
- c. Important systems and databases are regularly backed up and stored off-site to ensure data availability.
- d. The information system vulnerability scanning is conducted periodically and the holes in the loop of the system are fixed.
- e. The computer operation systems or servers are updated for securities based on the cyber risks.
- f. Established a firewall in the internal network and set up firewall rules to protect important information systems.
- g. Performed annual disaster recovery exercise drill for important application systems.
- 2. Information System Access Control
- a. Strictly control the application system and file access setting permissions to ensure information confidentiality.
- b. Formulate and implement account/password complexity principles, and update passwords regularly to ensure the validity of identity authentication.

- c. For employees who have resigned and changed departments, the information department shall adjust the permissions according to documents to ensure real-time and correct data permission & authorization.
- d. The Company has established the management procedures for non-employees (suppliers and contractors) to apply accounts and access the systems. Once the application is approved, the access will be granted for them to enter the system, and the handling status is recorded.
- e. No personal terminal device is permitted to be connected with any external storage medium.
- f. Personal computers are prohibited from connecting to the Company's network and resources, and the device authentication management mechanism is established.
- 3. Network Security Management
- a. Established a firewall to protect the network's external connections, and analyzed the firewall's anomaly records to strengthen protection.
- b. A multi-loop mechanism is adopted to connection to the Internet and the Company's internal network interface in order to prevent disconnection.
- c. An information service monitoring platform has been set up to monitor network traffic and connection status, which can resolve any network related problems in real time.
- d. The information department delivers security reminders to all colleagues irregularly to remind colleagues to remain alert for the emails received in order to prevent the increasingly serious phishing and malicious fraud letter problems.
- e. The internal staff's computers all must have anti-virus software installed. Once the anti-virus control platform finds a virus, it will send a notification letter to the IT personnel for computer virus removal.
- f. The remote connection to the internal network when the employees are out of office are limited to these compliant with the cyber security controls. Only these employees who are required to perform the required tasks may connect to the Company via remote connection via an authorization, and the VPN security connection with multi-factor authentication must be applied.

In light of the new trend of information security such as DDoS attack, blackmail software, community engineering software, website side recording, and loopholes, the Company joined the Taiwan Computer Emergency Response Team/Coordination Center (TWCERT/CC) and SP-ISAC of the Industrial Park. Through the annual exchange with famous information security service providers and programs, the Company pays close attention to issues related to information security and planned for proper response. The Company also conducts exercise drills against DDoS and APT under different information security environments to strengthen the capacity of the management staff in response to the situation with a view to detecting and deterring attack once discovered.

The results of implementing cybersecurity measures in 2022:

- a. Every year, the Company conducts the "Cybersecurity Related Trainings" on all employees. Each employee has completed at least two cybersecurity training programs in 2022.
- b. All persons in charge of cybersecurity (currently setting 2 persons) have completed 94.5 hours of professional cybersecurity training in 2022.
- c. The Company has conducted social engineering exercises three times in 2022, and all users have passed the test.
- d. Vulnerability scanning of the Company's external service system obtained a score of 99.
- B. List any losses suffered by the company in the most recent fiscal year and up to the annual report publication date due to significant cyber security incidents, the possible impacts therefrom, and measures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided.

US-based Globitech Incorporated (GTI), a wholly-owned subsidiary of GlobalWafers, has a factory in the United States. On January 22, 2023, GTI detected suspicious hacker activity in which the hacker obtained an employee's password through phishing or brute-force attack to hack into the company's internal servers. Thanks to the sound backup support mechanism at GTI, the company resumed normal operation on February 5, 2023.

This incident had affected some of the equipment at GTI, but because the company has a backup mechanism and effective response strategy in place, the incident did not have a material impact on the Company's finance and business.

Although the incident did not cause any material damage to the Company, the Company will continue to improve and enhance the information security defense, and communicate the cyber security with employees. The future directions of improvement are as following:

- 1.Set up a Cybersecurity Committee (one has been established in March 2023).
- 2.Set up a Cybersecurity Promotion Task Force (one has been established in April 2023).
- 3. Raise employees' cybersecurity awareness.
- 4. Password must contain more than 12 characters, including alphabets, numbers, and special symbols.
- 5.Request subsidiaries to adopt two-factor authentication as soon as possible if they have not already done so.

VII. Important Contracts

Agreement	Counterparty	Period	Major Contents	Restrictions
Land Lease	Bureau of Hsinchu	2008.01.26~	The area is 13000	Limited-purpose

	Net Profit Margin (%)	12.47	13.58	20.70	18.33	19.74	22.55
	Earnings per share (NTD)	3.36	3.86	10.82	11.62	14.87	4.21
	Cash flow ratio (%)	119.68	62.44	44.79	87.96	88.99	10.65
Cash Flow	Cash Flow Adequacy Ratio (%)	192.05	181.54	159.60	152.26	137.77	107.22
	Cash reinvestment ratio (%)	28.29	13.42	8.90	15.27	15.64	0.65
1	Operating leverage	2.33	2.27	2.20	2.04	1.29	1.35
Leverage	Financial leverage	1.02	1.01	1.01	1.02	1.02	1.03

Please explain the reasons for the changes in financial ratios in the last two years. (If the increase or decrease does not reach 20%, the analysis can be exempted)

^{1.} Interest earned ratio (times): Mainly due to current year's bank loan to meet operational needs, resulting in increase in interest expense and decrease in interest earned ratio.

^{2.} Pre-tax income to paid-in capital and earnings per share: Mainly due to growth in profit and increase in net income before tax.

^{3.} Operating leverage: Current year's operating profit significantly increases, and operating leverage decreases.

- Note 1: Financial data for the first quarter of 2023 has been reviewed by accountants.
- Note 2: At the end of this table in the annual report, the following calculation formulas should be listed:
 - 1. Financial structure
 - a. Debt ratio = total liabilities/total assets.
 - Ratio of long-term capital to property, plant and equipment = (total equity + non-current liabilities) / net property, plant and equipment.

2. Solvency

- a. Current ratio = current assets/current liabilities.
- b. Quick ratio = (current assets-inventory-prepaid expenses)/ current liabilities.
- c. Interest earned ratio (times) = net income before income tax and interest expense/ interest expenditure of the current period.

3. Operating performance

- Accounts receivable (including receivables and notes receivable arising from business) turnover=net sales/ average receivable balance of different periods (including receivables and notes receivable arising from business).
- b. Average collection period = 365/receivables turnover.
- c. Inventory turnover (times) = cost of sales/average inventory.
- d. Accounts payable (including accounts payable and notes payable arising from business) turnover=cost of sales/ average payable balance of different periods (including accounts payable and notes payable arising from business).
- e. Average days in sales = 365/inventory turnover.
- f. Property, plant and equipment turnover (times) = net sales/average net property, plant and equipment turnover.
- g. Total assets turnover (times) = net sales/total average assets.

4. Profitability

- a. Return on total assets (%) = after-tax profits and losses + interest expenses × (1-tax rate)/ average total assets.
- b. Return on stockholders' equity (%) = after-tax profits and losses/total average equity.
- c. Profit ratio (%) = after-tax profits and losses /net sales.
- d. Earnings per share = profits and losses attributable to shareholders of the parent special dividend) / weighted average number of issued shares. (Note 3)

5. Cash Flow

- a. Cash flow ratio = net cash flow of business activities/current liabilities.
- b. Cash flow adequacy ratio = net cash flow of business activities in the last five years/ (capital expenditure + inventory increase + cash dividend) of the last five years.
- c. Cash reinvestment ratio= (net cash flow of business activities cash dividend)/ (gross property, plant and equipment + long-term investment + other non-current assets + working capital). (Note 4)

6. Leverage:

- a. Operating leverage = (net operating income variable operating costs and expenses) / operating benefits (Note 5).
- b. Financial leverage = operating benefits/ (operating benefits-interest expense).
- Note 3: In the above formula for calculating the earnings per share, the following items should be paid special attention to in measurement:
 - 1. Based on the weighted average number of common shares, rather than the number of issued shares at the end of the year.
 - 2. Where there are cash increases or treasury stock transactions, the weighted average number of shares should be calculated by taking into account the circulation period.
 - 3. For those who have earnings or capital reserve converted to increase capital, when calculating earnings per share in previous years and half a year, they should be adjusted retrospectively according to the proportion of capital increase, without considering the issuance period of the capital increase.
 - 4. If special shares are non-convertible cumulative special shares, their current-year dividend (whether it is issued or not) should be deducted from their net after-tax profit or increase their net after-tax loss. If special shares are non-cumulative, with net after-tax profits, special dividends should be deducted from net after-tax profits; if they are losses, they need not to be adjusted.

- Note 4: In cash flow analysis, the following items should be paid special attention to in measurement:
 - 1. Net cash flow of business activities refers to the net cash inflow of business activities in the statement of cash flows.
 - 2. Capital expenditure refers to the cash outflow of capital investment each year.
 - 3. Inventory increase is only counted when the end-of-period balance is greater than the beginning-of-period balance. If the end-of-year inventory decreases, it is counted as zero.
 - 4. Cash dividends include cash dividends for common shares and special shares.
 - 5. Gross property, plant and equipment refers to the total amount of property, plant and equipment before the accumulated depreciation is deducted.
- Note 5: The issuer should divide the operating costs and operating expenses into fixed and variable ones according to their nature. If estimates or subjective judgments are involved, their reasonableness should be paid attention to and consistency should be maintained.
- Note 6: The ratio of paid-in capital of a foreign company is calculated by the ratio in net value.
- Note 7: Where the Company's shares have no par value or par value per share is not NT\$10, the above ratio in paidin capital should be calculated based on the equity ratio of the balance sheet attributable to shareholders of the parent.

Leverage	Financial leverage	0.99	0.99	0.98	1.05	1.05	-

Please explain the reasons for the changes in financial ratios in the last two years. (If the increase or decrease does not reach 20%, the analysis can be exempted)

- 1. Current ratio and quick ratio: Mainly due to current year's bank loan to meet operational needs, resulting in increase in current liabilities and decrease in current and quick ratio.
- 2. Interest earned ratio (times): Mainly due to current year's bank loan to meet operational needs, resulting in increase in interest expense and decrease in interest earned ratio.
- 3. Inventory turnover and average days in sales: Mainly due to adjustment of inventory level in line with production and sales plan, resulting in increase in inventory and decrease in turnover.
- 4. Property, plant and equipment turnover rate, return on stockholders' equity, pre-tax income to paid-in capital

and earnings per share:

- Mainly due to the current year's high demand for new products in the solar energy market and increase in trading of goods, resulting in significant growth in revenue and increase in profit.
- 5. Cash flow ratio (%): Mainly due to successive shipments of long-term contracts, resulting in offsetting of advance payment, decrease in operating cash inflow and decrease in cash flow ratio.
- 6. Operating leverage: Lifting of the pandemic control restrictions and energy transformation have boosted the vigorous development of the solar energy industry, resulting in the increase in current year's revenue and gross profit compared to the previous year. Fixed cost ratio drops, thereby reducing operating leverage.
- Note 1: The financial information of the last five years have been audited by the accountants.
- Note 2: At the end of this table in the annual report, the following calculation formulas should be listed:
 - 1. Financial structure
 - a. Debt ratio = total liabilities/total assets.
 - b. Ratio of long-term capital to property, plant and equipment = (total equity + non-current liabilities) / net property, plant and equipment.

2. Solvency

- a. Current ratio = current assets/current liabilities.
- b. Quick ratio = (current assets-inventory-prepaid expenses)/ current liabilities.
- c. Interest earned ratio (times) = net income before income tax and interest expense/ interest expenditure of the current period.

3. Operating performance

- a. Accounts receivable (including receivables and notes receivable arising from business) turnover=net sales/ average receivable balance of different periods (including receivables and notes receivable arising from business).
- b. Average collection period = 365/receivables turnover.
- c. Inventory turnover (times) = cost of sales/average inventory.
- d. Accounts payable (including accounts payable and notes payable arising from business) turnover=cost of sales/ average payable balance of different periods (including accounts payable and notes payable arising from business).
- e. Average days in sales = 365/inventory turnover.
- f. Property, plant and equipment turnover (times) = net sales/average net property, plant and equipment turnover.
- g. Total assets turnover (times) = net sales/total average assets.

4. Profitability

- a. Return on total assets (%) = after-tax profits and losses + interest expenses × (1-tax rate)/ average
- b. Return on stockholders' equity (%) = after-tax profits and losses/total average equity.
- c. Profit ratio (%) = after-tax profits and losses /net sales.
- d. Earnings per share = profits and losses attributable to shareholders of the parent special dividend) / weighted average number of issued shares. (Note 3)

5. Cash Flow

- a. Cash flow ratio = net cash flow of business activities/current liabilities.
- b. Cash flow adequacy ratio = net cash flow of business activities in the last five years/ (capital expenditure + inventory increase + cash dividend) of the last five years.
- c. Cash reinvestment ratio= (net cash flow of business activities cash dividend)/(gross property, plant and equipment + long-term investment + other non-current assets + working capital). (Note 4)

6. Leverage:

- a. Operating leverage = (net operating income variable operating costs and expenses) / operating benefits (Note 5).
- b. Financial leverage = operating benefits/ (operating benefits-interest expense).
- Note 3: In the above formula for calculating the earnings per share, the following items should be paid special attention to in measurement:
 - 1. Based on the weighted average number of common shares, rather than the number of issued shares at the end of the year.

- 2. Where there are cash increases or treasury stock transactions, the weighted average number of shares should be calculated by taking into account the circulation period.
- 3. For those who have earnings or capital reserve converted to increase capital, when calculating earnings per share in previous years and half a year, they should be adjusted retrospectively according to the proportion of capital increase, without considering the issuance period of the capital increase.
- 4. If special shares are non-convertible cumulative special shares, their current-year dividend (whether it is issued or not) should be deducted from their net after-tax profit or increase their net after-tax loss. If special shares are non-cumulative, with net after-tax profits, special dividends should be deducted from net after-tax profits; if they are losses, they need not to be adjusted.
- Note 4: In cash flow analysis, the following items should be paid special attention to in measurement:
 - 1. Net cash flow of business activities refers to the net cash inflow of business activities in the statement of cash flows.
 - 2. Capital expenditure refers to the cash outflow of capital investment each year.
 - 3. Inventory increase is only counted when the end-of-period balance is greater than the beginning-of-period balance. If the end-of-year inventory decreases, it is counted as zero.
 - 4. Cash dividends include cash dividends for common shares and special shares.
 - 5. Gross property, plant and equipment refers to the total amount of property, plant and equipment before the accumulated depreciation is deducted.
- Note 5: The issuer should divide the operating costs and operating expenses into fixed and variable ones according to their nature. If estimates or subjective judgments are involved, their reasonableness should be paid attention to and consistency should be maintained.
- Note 6: The ratio of paid-in capital of a foreign company is calculated by the ratio in net value.
- Note 7: Where the Company's shares have no par value or par value per share is not NT\$10, the above ratio in paidin capital should be calculated based on the equity ratio of the balance sheet attributable to shareholders of the parent.

III. Audit Committee's Report in the Most Recent Years

Audit Committee's Audit Report

The Board of Directors has prepared the Company's 2022 Business Report, Consolidated and Standalone Financial Statements and Earnings Distribution Proposal. Sino-American Silicon Products Inc. Consolidated and Standalone Financial Statements have been audited and certified by An-Chih Cheng, CPA, and Mei-Yu Tseng, CPA, of KPMG and audit review reports relating to the Financial Statements have been issued. The Auditing Committee has reviewed the business report, consolidated financial statements, individual financial statements and earnings distribution proposal and did not find any instances of noncompliance. In accordance with Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, it is hereby submitted for your review and perusal.

Sincerely

Shareholders' Regular Meeting in 2023

Sino-American Silicon Products Inc.

Convenor of the Audit Committee:

Jin-Tang Liu

May 5, 2023

IV.	Financial	Statements	for the	Latest Year
	I IIIGIICIGI	JULICITUS	101 111	Lutest itai

Please refer to Annex I of the annual report.

V. Standalone Financial Statements for the Latest Year

Please refer to Annex II of the annual report.

VI. Difficulties in Financial Turnover in the Most Recent Years and Up to the Date of Publication of the Annual Report of the Company and Its Affiliated Company None.

VII. Review of Financial Conditions, Operating Results, and Risk Management

I. Analysis of Financial Status

Unit: NT\$ thousands

			•	
Year	2022	2021	Differenc	ce
Item	2022	2021	Amount	%
Current assets	116,051,678	91,219,414	24,832,264	27.22
Financial assets at fair value through other comprehensive income- non-current	1,444,845	1,290,831	154,014	11.93
Financial assets measured at amortized cost- non-current	-	-	-	-
Investment accounted for using equity method	2,507,749	6,959,532	-4,451,783	-63.97
Property, plant and equipment	51,865,962	40,428,472	11,437,490	28.29
Intangible assets	7,124,850	3,025,349	4,099,501	135.51
Other assets	17,614,306	24,327,687	-6,713,381	-27.60
Total assets	196,609,390	167,251,285	29,358,105	17.55
Current liabilities	43,602,448	35,222,387	8,380,061	23.79
Non-current liabilities	84,875,398	79,865,960	5,009,438	6.27
Total liabilities	128,477,846	115,088,347	13,389,499	11.63
Ordinary shares (including equity capital to be written off)	5,862,217	5,862,217	-	-
Capital surplus	16,846,163	18,304,186	-1,458,023	-7.97

Other equity interest	-5,973,997	-5,439,007	-534,990	9.84
Non-controlling interest	36,258,972	23,625,856	12,633,116	53.47
Total equity	68,131,544	52,162,938	15,968,606	30.61

Note 1:

Explain the main reasons for the major changes in assets, liabilities and shareholders' equity in the last two years (those with changes of more than 20% in the early and late stages and the amount of changes of NT\$ 10 million) and their effects and future plans.

Description:

- (1) Current assets and current liabilities: The semiconductor business group received long-term contract payments and gained control over subsidiaries this year, recognizing relevant assets and liabilities in a consolidated statement, which resulted in increase in current assets and liabilities.
- (2) Investment on equity method and non-controlling interest: Mainly due to the recognition of net assets of subsidiaries after gaining control over them this year, and the transfer of each asset and liability from investments on equity method in the consolidated statements.
- (3) Property, plant and equipment: The expansion of the semiconductor business group this year caused the amount to increase compared with previous year.
- (4) Intangible assets: Intangible assets in consolidated statements were mainly due to the acquisition of control over subsidiaries this year.
- (5) Other assets: Long-term contracts were successively performed, which reduced the amount of advance payments to vendors, resulting in decrease in other assets.
- (6) Retained earnings: Operating revenue increase.

II. Analysis of Operation Results

A. Comparative analysis of operation results

Unit: NT\$ thousands

Year			Variation (tion ratio	
	2022	2021	Increased or	(%)	
Item			decreased amount	(70)	
Operating revenues	81,871,496	68,841,250	13,030,246	18.93	
Operating costs	49,942,234	44,314,606	5,627,628	12.70	
Gross profit from operations	31,929,262	24,526,644	7,402,618	30.18	
Operating expenses	6,529,448	6,446,651	82,797	1.28	
Net operating income	25,399,814	18,079,993	7,319,821	40.49	
Non-operating income and expenses	-4,571,108	-874,266	-3,696,842	422.85	
Income before income tax	20,828,706	17,205,727	3,622,979	21.06	
Income tax expenses	4,668,209	4,590,337	77,872	1.70	
Net income for the current period	16,160,497	12,615,390	3,545,107	28.10	
Total comprehensive income in the current period	15,461,352	8,548,692	6,912,660	80.86	

Description of analysis on the change in the ratio of increase to decrease:

- 1. Gross profit from operations: The solar power business group generated more revenue because of increase in product market price, resulting in increased net profit compared with previous year; The semiconductor business group generated more revenue because of strong market demand. In addition, increase in net profit compared with previous year was mainly due to the influence of product mix and favorable price spread.
- 2. Non-operating income and expenses: Mainly due to the recognition of losses on valuation of foreign equity investment this year.
- 3. Total comprehensive income in the current period: Mainly due to increase in USD exchange rate, which increased adjustments made to the translation of the Group's foreign financial statements compared with previous year.

III. Analysis of Cash Flow

A. Liquidity analysis in the last two years

Year Item	2022	2021	Variance (%)
Cash Flow Ratio (%)	88.99%	87.96%	1.03%
Cash Flow Adequacy Ratio (%)	137.77%	152.92%	-15.15%
Cash Reinvestment Ratio (%)	15.64%	15.27%	0.37%

Description of analysis on the change in the ratio of increase to decrease:

- 1. Cash flow adequacy ratio: Mainly due to increase in capital expenditure and inventory this year, and the number of cash dividend distribution also increased as a result of increase in net profit, causing decrease in cash flow adequacy ratio.
- B. Cash Flow Analysis for the Coming Year

Unit: NT\$ thousands

Cash,	Net Cash Flow	Cash	Cash Surplus	Leverage of	Cash Deficit
Beginning	from Operating		(Deficit)	Investment	Financing
of Year	Activities	Outflow	(Deficit)	Plans	Plans
83,247,854	16,488,006	(39,512,880)	60,222,980	-	-

- 1. Cash Flow Analysis of 2023
- a. Operating activities: Revenue and gross profit continued to grow because solar product mix changed and market demand is strong. Coupled with the robust development of the semiconductor industry and the Group's active production expansion and continuous delivery of goods, net cash flow from operating activities for the year is projected to be net cash inflow •
- b. Investing activities: The Company receives cash dividends from the investment company and pay for domestic and foreign investment, capital expenditure and distributed dividends with them.
- c. Financing activities: Mainly via repayment (borrowing) of loans and payment of dividends.
- 2. The remedial measures and liquidity analysis of the anticipated cash shortfall: None.

IV. Major Capital Expenditure Items influence on Financial Business

- A. The use of major capital expenditures and sources of funds: None.
- B. Major capital expenditures are expected to yield benefits: None.

V. Recent Reinvestment Policy, Major Reasons for Profits or Losses, Improvement Plan and Investment Plan for the Following Year

A. Reinvestment policy

The Company's reinvestment policy is based on the Company's future direction of operation and implemented step by step. At this stage, the strategy alliance or reinvestment of various business links with higher added value in the supply chain of solar energy industry is used to provide comprehensive operation results.

B. Major reasons for profits or losses of reinvestment, improvement plan and investment plan for the next year.

Unit: NT\$ thousands

Reinvestment Company	2022 Recognized (Losses) Profits	Main Causes of Profits or Losses	Improvement Plan	Investment Plan for the Next Year
Sino Silicon Technology Inc.	1,578	Mainly due to the gain from the time deposits and exchange.	None	None
Globalwafers Co., Ltd.	7,863,492	Mainly due to the booming in semiconductor market with stable profits	None	None
Crystalwise Technology Inc.	(32,395)	Mainly due to reduction of market demand for LED/LT/LN.	Actively promote product transformation to increase company value	None
Accusolar Power Co., Ltd.	(911)	Mainly due to the impact of COVID-19 on project development and generation of pre-tax losses	None	None
Aleo Solar GmbH	(48,126)	Mainly due to failure to achieve the expected output of new products, resulting in increase in unit production cost	Actively increase the output of new products to reduce product costs	None
Aleo Solar Distribuzione Italia S.r.l	31,516	Mainly due to Solar module prices rise.	None	None
SAS Sunrise Inc.	(81,320)	Cayman Holdings, an overseas power plant	None	None
SAS Sunrise Pte. Ltd. (Note)	-	Singapore Holding, an overseas power plant	None	None
Sulu Electric Power and Light Inc.	(109,201)	Affected by the epidemic, the Philippine power plant has reduced the Feed-in Tariff and incurred losses before tax	Actively seek strategic investment partners, combine with local energy companies, and confirm electricity tariff as soon as possible.	None

Note: SAS Sunrise Pte. Ltd. completed cancellation procedures on March 29, 2022.

Reinvestment Company	2022 Recognized (Losses) Profits	Main Causes of Profits or Losses	Improvement Plan	Investment Plan for the Next Year
Taiwan Speciality Chemicals Corporation	49,033	Increased market demand for special gases and continued development of new customers	None	None
Actron Technology Corporation	127,311	Diodes for automotive generators take the leading position in the market, and the business conditions are normal	None	None
Advanced Wireless Semiconductor Company	(57,628)	Mainly due to weak demand for high-end mobile phone chip	Continue with destocking, while market demand in China is expected to return after the lifting of COVID-19 restrictions	None
Sunrise PV Three Co., Ltd.	1,067	Power generation business	None	None
SAS Capital Co., Ltd.	(61,863)	Mainly due to losses incurred to investee company as a result of drop in the market price of its investment target	Continue to monitor investment targets to control investment risks	None
Sustainable Energy Solution Co., Ltd.	(125)	Established in April 2021, the main business is energy technology services.	Revenue from sale of electricity is anticipated at the start of 2023	None
GlobalSemiconductor Inc.	438,810	The business condition is normal	None	None
GlobalWafers Japan Co., Ltd.	1,666,402	Business and profits are stable	None	None
GWafers Singapore Pte. Ltd.	2,749,886	The business condition is normal	None	None
Sunrise PV Four Co., Ltd.	8,608	The business condition is normal	None	None

VI. Risk Management and Assessment

- A. The organizational structure of the Company's risk management, its implementation and responsible units are as follows:
 - 1. Board of Directors: Pay attention to relevant government decree at all times, review relevant company management measures, and ensure the effectiveness of company management rights and operational risk management.
 - 2. President's Office: It is mainly responsible for evaluation and execution of response strategies of business decision-making risks, legal risks of the Company, and employee crisis risk management.
 - 3. Audit Office: Mainly link the Company's objectives, risk tolerance and strategies, and actively assist company managers to deal with all the interrelated risks of the whole enterprise.
 - 4. MIS: The responsible unit for the evaluation and execution of network information security and operational risks.
 - 5. Administration: Responsible unit for the evaluation and control of human resources allocation and response, and the evaluation and execution of response strategies of relevant legal business and compliance.
 - 6. Accounting Dept.: Responsible unit for the evaluation and execution of response strategies of relevant financial risk management of the Company, mainly for the evaluation and control of interest rate, exchange rate and financial risk, liquidity risk and credit risk.
 - 7. Procurement: The executing unit which avoids the risk that the purchaser will drive up the price because of monopoly and avoids the risk of concentration of the purchasers.
 - 8. Sales: Responsible unit for the evaluation and execution of response strategies of market risks, and customer accounts receivable management, in order to reduce risks of the Company's order receiving process.
 - 9. Manufacturing: mainly responsible for product production, yield and abnormality management, use and scrap of raw materials, and capacity expansion planning and implementation.
 - 10. R&D: Responsible unit for the evaluation and execution of response strategies for product design and process risks and product life cycle risks.
 - 11. The Company systematically manages and controls risks of the products and processes.

<u>Execution and responsible units:</u> R&D unit is responsible for new product development, risk identification, evaluation and control of derivative products and other activities. Business unit is responsible for information monitoring after product launching, collection and customer feedback. The quality assurance, manufacturing, legal and intellectual property units are responsible for assisting the relevant processes of the process.

Responding measures: In the early stage of new product development, R&D unit began to analyze the patent distribution of international competitors based on TIPS and APQP operating system, formulated R&D strategies to avoid patent infringement, ensured the rights and interests of the Company and customers, and continuously grasped the world's technological trends in the process of product development and production, so as to respond to changes in product life cycle in advance. The process unit regularly reviews whether it should introduce new processes or overcome the deficiencies of existing processes according to the functions of products and customer complaints, in order to prevent product risks.

B. Effects of Changes in Interest Rates, Foreign Exchange Rates and Inflation on Corporate Finance, and Future Response Measures

1. Changes in interest rates

The Company and its subsidiaries have a sound financial health and good credit history, so financial institutions credit conditions are more favorable, which the Company can enjoy better conditions on the cost of borrowing. The content of the loan according to the real capital needs divided into short-term loans and medium- and long-term borrowings. The Company bases on the cost of funds and repayment conditions as the benchmarks for the evaluation to the term of a loan. The Company will adjust financing tools to reduce the risk of interest rate fluctuation according to the fluctuation of interest rate.

2. Exchange rate fluctuation

The foreign currency positions of the Company's and subsidiaries' purchase and sale transactions are based on the principle of natural hedging between the liabilities and asset positions. To minimize the net positions exposed to the fluctuation risk of exchange rates, the financial department closely observes the exchange rate trend. If necessary, the Company will also work with foreign exchange operation tools for the purpose of hedging to reduce the impact of exchange rate fluctuations on operating costs.

3. Inflation

With rising pressure from global inflation impacting world economy and squeezing business profits, the Company reduced front-end purchasing costs by partnering with multiple suppliers and actively negotiating prices, and concurrently adjusted end selling prices to retain profits. The Company and its subsidiaries also monitored price fluctuations at all time, taking corresponding measures as needed.

- C. Policies, Main Causes of Gain or Loss and Future Response Measures with Respect to Highrisk, High-leveraged Investments, Lending or Endorsement Guarantees, and Derivatives Transactions
 - 1. According to policy considerations, the Company is not engaged in high-risk and highly leveraged investment.
 - 2. The Company and its subsidiaries are engaged in capital lending, endorsement guarantee and derivative commodity transactions in accordance with the Operating

Procedures for Loan to Others, Measures for Endorsement Guarantees, Treatment Procedures for Derivative Commodity Transactions and relevant regulations of the competent authorities. The executing unit also makes internal audit and supervision in accordance with relevant management measures based on regular audit and announcement, which will not result in risks to operation.

D. Future Research & Development Projects and Corresponding Budget

	Expected	Time to	Main Influencing
Recent Annual Plan	Research	completed mass	Factors of the Success
	Expenditure	production	of Future R&D
Development of Large			Introduction of
Size Ultra-High	NT\$700 million	2024	advanced process
Efficiency Mono-Si	N15700 million	2024	technology and
Solar Cell Technology			equipments

E. Effects of and Response to Changes in Policies and Regulations Relating to Corporate Finance and Sales in Recent Years at Home and Aboard:

Except that our daily operations are regulated by the relevant laws and regulations at home and abroad, we always pay attention to the development trend and change of policies and regulations at home and abroad, in order to fully grasp the changes of market environment, and timely take the initiative to propose response measures. Up to the date of publication of the prospectus, our group has not been affected by major changes in policies and laws at home and abroad.

F. Effects of and Response to Changes in Technology and the Industry Relating to Corporate Finance and Sales in Recent Years:

In 2022, China's vertically integrated factories actively launched large-sized products, gradually reducing M6 products, promoting instead M10/G12 products. Passivated Emitter and Rear Contact (PERC) solar cells were upgraded to Tunnel Oxide Passivated Contact (TOPCon) solar cells. Meanwhile, upstream materials were not produced in time, causing prices to rise sharply. Taiwanese factories are unable to grasp key upstream materials, making the cost in 2022 higher with international materials. The Company will continuously observe the market situation and take the following response measures.

- 1. Continue to optimize and enhance the efficiency of PV cells and launch highefficiency large-sized battery products to bolster customers' product competitiveness.
- 2. Rapidly increase the development energy of new technologies and new products, and continuously invest in the growth of high-efficiency polycrystal silicon crystal and the development of precision processing technology of custom-made silicon ingot, in order to create the core competitive advantages.
- 3. Actively expand the layout of solar power generation system, respond to the government's policy of vigorous promotion of renewable energy, invest in new business opportunities after Taiwan's installation tide in a large number, and accumulate the integration capacity of after-sales maintenance and operation of power plant through the investment of the Group in Taiwan's solar power plant.

In terms of information security, the company has established network and computerrelated information security protection measures, and has continuously reviewed and evaluated information security management methods and procedures to ensure their appropriateness and effectiveness. The company continues to strengthen information security protection measures in order to protect the company from malicious software and hacker attacks. In addition, it has established a complete backup mechanism to restore the normal operation of the system in a very short period of time after being attacked and minimize damage.

- G. The Impact of Changes in Corporate Image on Corporate Risk Management, and the Company's Response Measures in Recent Years:
 - Since its establishment, the Company has adhered to the business philosophy of "honesty, professionalism, team and innovation", emphasizes the principle of honesty, stimulates individual creativity with cordiality, dedication, activeness and professionalism, and demonstrates the Company's unique culture through the tacit understanding of the team, and continuous innovation of technologies and management. The Company was again ranked top 5% in the 9th (2022) Corporate Governance Evaluation, which demonstrates the Company's determination to strive for transparency, integrity, and sustainability. At the same time, the Company will continue to adhere to the principle of good faith to show the blueprint of corporate governance, and strengthen the Company's physique to improve business performance and implement corporate social responsibility.
- H. Expected Benefits from, Risks Relating to and Response to Merger and Acquisition Plans in Recent Years:
 - Up to the date of publication of the annual report, the Company has no plan for merger and acquisition.
- I. Expected Benefits from, Risks Relating to and Response to Factory Expansion Plans in Recent Years: None.
- J. Risks associated with over-concentration in purchase or sale in recent years: None.
- K. Impact of mass transfer of equity by or change of directors, supervisors, or shareholders holding more than 10% interest on the Company, associated risks and response measures in recent years: No such situation.
- L. Effects of, Risks Relating to and Response to the Changes in Management Rights in Recent Years: None.
- M. Litigious and non-Litigious Matters in Recent Years: If there has been any material impact upon shareholders' equity or prices for the company's securities as a result of any litigation, non-litigious proceeding, or administrative dispute involving a company director, supervisor, general manager, de facto responsible person, or major shareholder with a stake of more than 10 percent, and the matter was finalized or remained pending, the facts in dispute, amount in dispute, commencement date, main parties involved, and current status of the case up to the publication date of the annual report shall be disclosed: None.

VII. Other Major Events

Intellectual property management and risk countermeasures:

Intellectual property management strategy

"Enhancing Innovation Capability" and "Strengthening Confidentiality Mechanism" is the two main management strategies of SAS. Not only performing independent research and development base on innovation capabilities but also via technological-industrial cooperation or strategic alliances to stimulate technological capabilities. As for the confidentiality mechanism, strengthen the control of various business secrets as well as establish specifications for the use of electronic mail and electronic storage devices to ensure that key technologies do not flow out and maintain the company's competitive energy.

Intellectual property management system

SAS began to introduce the "Taiwan Intellectual Property Management System (TIPS)" system in 2010, and gradually established an intellectual property management system, which included a patent management system for e-management and the use of a patent search system to improve the effectiveness of previous cases. At the same time, the Company conducts internal audits regularly to implement the management system. The Company successfully passed TIPS in-depth verification in 2012 and revised AA level verification in 2016, and has continued to import TIPS until now.

Possible risks and counter measurers

In order to avoid the loss caused by the leakage of the company's key technologies, the company conducts confidential management and control especially for personnel, equipment, environment, documents, etc., such as holding courses related to intellectual property management, strengthening the concept of personnel confidentiality protection; strengthening employees' awareness of phishing emails to avoid information security Hazards; control for outgoing emails, use of electronic storage devices (USB), camera shooting in control areas, etc.; define file levels in detail, and set up corresponding management mechanisms according to different file levels. Various means to keep confidential information properly and reduce the risk of leakage.

2022 Execution of Intellectual Properties

Intellectual property	Summary of the execution			
management strategy	Summary of the execution			
	With the development and production of key materials as the main axis,			
Improve the	the development and production of preparation technology is carried out			
innovation ability	through cooperation with academic and research units, and the patent			
	layout is carried out for the process and equipment.			
	In 2022, the TIPS internal audit will be held in August to strengthen the			
Strengthen the	confidentiality protection mechanism and improve the implementation			
confidentiality	of the intellectual property management system by colleagues. There are			
mechanism	90 audits in total, 0 missing items and 1 suggested observation items, all			
	of which have been corrected and preventive measures improved.			

Key achievements of intellectual property, main purpose of use and contribution

SAS Group (including its subsidiary GlobalWafer's Group) has accumulated a total of 1999 valid patents, including 1262 valid patents and 737 patents in application, covering different materials and technical fields such as solar energy and semiconductors. In order to utilize intellectual property rights more effectively, after a detailed inventory of idle patents in 2021, in addition to ensuring the Group's competitive advantage in the future, patent rights are expected to generate additional income through patent operations.

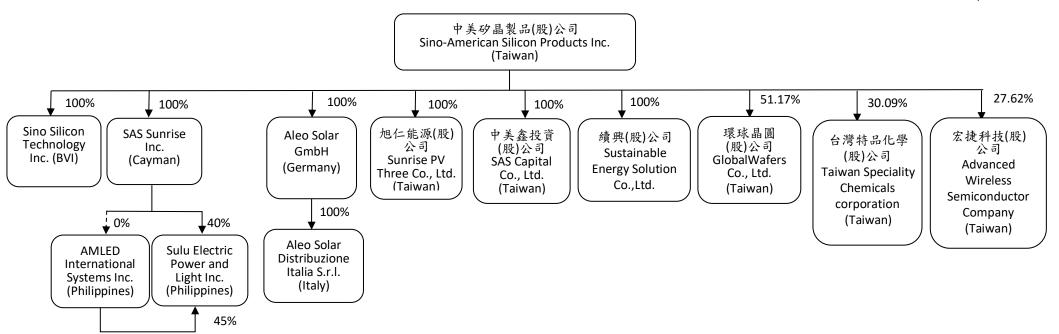

For the aforesaid IP management planning and implementations, the Company reports to the board of directors at least once a year. The latest reporting date was November 3, 2022.

VIII. Special disclosures

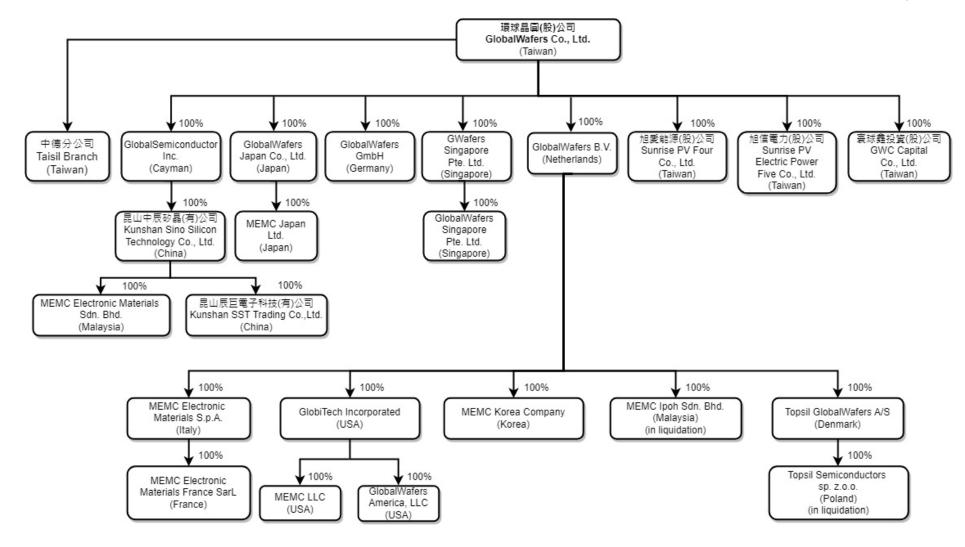

I. Profiles of affiliates and subsidiaries

- A. Consolidated Operation Report of Affiliates
 - 1. Organization chart of affiliates

December 31, 2022

- Note 1: Although the Company possesses less than 50% voting power over Sulu, through effective negotiation with Sulu and other investors, the Company can control Sulu's financial and business strategies and thus considers Sulu its subsidiary.
- Note 2: Although the Company does not hold owners' equity over AMLED; however, according to the terms of agreement signed with AMLED, the consolidated company can control the financial and business strategies of AMLED and obtain all interests in its operation and net assets. Therefore, the Company considers AMLED its subsidiary.

2. Basic information of the various affiliated enterprises

Representation Letter

The entities that are required to be included in the combined financial statements of Sino-American Silicon Products Inc. as of and for the year ended December 31, 2022 under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports, and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with International Financial Reporting Standards No. 10, "Consolidated Financial Statements", as endorsed by the Financial Supervisory Commission of the Republic of China. In addition, the information required to be disclosed in the combined financial statements are included in the consolidated financial statements. Consequently, Sino-American Silicon Products Inc. and Subsidiaries do not prepare a separate set of combined financial statements.

Company name: Sino-American Silicon Products Inc.

Chairman: Doris Hsu Date: March 16, 2023

Independent Auditors' Report

To the Board of Directors of Sino-American Silicon Products Inc.:

Opinion

We have audited the consolidated financial statements of Sino-American Silicon Products Inc. and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of December 31, 2022 and 2021, the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), Interpretations developed by the International Financial Reporting Interpretations Committee ("IFRIC"), and the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on our judgment, the key audit matters that should be disclosed in this audit report are as follows:

1. Revenue recognition from contracts with customers

Please refer to note 4(15) "Revenue recognition" for accounting policy and note 6(23) "Revenue from contracts with customers" of the consolidated financial statements for further information.

Description of key audit matter:

The Group's semiconductor segment revenues are derived from the sales of semiconductor materials and components. Revenue recognition is also dependent on whether the specified sales terms in each individual contract are met. In consideration of the high volume of sales transactions generated from world-wide operations, it is more important to identify the timing of revenue recognition because it involves different transaction terms and the Group's triangular trade. Therefore, the cut-off of revenue is one of the key areas our audit focused on.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding of revenue recognition policies and assessing whether revenue recognition policies are appropriate based on sales terms and revenue recognition criteria; understanding the design and process of implementation of internal controls and testing operating effectiveness; testing selected sales samples and agreeing to customer orders, delivery note and related documentation supporting sales recognition; testing sales cut-off, on a sample basis, for transactions incurred within a certain period before or after the balance sheet date by reviewing related sales terms, inspecting delivery documents, and other related supporting document to evaluate whether the revenue was recorded in proper period.

2. Goodwill impairment assessment

Please refer to the note 4(13) "Impairment of non-financial assets" for accounting policy, note 5(2) "Significant accounting assumptions and judgments, and major sources of estimation uncertainty" for impairment assessment, and note 6(12) "Intangible assets" for further details.

Description of key audit matter:

The Group is in a capital intensive industry, with goodwill arising from business combinations. Moreover, the Group operates in an industry in which the operations are easily influenced by various external factors, such as market conditions and governmental policies. Therefore, the assessment of impairment of goodwill is necessary. The assessment procedures, including identification of cash-generating units, valuation models, selection of key assumptions and calculations of recoverable cash inflows, depend on the management's subjective judgments, which contained uncertainty in accounting estimations. Consequently, this is one of the key areas in our audit.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included assessing triggering events identified by management for impairment indicators existing in a cash-generating unit, assessing whether the assumptions used for evaluating the recoverable amount are reasonable; evaluating the achievement of prior year financial forecasts; inspecting the calculations of recoverable amounts; assessing the assumptions used for calculating recoverable amounts and cash flow projections; performing sensitivity analysis based on key factors; assessing whether the accounting policies for goodwill impairment and other relevant information have been appropriately disclosed.

Other Matter

Sino-American Silicon Products Inc. has additionally prepared its parent-company-only financial statements as of and for the years ended December 31, 2022 and 2021, on which we have issued an unqualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the 2022 consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are An-Chih Cheng and Mei-Yu Tseng.

KPMG

Taipei, Taiwan (Republic of China) March 16, 2023

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and consolidated financial statements, the Chinese version shall prevail.

Notes to the Consolidated Financial Statements For the years ended December 31, 2022 and 2021

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

1. Company history

Sino-American Silicon Products Inc. ("SAS" or "the Company") was incorporated in accordance with the Company Act of the Republic of China in January 1981. The registered address is No.8, Industrial East Road 2, Science Based Industrial Park, Hsinchu, Taiwan, R.O.C. The Company, as well as its subsidiaries (together referred to as the "Group"), mainly engages in the design, production, and sale of semi-conductor silicon materials and components, rheostat, optical and communications wafer materials; also the related technology, management consulting business, and technical services of the photo-voltaic power system generation and installation.

The Company's common stocks have been officially listed and traded on Taipei Exchange since March 2001.

For the purpose of reorganization and professional division of work and enhancing competitiveness and business performance, a resolution was reached at the shareholders' meeting on June 17, 2011 to have the semiconductor business and sapphire business (including the related assets, liabilities and business operations), by the way of incorporation and demerger, transferred to the Company's 100% owned subsidiaries, GlobalWafers Co., Ltd. (hereinafter referred to as "GlobalWafers") and Sino Sapphire CO., LTD (hereinafter referred to as "Sino Sapphire") with the record date of demerger scheduled on October 1, 2011. The Company based on the net book value of the semi-conductor business shall pay a price of NT\$38.5 per share for acquiring 180,000 thousand shares at NT\$ 10 par value of GlobalWafers; also, based on the sapphire business net assets shall pay a price of NT\$ 40 per share for acquiring 40,000 thousand shares at NT\$ 10 par value of Sino Sapphire.

GlobalWafers' common shares have been listed on Taipei Exchange ("TPEx") since September 25, 2015, and were delisted from the Emerging Market at the same date.

The Group acquired all outstanding ordinary shares of SunEdison Semiconductor Limited (hereinafter referred to as SunEdison) on December 2, 2016 so that it acquired the control over SunEdison Semiconductor Limited and its subsidiaries. SunEdison is the world's leading semiconductor wafer manufacturer and supplier. Since its inception, SunEdison has been a leader in wafer design and R&D technology. SunEdison's R&D and manufacturing bases are located throughout the United States, Europe and Asia to develop next generation high performance semiconductor wafers. Through this acquisition, the Group will be able to increase its global market share, customer base, other wafer technology and capacity and expand operations.

2. Approval date and procedures of the consolidated financial statements:

The consolidated financial statements were authorized for issue by the Board of Directors on March 16, 2023.

Notes to the Consolidated Financial Statements

3. New standards, amendments and interpretations adopted:

(1) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. ("FSC") which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2022.

- Amendments to IAS 16 "Property, Plant and Equipment Proceeds before Intended Use"
- ♠ Amendments to IAS 37 "Onerous Contracts—Cost of Fulfilling a Contract"
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 "Reference to the Conceptual Framework"
- (2) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2023, would not have a significant impact on its consolidated financial statements.

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"
- ♠ Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"
- (3) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"	Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement for at least 12 months after the reporting date. The amendments has removed the requirement for a right to be unconditional and instead now requires that a right to defer settlement must exist at the reporting date and have substance.	January 1, 2024
	The amendments clarify how a company classifies a liability that can be settled in its own shares – e.g. convertible debt.	

Notes to the Consolidated Financial Statements

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and consolidated financial performance. The results thereof will be disclosed when the Group completes its evaluation.

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements.

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17 "Insurance Contracts"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"
- Amendments to IFRS 17 "Initial Application of IFRS 17 and IFRS 9 Comparative Information"
- IFRS16 "Requirements for Sale and Leaseback Transactions"

4. Summary of significant accounting policies:

The significant accounting policies presented in the consolidated financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

(1) Statement of compliance

The consolidated financial statements have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" (hereinafter referred to as the Regulations), International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C (hereinafter referred to as the "IFRSs endorsed by the FSC").

(2) Basis of preparation

A. Basis of measurement

Expect for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

- (a) Financial instruments at fair value through profit or loss are measured at fair value;
- (b) Financial assets at fair value through other comprehensive income are measured at fair value;
- (c) Cash-settled-shared-based payment liability is measured at fair value;
- (d) The defined benefit liabilities (assets) are measured at fair value of the plan assets, less the present value of the defined benefit obligation and the asset ceiling, as explained in note 4(17).

Notes to the Consolidated Financial Statements

B. Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan dollars (NTD), which is the Company's functional currency. All financial information presented in NTD has been rounded to the nearest thousand.

(3) Basis of consolidation

A. Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The Group prepares consolidated financial statements using uniform accounting policies for alike transactions and other events in similar circumstances.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

When the Group loses control over a subsidiary, it derecognizes the assets (including any goodwill) and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any interest retained in the former subsidiary is measured at fair value when control is lost, with the resulting gain or loss being recognized in profit or loss. The Group recognizes as gain or loss in profit or loss the difference between (i) the fair value of the consideration received as well as any investment retained in the former subsidiary at its fair value at the date when control is lost; and (ii) the assets (including any goodwill), liabilities of the subsidiary as well as any related non-controlling interests at their carrying amounts at the date when control is lost, as gain or loss in profit or loss. When the Group loses control of its subsidiary, it accounts for all amounts previously recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if it had directly disposed of the related assets or liabilities.

Notes to the Consolidated Financial Statements

B. List of subsidiaries in the consolidated financial statements:

			Percen Owne		
Name of Investor	Name of subsidiary	Business	December 31, 2022	December 31, 2021	Note

Note 1: The Group can control the financial and operating strategies of Sulu through effective agreements with its other investors, so Sulu is considered as a subsidiary.

Notes to the Consolidated Financial Statements

- Note 2: The Group does not have an owners' equity of AMLED. However, the Group controls the financial and operating strategies of AMLED and receives all benefits of its operations and net assets based on terms of the agreement. AMLED is considered a subsidiary.
- Note 3: The Group adjusted its organizational structure as follows:
 - (1) Formerly known as SunEdison.
 - (2) GW GmbH was originally 100% held by GWBV, on March 15, 2022, the Board of Directors approved that the company directly increase the capital of GW GmbH and obtain 99.95% of the equity of GW GmbH; on September 30, 2022, the GlobalWafers acquired 0.05% equity of GW GmbH from GWBV, and the above investment has been fully paid and registered.
 - (3) KST was established in May 2022.
 - (4) Liquidation procedures of GWI had been completed in November 2022.
 - (5) GWA was established in August 2022.
 - (6) In response to the Group's reorganization plan, GlobalWafers purchased all of GWBV's shares from GWS through the share purchase transaction approved by the Board of Directors on September 1, 2022, and completed the share transaction on November 7, 2022.
- Note 4: Taiwan Speciality Chemicals' Board of Directors was fully re-elected in August 2021, and the Group obtained the majority of the directors' seats. Thus, the Group obtained the control over the investee. Taiwan Speciality Chemicals have been traded publicly at the Taipei Exchange (TPEx) in September 2022, the Group released 1,168 thousand shares of Taiwan Speciality Chemicals.
- Note 5: SES was established in April 2021.
- Note 6: Advanced Wireless' Board of Directors was fully re-elected on June 20, 2022, and the Group obtained the majority of the directors' seats. The Group is the single largest shareholder of the investee, and the remaining voting rights in the investee are widely dispersed. Considering the Company's power over the investee, exposure or rights to variable returns, and the ability to use its power over the entity to affect the amount of the investee's remuneration, the Group obtained control over Advanced Wireless.
- C. Subsidiaries excluded from the consolidated financial statements: None.

(4) Foreign currencies

A. Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date.

Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for an equity investment in equity securities designated as at fair value through other comprehensive income, which are recognized in other comprehensive income.

Notes to the Consolidated Financial Statements

B. Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into New Taiwan Dollars at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into New Taiwan Dollars at the average rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(5) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current:

- A. It is expected to be realized, or intends to be sold or consumed, in the normal operating cycle;
- B. It is held primarily for the purpose of trading;
- C. It is expected to be realized within twelve months after the reporting period; or
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current:

- A. It is expected to be settled in the normal operating cycle;
- B. It is held primarily for the purpose of trading;
- C. It is due to be settled within twelve months after the reporting period; or
- D. The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

Notes to the Consolidated Financial Statements

(6) Cash and cash equivalent

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(7) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

A. Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at amortized cost, FVOCI, and FVTPL. Financial assets are not reclassified subsequently to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

(a) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

Notes to the Consolidated Financial Statements

(b) Fair value through other comprehensive income (FVTOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income.

Dividend income is recognized in profit or loss on the date on which the Group's right to receive payment is established.

(c) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVTOCI described as above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVTOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

(d) Assess whether the contractual cash flow is entirely for the payment of the principal and interest on the outstanding principal amount

For the purposes of this assessment, principal is defined as the fair value of the financial assets on initial recognition. Interest is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;

Notes to the Consolidated Financial Statements

- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

(e) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, financial assets measured at amortized costs, notes and accounts receivable, guarantee deposits and other financial assets) and contract assets.

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured by 12-month ECL:

- · debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for accounts receivable and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward-looking information.

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade which is considered to be BBB or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings'.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 180 days past due or the debtor is unlikely to pay its credit obligations to the Group in full.

Lifetime ECL are the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12-month after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

Notes to the Consolidated Financial Statements

ECLs are probability-weighted estimate of credit losses over the expected life of financial assets. Credit losses are measured as the present value of all cash shortfalls, i.e the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive. ECL are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. An evidence that a financial asset is credit-impaired includes the following observable data:

- · significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization;
 or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of assets.

The gross carrying amount of a financial asset is written off either partially or in full to the extent that there is no realistic prospect of recovery. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amount due.

(f) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Notes to the Consolidated Financial Statements

B. Financial liabilities and equity instruments

(a) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual agreements and the definitions of a financial liability and an equity instrument.

(b) Equity instruments

An equity instrument is any contract that evidences the residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued is recognized as the amount of consideration received, less the direct cost of issuing.

(c) Treasury shares

When shares recognized as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs, is recognized as a deduction from equity. Repurchased shares are classified as treasury shares. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is recognized in capital surplus or retained earnings (if the capital surplus is not sufficient to be written down).

(d) Compound financial instruments

Compound financial instruments issued by the Group comprise convertible bonds denominated in NTD that can be converted to ordinary shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of compound financial instruments is initially recognized at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognized at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

(e) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

Notes to the Consolidated Financial Statements

(f) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

(g) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to offset the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

C. Derivative financial instruments

The Group holds derivative financial instruments to hedge its foreign currency and interest rate exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

Derivatives are initially measured at fair value. Subsequent to the initial recognition, derivatives are measured at fair value, and changes therein are generally recognized in profit or loss.

(8) Inventories

Inventories are measured at the lower of cost or net realizable value. The cost of inventories is based on the weighted average cost method and includes expenditure incurred in acquiring the inventories, production or conversion cost, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses necessary to make the sale.

(9) Investment in associates

Associates are those entities in which the Group has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition, less any accumulated impairment losses.

Notes to the Consolidated Financial Statements

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of those associates, after adjustments to align their accounting policies with those of the Group, from the date on which significant influence commences until the date on which significant influence ceases. The Group recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual significant influence.

Gains and losses resulting from transactions between the Group and an associate are recognized only to the extent of unrelated Group's interests in the associate.

When the Group's share of losses of an associate equals or exceeds its interests in an associate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

When the Group subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Group's proportionate interest in the net assets of the associate. The Group records such a difference as an adjustment to investments, with the corresponding amount charged or credited to capital surplus. The aforesaid adjustment should first be adjusted under additional paid in capital. If the additional paid in capital resulting from changes in ownership interest is not sufficient, the remaining difference is debited to retained earnings. If the Group's ownership interest is reduced due to the additional subscription to the shares of the associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate will be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

The Group discontinues the use of the equity method and measures the retained interest at fair value from the date when its investment ceases to be an associate. The difference between the fair value of retained interest and proceeds from disposing, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Group accounts for all the amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the associates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss (or retained earnings) on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) (or retained earnings) when the equity method is discontinued. If the Group's ownership interest in an associate is reduced while it continues to apply the equity method, the Group reclassifies the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest to profit or loss.

(10) Property, plant and equipment

A. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Notes to the Consolidated Financial Statements

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

B. Subsequent cost

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

C. Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

(a) Buildings and improvements: 2~60 years

(b) Machinery and equipment: 1~30 years

(c) Other equipment and leased assets: 1~40 years

(d) Buildings constitute mainly building, mechanical and electrical power equipment, and related engineering, wastewater treatment and sewage system, etc. Each such part is depreciated based on its useful life of 2 to 56 years, 4 to 35 years, and 6 to 30 years, respectively.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(11) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

A. As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

Notes to the Consolidated Financial Statements

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- (a) fixed payments, including in-substance fixed payments;
- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- (c) amounts expected to be payable under a residual value guarantee; and
- (d) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- (a) there is a change in future lease payments arising from the change in an index or rate; or
- (b) there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- (c) there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- (d) there is a change of its assessment on whether it will exercise an extension or termination option; or
- (e) there are any lease modifications

When the lease liability is remeasured, other than lease, modifications a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases with 12 months or less and leases of low-value assets, including other equipment. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Notes to the Consolidated Financial Statements

B. As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

If an arrangement contains lease and non-lease components, the Group applies IFRS15 to allocate the consideration in the contract.

(12) Intangible assets

A. Recognition and measurement

Goodwill arising on the acquisition of subsidiaries is measured at cost, less accumulated impairment losses.

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets, including patents and trademarks, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

B. Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

C. Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for the current and comparative years are as follows:

(a) goodwill, expertise and trademarks: 15 years

(b) development costs: 10 years

(c) software: 1~10 years

Notes to the Consolidated Financial Statements

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(13) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units ("CGUs"). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or a cash-generating unit ("CGU") is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or a CGU.

An impairment loss is recognized if the carrying amount of an asset or a CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU and then, to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized for the assets in prior years.

(14) Provisions

A provision is recognized if, as a result of a past event, the Group has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

A. Site restoration

In accordance with the Group's published environmental policy and applicable legal requirements, a provision for site restoration in respect of contaminated land and the related expense are recognized when the land is contaminated. A provision for site restoration of lease land and the related expense are recognized over the term of the lease.

Notes to the Consolidated Financial Statements

B. Onerous contracts

A provision for onerous contracts is recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract or the expected net cost of continuing with the contract. Before a provision is established, the Group recognizes any impairment loss on the assets associated with that contract.

(15) Revenue recognition

A. Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

(a) Sale of goods

The Group engages mainly in the research, development, production, design, and sales of semiconductor ingots and wafers, varistors, optoelectronics and communication wafer materials. The Group recognizes revenue when control of the products has been transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered, as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

(b) Product processing services

The Group provides processing of products and recognizes the relevant revenue during the financial reporting period of the labor service.

Revenue recognition for fixed price contracts is based on the ratio of services actually provided to total services as of the reporting date, which is determined by the percentage of labor performed to the total amount of labor to be performed.

If the situation changes, the estimates of revenue, cost, and degree of completion will be revised, and the increase or decrease in the period when the management is aware of the change in the situation will be reflected in profit or loss.

Under the fixed price contract, the customer pays a fixed amount in accordance with the agreed time schedule. When the services provided exceed the payment, the contract assets are recognized; if the payment exceeds the services provided, the contract liabilities are recognized.

Notes to the Consolidated Financial Statements

If the contract is valued based on the number of hours in which the service is provided, the revenue is recognized by the amount in which the Group has the right to open an invoice. The Group will ask for a monthly payment from the customer and will receive the consideration after opening the invoice.

The Group recognizes the accounts receivable when the goods are delivered, because the Group has the right to unconditionally collect the consideration at that time.

(c) Engineering contract

The Group is engaged in the contracting business of solar power plants. Since the assets are controlled by the customers at the time of construction, the revenue is gradually recognized over time based on the proportion of the engineering costs incurred to date to the estimated total contract costs. A fixed amount paid by the customer in accordance with the agreed time schedule. Certain changes in consideration are estimated using expectations from past experience; other changes are estimated at the most probable amount. The Group recognizes revenue only within the scope of the cumulative revenue level where it is highly probable that no significant reversal will occur. If the amount of revenue recognized has not been billed, it is recognized as a contract asset and the contract asset is transferred to the accounts receivable when there is an unconditional right to the consideration.

If the degree of completion of the performance obligation of the construction contract cannot be reasonably measured, the contract revenue is recognized only within the range of expected recoverable costs.

When the Group expects that the inevitable cost of performance of an engineering contract exceeds the economic benefit expected from the contract, the liability provision for the loss-making contract is recognized.

If the circumstances change, the estimates of revenue, cost and completion will be revised and the changes will be reflected in gain or loss when the management is informed of the change in circumstances and the amendment is made.

(d) Services

The Group provides services to its customers. Revenue from services rendered is recognized in profit or loss in proportion to the stage of completion of the transaction at the reporting date.

Revenue recognition for fixed price contracts is based on the ratio of services actually provided to total services as of the reporting date, which is determined by the percentage of labor performed to the total amount of labor to be performed.

If the situation changes, the estimates of revenue, cost, and degree of completion will be revised, and the increase or decrease in the period when the management is aware of the change in the situation will be reflected in profit or loss.

(e) Electric power revenue

The Group recognized its electric power revenue based on the actual electric units and electric rate.

Notes to the Consolidated Financial Statements

B. Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(16) Government grants

Grants that compensate the Group for expenses or losses incurred are recognized in profit or loss on a systematic basis in the periods in which the expenses or losses are recognized.

(17) Employee Benefits

A. Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

B. Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

C. Short-term employee benefits

Short-term employee benefit are expensed as the related service is provided.

Notes to the Consolidated Financial Statements

A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(18) Share-based payment

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period that the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the share appreciation rights. Any changes in the liability are recognized in profit or loss. Grant date of a share-based payment award is the date when the company and employees reach a consensus.

(19) Income tax

Income taxes comprise current taxes and deferred taxes. Except for items related to business combinations, or items recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

The Group has determined that interest and penalties related to income taxes, including uncertain tax treatment, do not meet the definition of income taxes, and therefore accounted for them under IAS37.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are not recognized except for:

- A. temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;
- B. temporary differences related to investments in subsidiaries and associates to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- C. taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Notes to the Consolidated Financial Statements

Deferred tax assets and liabilities are offset if the following criteria are met:

- A. the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
- B. the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - (a) the same taxable entity; or
 - (b) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(20) Business combination

The Company accounts for business combinations using the acquisition method. The goodwill arising from an acquisition is measured as the excess of (i) the consideration transferred (which is generally measured at fair value) and (ii) the amount of non-controlling interest in the acquiree, both over the identifiable net assets acquired at the acquisition date. If the amount calculated above is a deficit balance, the Company recognized that amount as a gain on a bargain purchase in profit or loss immediately after reassessing whether it has correctly identified all of the assets acquired and all of the liabilities assumed.

For each business combination, the Group measures any non-controlling interests in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets, if the non-controlling interests are present ownership interests and entitle their holders to a proportionate share of the acquire's net assets in the event of liquidation. Other components of non-controlling interests are measured at their acquisition-date fair values, unless another measurement basis is required by the IFRSs endorsed by the FSC.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, provisional amounts for the items for which the accounting is incomplete are reported in the Group's financial statements. During the measurement period, the provisional amounts recognized at the acquisition date are retrospectively adjusted, or additional assets or liabilities are recognized to reflect new information obtained about facts and circumstances that existed as of the acquisition date. The measurement period will not exceed one year from the acquisition date.

Notes to the Consolidated Financial Statements

(21) Earnings per share

The Group discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as employee remuneration that could be settled in the form of stock. The Company's potential diluted ordinary share includes non-vested shares of restricted employee right and employee remuneration that has not been resolved by the Board of Directors and has been issued in the form of shares.

(22) Operating segment

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

5. Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

In preparing these consolidated financial statements, the management has made judgments, estimations and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in the accounting estimates during the period and the impact of those changes in the following period.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is as follows:

Advanced Wireless' Board of Directors was fully re-elected on June 20, 2022, and the Group obtained the majority of the directors' seats. The Group is the single largest shareholder of the investee, and the remaining voting rights in the investee are widely dispersed. Considering the Group's power over the investee, exposure or rights to variable returns, and the ability to use its power over Advanced Wireless to affect the amount of the investee's remuneration, the Group obtained control over Advanced Wireless.

The Group holds 30.09% of the voting shares of Taiwan Speciality Chemicals and is the single largest shareholder. The Group used the equity method to account for the investee. The second largest shareholder of Taiwan Speciality Chemicals liquidated, and distributed Taiwan Speciality Chemicals shares in the third quarter of 2021, resulting in a change in the shareholder structure of Taiwan Speciality Chemicals. Taiwan Speciality Chemicals's Board of Directors was fully re-elected in the third quarter of 2021, and the Group obtained the majority of the directors' seats. The Group is the single largest shareholder of the investee, and the remaining voting rights in the investee are widely dispersed. Considering the Group's power over the investee, exposure or rights to variable returns, and the ability to use its power over Taiwan Speciality Chemicals to affect the amount of the investee's remuneration, the Group obtained control over Taiwan Speciality Chemicals.

Notes to the Consolidated Financial Statements

The Group holds 31.61% of the voting shares of Crystalwise Technology Inc.("Crystalwise"). The remaining specific shareholders still hold significant voting shares, and it is impossible to exclude the possibility of a joint exercise of rights. The Group and other shareholders' size and percentage of voting rights show that the Group has no controlling power and does not have more than half of the broad seats. There were no potential voting rights or other contractual arrangements. The Group evaluated that relevant activities of Crystalwise are not determined based on the votes of the significant voting right shareholders. Rather, it is based on the majority of the members of the Board of Directors. Therefore, the investors who have significant voting rights can not control the relevant activities of Crystalwise. The Group had received a variable return from the investee due to holding the ordinary share of Crystalwise. The source of return is dividends. The Group evaluated that it does not have the ability to influence Crystalwise's return due to the lack of the power to control it. The Group concluded that it has no substantive power to decide the relevant activities from the beginning. Therefore, the Group determined that it has significant influence but not control over Crystalwise.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is as follows. Those assumptions and estimation have been updated to reflect the impact of COVID-19 pandemic:

(1) Impairment assessment of property, plant and equipment (including right-to-use assets)

In the process of evaluating the potential impairment of tangible and intangible assets other than goodwill, the Group is required to make subjective judgments in determining the independent cash flows, useful lives, expected future income and expenses related to the specific asset groups considering of the nature of the industry. Any changes in these estimates based on changed economic conditions or business strategies and could result in significant impairment charges or reversal in future years.

(2) Impairment assessment of goodwill

The assessment of impairment of goodwill requires the Group to make subjective judgments to identify CGUs, allocate the goodwill to relevant CGUs, and estimate the recoverable amount of relevant CGUs. Refer to note 6(12) for details of the impairment of goodwill.

The Group's finance and accounting departments conduct independent verification on fair value by using data sources that are independent, reliable, and representative of exercise prices. This finance and accounting departments also periodically adjust valuation models, conduct back testing, renew input data for valuation models, and make all other necessary fair value adjustments to assure the rationality of fair value.

The Group strives to use the observable market inputs when measuring assets and liabilities. The hierarchy of the fair value categorized by the valuation techniques used is as follows:

- Level 1: quoted prices (unadjusted) in active markets for identified assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Notes to the Consolidated Financial Statements

For any transfer within the fair value hierarchy, the Group recognizes the transfer on the reporting date. For the assumption used in fair value measurement, please refer to note 6(28) of the financial instruments.

6. Explanation of significant accounts:

(1) Cash and cash equivalents

		ecember 31, 2022	December 31, 2021
Cash on hand	\$	12,118	5,413
Demand deposits		45,695,674	19,076,331
Time deposits		37,447,741	46,829,936
Repurchase agreement		92,321	1,206,226
Cash and cash equivalents in the consolidated statement of cash flows	<u>\$</u>	83,247,854	67,117,906

As of December 31, 2022, the Group considered liquidity and reclassified time deposits to other financial assets—current, amounting to \$5,194,689 thousand.

Please refer to note 6(28) for the interest rate risk and sensitivity analysis of the financial assets and liabilities of the Group.

(2) Financial Assets and Liabilities at Fair Value through Profit or Loss ("FVTPL")

	De	cember 31, 2022	December 31, 2021
Financial assets mandatorily measured at fair value through profit or loss—current:			
Forward exchange contracts	\$	32,415	3,567
Financial assets mandatorily measured at fair value through profit or loss—non-current:			
Overseas securities held	\$	9,145,927	18,173,549
Privately offered funds		185,793	195,163
	\$	9,331,720	18,368,712
	De	cember 31, 2022	December 31, 2021
Held-for-trading financial liabilities:	De	,	•
Held-for-trading financial liabilities: Forward exchange contracts	De \$,	•
		,	2021
Forward exchange contracts		2022	2021
Forward exchange contracts		- 1,219	198,631

The amount of gains or losses recognized for the financial assets at fair value through profit or loss of the Group; please refer to note 6(26).

During the years ended December 31, 2022 and 2021, the dividends of \$391,591 thousand and \$276,229 thousand were incurred from investments in financial assets mandatorily measured at fair value through profit or loss, respectively.

The Group uses derivative instruments to hedge certain currency risk arising from the Group's operating activities. The Group held the following derivative instruments, which were not qualified for hedging accounting and accounted them as financial assets mandatorily measured at fair value through profit or loss and held-for-trading financial liabilities as of December 31, 2022 and 2021:

			December 31, 202	22
		ract amount housands)	Currency	Maturity date
Forward exchange contracts:				
Forward exchange contracts sold	USD	33,500	USD to EUR	January 27, 2 March 29, 2023
Swap exchange contract:				
Currency exchange	EUR	3,500	EUR to USD	January 3, January 10, 2023
			December 31, 202	21
		ract amount		
	(in t	chousands)	Currency	Maturity date
Forward exchange contracts:				
Forward exchange contracts purchased	EUR	1,300	EUR to USD	January 26, 2022
Forward exchange contracts purchased	EUR	1,300	EUR to USD	January 6, 2022
Forward exchange contracts sold	USD	29,550	USD to EUR	January 26, 2 March 25, 2022
Forward exchange contracts sold	USD	1,930	USD to KRW	January 28, 2022
Forward exchange contracts purchased	JPY	50,000	JPY to EUR	February 25, 2022
Forward exchange contracts purchased	JPY	208,426	JPY to KRW	January 28, 2022
Forward exchange contracts purchased	EUR	5	EUR to KRW	January 28, 2022
Forward exchange contracts purchased	JPY	14,000,000	JPY to NTD	January 28, 7 May 26, 2022

For the disclosure of market risk, please refer to note 6(28).

The financial assets mentioned above were not pledged as collateral.

Notes to the Consolidated Financial Statements

(3) Financial assets at fair value through other comprehensive income — non-current

	De	cember 31, 2022	December 31, 2021
Equity investments at fair value through other comprehensive income:			
Equity investment in foreign entities	\$	1,115,001	1,066,068
Equity investment in domestic entities		329,844	224,763
Total	\$	1,444,845	1,290,831

The Group designated the equity investments shown above as at fair value through other comprehensive income because these equity securities represent those investments that the Group intends to hold for long-term strategic purposes.

During the years ended December 31, 2022 and 2021, the dividends of \$15,797 thousand and 10,003 thousand were incurred from investments in financial assets at fair value through other comprehensive income—non-current, respectively.

No strategic investments were disposed for the years ended December 31, 2022 and 2021, and there were no transfers of any cumulative gain or loss within equity relating to these investments.

For the disclosure of market risk, please refer to note 6(28).

The financial assets mentioned above were not pledged as collateral.

(4) Financial assets measured at amortized cost—current

	Dec	ember 31,	December 31,	
		2022	2021	
Corporate bonds — Crystalwise Technology Inc.	\$	331,609	331,609	

The Group has assessed that these financial assets are held to maturity to collect contractual cash flows, which consist solely of payments of principal and interest on the principal amount outstanding. Therefore, these investments were classified as financial assets measured at amortized cost.

In October 2021, the Group purchased the private corporate bonds of Crystalwise Technology Inc. for a one-year period at a principal amount of \$330,000 thousand. The coupon rate and effective interest rate were both 2.00%, and the bond is due in October 2022. On September 22, 2022, the Board of Directors resolved to extend the private issued corporate bonds for 6 months. The bond matures on March 31, 2023, and the capital and interest repayments will be made in full.

For the years ended December 31, 2022 and 2021, the Group has estimated gain on reversal of impairment loss amounting to nil thousand and \$3,454 thousand, respectively.

For the disclosure of credit risk, please refer to note 6(28).

The financial assets mentioned above were not pledged as collateral.

Notes to the Consolidated Financial Statements

(5) Notes and accounts receivable, net

	De	ecember 31, 2022	December 31, 2021
Notes receivable	\$	164,872	142,478
Accounts receivable		11,113,490	9,689,197
Less: Allowance for doubtful accounts		(23,317)	(11,275)
	\$	11,255,045	9,820,400

The Group applied the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, accounts receivable have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information.

The loss allowance provision of notes and accounts receivable (including related parties) from solar energy segment was determined as follows:

	December 31, 2022				
	note	oss amount of s and accounts receivable	Weighted-average loss rate	Credit loss allowance	
Current	\$	905,528	0%	-	
1 to 30 days past due		114,199	0%	-	
More than 181 days past due		4,197	100%	4,197	
Total	\$	1,023,924	=	4,197	

			December 31, 2021	
	notes	s amount of and accounts eceivable	Weighted-average loss rate	Credit loss allowance
Current	\$	752,844	0%	-
1 to 30 days past due		28,507	0%	-
91 to 120 days past due		4,507	100%	4,507
Total	\$	785,858		4,507

Notes to the Consolidated Financial Statements

The loss allowance provision of notes and accounts receivable (including related parties) from semiconductor segment was determined as follows:

	December 31, 2022					
		Gross amount of otes and accounts receivable	Weighted-average loss rate	Credit loss allowance		
Current	\$	10,055,281	0%	-		
1 to 30 days past due		226,020	0%	-

(9) Business combination

A. Acquiring Advanced Wireless as a subsidiary

(a) Considerations transferred to acquire a subsidiary

The Group had acquired total of 27.14% of the common shares of Advanced Wireless and is the single largest shareholder of the investee. Advanced Wireless' Board of Directors was fully re-elected on June 20, 2022, and the Group obtained the majority of the directors' seats. The Group is the single largest shareholder of the investee, and the remaining voting rights in the investee are widely dispersed. Considering the Group's power over the investee, exposure or rights to variable returns, and the ability to use its power over the entity to affect the amount of the investee's remuneration, the Group obtained the control over the investee and included it in the consolidated financial statements from the date of obtaining control.

Notes to the Consolidated Financial Statements

(b) The details of identifiable net assets obtained and the fair value of assets and liabilities assumed are as follows:

The details of the identifiable assets and liabilities assumed of Advanced Wireless on June 20, 2022 (the date when control was obtained) are as follows:

Considerations transferred		\$	-
Add: The fair value of the original equity of the acquiree	;		3,881,588
Non-controlling interests (measured by the ratio of identifiable net assets to non-controlling interests)			8,959,385
Less: The fair value of identifiable net assets			
Cash and cash equivalents	\$	2,508,530	
Notes and accounts receivable, net		277,369	
Financial assets at fair value through profit or loss		33,413	
Inventories		492,875	
Prepayment		203,590	
Other current assets and other financial assets		17,714	
Property, plant and equipment, net		5,365,441	
Intangible assets — patent right		717,900	
Intangible assets - knowledge technology		742,200	
Intangible assets—customer relationships		2,243,400	
Intangible assets		15,596	
Right-of use assets		91,290	
Prepayment of equipment		175,253	
Other non-current assets and other financial assts – non-current		11,341	
Accounts payable		(140,988)	
Contract liabilities — current		(59,255)	
Other payables		(283,388)	
Other current liabilities		(14,779)	
Other non-current liabilities		(99,970)	12,297,532
Goodwill		<u>\$</u>	543,441

The Group recognized a gain or loss on disposal of \$23,282 thousand for remeasuring the fair value of 27.14% interest in Advanced Wireless held prior to the acquisition date, which was recorded as other gains and losses (note 6(26)).

Notes to the Consolidated Financial Statements

The Group will continue to monitor the above items during the measurement period. If, within one year from the date of acquisition, new information related to the facts and circumstances that existed on the date of acquisition is obtained, and adjustments to the above-mentioned provisional amount or any additional provision for liabilities at the date of acquisition can be identified, the accounting treatment of acquisition will be revised.

(c) Intangible assets

Intangible assets-patent rights, knowledge technology and customer relationships are amortized on the straight-line method based on its economic benefit life of 8.5, 11.5 and 16.5 years, respectively.

Goodwill mainly comes from profitability, future market development and employee value of Advanced Wireless. Goodwill is expected to have no income tax effect.

(d) Pro forma of operating results

Since June 20, 2022, the operating results of Advanced Wireless have been merged into the consolidated comprehensive income statement of the Group. The net operating revenues and net profit after tax contributed are \$1,032,683 thousand and \$(206,885) thousand, respectively. If it is assumed that the acquisition date occurred on January 1, 2022, the proforma net operating revenues and net profit after tax of the Group from January 1 to December 31, 2022 will increase by \$2,163,752 thousand and \$(139,741) thousand, respectively.

(e) Change in ownership interest in subsidiaries did not result in loss of control

In July 2022, the Group acquired additional shares of Advanced Wireless for a consideration of \$66,839 thousand, which increased the Group's equity in Advanced Wireless to 27.62%. Please refer to Note 4(3) for the changes in the related shareholding ratio.

The effect of the change in the Group's ownership interest in the subsidiary on the equity attributable to the parent company was capital surplus-the difference between the actual acquisition or disposal price of the subsidiary's shares and the book value of \$9,899 thousand.

B. Acquiring Taiwan Speciality Chemicals as a subsidiary

(a) Considerations transferred to acquire a subsidiary

The Group had acquired a total of 30.93% of the common shares of Taiwan Speciality Chemicals as of August 2021. The Group obtained majority of the Board seats of Taiwan Speciality Chemicals in August 2021 and thus obtained the control over the company which was included in the consolidated financial statements from the date of obtaining control.

Notes to the Consolidated Financial Statements

(b) The details of identifiable net assets obtained and the fair value of assets and liabilities assumed are as follows:

The details of the identifiable assets and liabilities assumed of Taiwan Speciality Chemicals on August 25, 2021 (the date when control was obtained) are as follows:

Considerations transferred		\$	-
Add: The fair value of the original equity of the acquired	;		810,000
Non-controlling interests (measured by the ratio of identifiable net assets to non-controlling interests)			1,407,638
Less: The fair value of identifiable net assets			
Cash and cash equivalents	\$	58,787	
Notes and accounts receivable, net		119,441	
Inventories		101,052	
Prepayment and other current assets		10,320	
Property, plant and equipment, net		1,445,587	
Intangible assets — patent right		495,000	
Other non-current assets		3,260	
Accounts payable		(8,111)	
Other current liabilities		(37,025)	
Other non-current liabilities		(322)	
Long-term borrowings		(150,000)	2,037,989
Goodwill		<u>\$</u>	179,649

(c) Intangible assets

Intangible assets-patent rights is amortized on the straight-line method based on its economic benefit life of 11 years.

Goodwill mainly comes from profitability, the combined synergy of Taiwan Speciality Chemicals, and the future development of the semiconductor specialty gas market. Goodwill is expected to have no income tax effect.

(d) Pro forma of operating results

Since August 25, 2021, the operating results of Taiwan Speciality Chemicals have been merged into the consolidated comprehensive income statement of the Group. The net operating revenues and net profit after tax contributed are \$127,916 thousand and \$33,821 thousand, respectively. If it is assumed that the acquisition date occurred on January 1, 2021, the pro forma net operating revenues and net profit after tax of the Group from January 1 to December 31, 2021 will increase by \$419,625 thousand and \$140,405 thousand, respectively.

Notes to the Consolidated Financial Statements

(e) Change in ownership interest in subsidiaries did not result in loss of control

In September 2022, the Group sold part of its shares of Taiwan Speciality Chemicals for \$93,160 thousand due to the need to release the shares. Please refer to note 4(3) for the changes in the related shareholding ratio.

The effect of the change in the Group's ownership interest in the subsidiary on the equity attributable to the parent company was capital surplus-the difference between the actual acquisition or disposal price of the subsidiary's shares and the book value of (\$75,489) thousand.

Notes to the Consolidated Financial Statements

For the purpose of impairment testing, goodwill was allocated to the semiconductor business segment and solar energy segment. The Group's goodwill has been tested for impairment at least once at the end of each annual reporting period and the recoverable amount is determined based on discounted cash flows.

The recoverable amount of the Semiconductor Segment and Solar Energy Segment was based on its value in use, determined by discounting the future cash flows to be generated from the continuing use of the CGU.

	December 31, 2022	December 31, 2021	
Discount rate	11.48%~12.01%	4.97%~13%	
Budgeted EBITDA growth rate	2.18%	2%~2.46%	

The discount rate was a pre-tax measure based on the rate of 10-year government bonds issued by the government in the relevant market and in the same currency as the cash flows, adjusted for a risk premium to reflect both the increased risk of investing in equities generally and the systemic risk of the specific CGU.

Five years of cash flows were included in the discounted cash flow model.

The intangible assets mentioned above were not pledged as collateral.

(13) Other assets—current and non-current

	De	cember 31, 2022	December 31, 2021	
Prepayment of materials	\$	1,166,814	1,722,721

	December 31,		December 31,
		2022	2021
Unsecured corporate bonds	\$	18,986,110	18,980,771
Unsecured convertible bonds		23,793,835	26,143,969
Total	<u>\$</u>	42,779,945	45,124,740

- A. On April 21, 2021, GlobalWafers' Board of Directors resolved to issue unsecured common bonds for the first time in 2021. On May 11, 2021, Taipei Fubon Commercial Bank, was entrusted to issue the bonds. The bonds were issued for a term of five years and matured on May 11, 2026. The total amount of the bond is \$6,500,000 thousand and the coupon rate is 0.62% •
- B. On April 21, 2021, the Board of Directors resolved to issue the second unsecured corporate bonds for the year 2021, which were entrusted to Taipei Fubon Commercial Bank on August 19, 2021. The total amount of the bonds is \$12,500,000 thousand, which were divided into two types of notes, A and B, depending on the terms of issuance, amounting to \$7,100,000 thousand and \$5,400,000 thousand, respectively, with maturities of three years and five years, and maturing on August 19, 2024, and August 19, 2026, respectively, with coupon rates of 0.5% and 0.6%, respectively.

Notes to the Consolidated Financial Statements

C. On April 21, 2021, GlobalWafers' Board of Directors resolved to issue the first overseas unsecured convertible bonds, which were approved by the FSC in letter No. 1100342091 dated May 19, 2021. On June 1, 2021, the bonds were issued on the Singapore Stock Exchange for a period of five years and matured on June 1, 2021. The maturity date is June 1, 2026, and the total amount of the issue is US\$1,000,000 thousand with 0% interest rate.

The details of unsecured convertible bonds were as follow:

		December 31, 2022	December 31, 2021
Total amount of convertible bonds issued	\$	24,787,249	27,565,891
Unamortized balance of discount on bonds payable		(993,414)	(1,421,922)
Accumulated Converted Amount			
Balance at December 31, 2022 and 2021	\$	23,793,835	26,143,969
Embedded derivatives - redemption rights and conversion rights (reported as financial liabilities at			
fair value through profit or loss - non-current)	<u>\$</u>	466,831	<u>178,637</u>
Issue Price (less transaction costs 77,517 thousand)	\$	25,020,953	27,834,483
Equity components (less transaction costs allocated to equity 4,744 thousand)		(1,531,760)	(1,703,470)
Sell / Redeem Derivatives (allocated transaction costs 473 thousand)	_	(152,629)	(169,791)
Liability components at issue date (less transaction costs allocated to liability 72,300 thousand)		23,336,564	25,961,222
Interest calculated at an effective rate of 1.20%		457,271	182,747
Liability components as of December 31, 2022 and 2021	<u>\$</u>	23,793,835	26,143,969

Except for early redemptions, repurchases and cancellations, exercise of conversion rights by the bondholders, statutory requirements and the cessation of transfer period as otherwise provided in the Trust Deed, from the day following the three months after the issuance of the bonds to (1) ten days before the maturity date or (2) the fifth business day prior to the date of early redemption of the bonds (hereinafter referred to as the "conversion period"), the bondholders may request the issuing company to convert the bonds into shares of common stock newly issued by the issuing company in accordance with the provisions of the relevant laws and the Trust Deed.

Notes to the Consolidated Financial Statements

The conversion price was 140% of the closing price of GlobalWafers' common shares on the Taipei Exchange on the pricing date, which was \$1,040.20. The number of common shares to be delivered upon conversion of any bond will be determined by the principal amount of the bondsmultiplied by the fixed exchange rate, which is NT\$27.912 to US\$1, which was determined on the pricing date and divided by the conversion price in effect on the date of conversion. After the issuance of the bonds, the conversion price shall be adjusted in accordance with the relevant antidilution provisions of the contract. However, due to the distribution of cash dividends by GlobalWafers, the conversion prices of the bonds have been adjusted from NT\$1,040.20 to NT\$1,028.46, NT\$1,028.46 to NT\$1,018.54, and NT\$1,018.54 to NT\$1,003.09 on July 22, 2021, January 13, 2022, and July 19, 2022, respectively, the days after the ex-dividend base dates, in accordance with the aforementioned provisions. As of December 31, 2022, the adjustment to the conversion price of the bonds had been executed three times.

The above-mentioned convertible bonds included liabilities and equity components. The equity component was recognized as the capital surplus. The effective interest rate originally recognized for the liability component was 1.2%.

GlobalWafers redeemed the first unsecure oversea convertible bonds of US\$100,800 thousand in 2022, resulting in the invalid conversion right of \$171,710 thousand to be reclassified from capital surplus—share options to capital surplus — others. As of December 31, 2022, the balance of the Group's first unsecured oversea convertible bounds amounted to US\$899,200 thousand.

(17) Lease liabilities

The carrying amounts of lease liabilities of the Group were as follows:

	Dec	ember 31, 2022	December 31, 2021	
Current (recognized under other current liabilities)	\$	119,228	171,043	
Non-current (recognized under other non-current				
liabilities)	\$	705,800	681,623	

For the maturity analysis, please refer to note 6(28) "Financial instruments".

The amounts recognized in profit or loss were as follows:

		2022	2021	
Interest on lease liabilities	\$	10,219	11,277	
Variable lease payments not included in the measurement of lease liabilities	<u>\$</u>	3,962	1,860	
Expenses relating to short-term leases	\$	25,580	18,524	
Expenses relating to leases of low value assets, excluding short term leases of low value assets	<u>\$</u>	9,937	5,769	

The amounts recognized in the statement of cash flows were as follows:

	·	2022	2021
Total cash outflow for leases	<u>\$</u>	233,670	229,691

Notes to the Consolidated Financial Statements

A. Land and Buildings lease

The Group leases land and buildings for its facility and office space. The leases of office space typically run for a period of 20 years. Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

Land leases' additional rent payments that are based on changes in local price indices and the public facilities construction costs re invested annually in each park will be adjusted after being assessed.

B. Other leases

The Group leases vehicles and other equipment, with lease terms of two to five years. In some cases, the Group has options to purchase the assets at the end of the contract term; in other cases, it guarantees the residual value of the leased assets at the end of the contract term.

(18) Provisions

The movements of the Group's provisions current and non-current were as follows:

		Site	Onerous

Non-current		43,006	3,562,766	8,918	3,614,690
Total	\$	68,325	3,900,040	9,936	3,978,301

Notes to the Consolidated Financial Statements

A. Site restoration

Under the lease contract, if the Group does not intend to extend its leasehold, the Group needs to restore the plants. The Group estimates the provision based on the lease terms and in accordance with the Group's published environmental policy and applicable legal requirements. A provision for site restoration is made in respect of environmental cleanup costs.

B. Onerous contract

The Group entered into several non-cancellable long-term material supply agreements with the suppliers of silicon materials. The Group agrees to purchase the required quantity of raw materials on schedule based on the contractual price during the commitment periods and makes a non-refundable prepayment to the suppliers. The suppliers need to deliver the required quantity of raw materials to the Group according to the contract. Provisions for the onerous contracts were made based on contractual terms and subsequently reversed the relevant gains and losses according to the performance of the contract, and were recognized as operating costs. For the related agreement, please refer to note 9.

(19) Employee benefits

A. Defined benefit plans

Reconciliation of defined benefit obligation at present value and plan asset at fair value was as follows:

	De	ecember 31, 2022	December 31, 2021
Present value of the defined benefit obligations	\$	(5,160,899)	(7,522,079)
Fair value of plan assets		3,621,840	5,684,647
Net defined benefit liability	<u>\$</u>	(1,539,059)	(1,837,432)
The details of the account are as follows:			
	De	ecember 31, 2022	December 31, 2021
Net defined benefit asset (included in other assets — non-current)	De	,	,
`		2022	,

The plans entitle a retired employee to receive a pension benefit based on years of service prior to retirement.

Notes to the Consolidated Financial Statements

(a) Movements in present value of the defined benefit obligations

The movements in present value of the defined benefit obligations of the Group for the years ended December 31, 2022 and 2021 were as follows:

	 2022	2021
Defined benefit obligations at January 1	\$ 7,522,079	8,155,583
Current service costs and interest cost	328,045	407,166
Remeasurements for defined benefit obligations		
 Actuarial gains and losses arising from experience 		
adjustments	58,480	211,141
-Actuarial gains and losses resulting from changes in		
demographic assumptions	(1,674)	(103,261)
- Actuarial gains and losses resulting from changes in		
financial assumptions	(667,540)	(79,688)
Benefits paid	(2,462,209)	(602,767)
Effects of changes in exchange rates	 383,718	(466,095)
Defined benefit obligations at December 31	\$ 5,160,899	7,522,079

(b) Movements in the fair value of the plan assets

The movements in the fair value of the defined benefit plan assets of the Group for the years ended December 31, 2022 and 2021 were as follows:

	 2022	2021
Fair value of plan assets at January 1	\$ 5,684,647	5,671,476
Interest income	46,312	82,972
Remeasurements for defined benefit obligations		
—Return on plan asset (excluding current interest)	(541,106)	250,160
Contributions made	378,709	443,142
Benefits paid	(2,380,129)	(503,081)
Effect of changes in exchange rates	 433,407	(260,022)
Fair value of plan assets at December 31	\$ 3,621,840	5,684,647

The Group allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks. The Group's Bank of Taiwan labor pension reserve account balance amounted to \$420,685 thousand as of December 31, 2022. For information on the utilization of the labor pension fund assets, including the assets allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

Notes to the Consolidated Financial Statements

Under the employee defined benefit plans of the Group's subsidiary in Korea, the plan assets comprised of time deposits bearing annual interest rates ranging from 1.74%~2.20%.

In Italy, the Group's subsidiary contributes an amount to the National Social Security Pension Fund (INPS) for the employee defined benefit plan.

Under the employee defined benefit plans of the entities located in the United States, plan assets are comprised of trust funds with different grades of risks and returns. Plan asset portfolio consists of a variety of financial instruments including cash, equity securities, and income funds.

(c) Changes in the effect of the asset ceiling

As of December 31, 2022 and 2021, there was no effect of the asset ceiling.

(d) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Group for the years ended December 31, 2022 and 2021, were as follows:

		2021	
Current service costs	\$	276,088	312,583
Net interest of defined benefit obligation		5,645	11,611
	<u>\$</u>	281,733	324,194
Operating Costs	\$	252,958	295,501
Selling expenses		11,846	9,841
Administrative expenses		9,102	10,442
Research and development expenses		7,827	8,410
	<u>\$</u>	281,733	324,194

(e) Actuarial assumptions

The Group's principal actuarial assumptions at the reporting date were as follows:

	December 31,	December 31,
	2022	2021
Discount rate	0.66%~5.01%	0.28%~3.29%
Future salary increase rate	2.29%~5.65%	1.6%~5.7%

The estimated amount of contribution to be made by the Group to the defined benefit plans for the one-year period after the reporting date is \$178,401 thousand.

The weighted average duration of the defined benefits obligation are 1 years to 11 years.

Notes to the Consolidated Financial Statements

(f) Sensitivity analysis

The following table summarizes the impact of a change in the assumptions on the present value of the defined benefit obligation as of December 31, 2022 and 2021:

	Impact on defined benefit obligations						
Actuarial assumptions	Increased by 0.25%		•		Decreased by 0.25%		
December 31, 2022	- '	_	_				
Discount rate	<u>\$</u>	(94,770)	99,335				
Future salary increase rate	<u>\$</u>	45,415	(42,640)				
December 31, 2021							
Discount rate	<u>\$</u>	(139,237)	146,563				
Future salary increase rate	\$	55,813	(51,853)				

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, assuming other assumptions remain constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in previous periods. There was no change in the method and assumptions used in the preparation of sensitivity analysis for 2022 and 2021.

There was no change in the method and assumptions used in the preparation of the sensitivity analysis for 2022 and 2021.

B. Defined contribution plans

The Group contributes at the rate of 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under this defined contribution plan, the Group's contribution to the Bureau of Labor Insurance requires no additional legal or constructive obligations thereafter.

The Company's domestic subsidiaries' pension costs incurred from contributions to the defined contribution plan were \$133,458 thousand and \$109,066 thousand for the years ended December 31, 2022 and 2021, respectively. Such contributions were made to the Bureau of the Labor Insurance.

The total periodic pension costs of other subsidiaries were recognized as current expenses in accordance with the local regulations of their respective jurisdictions where they are domiciled. The Group recognized the pension costs of \$268,006 thousand and \$251,670 thousand for its overseas subsidiaries in the years of 2022 and 2021, respectively.

Notes to the Consolidated Financial Statements

(20) Income tax

A. Income tax expense

The components of income tax expenses in 2022 and 2021 were as follows:

		2022	2021
Current tax expense	\$	5,463,153	3,252,998
Deferred tax expense		(784,004)	1,337,339
Income tax rate change		(10,940)	
Income tax expense	<u>\$</u>	4,668,209	4,590,337

The amounts of income tax (benefit) recognized in other comprehensive income in 2022 and 2021 were as follows:

	2022	2021
Items that will not be reclassified subsequently to profit or	_	_
loss:		
Remeasurement from defined benefit obligations	\$ 11,797	34,694
Unrealized gains (losses) from investments in equity instruments measured at fair value through other		
comprehensive income	 (89,222)	73,958
	\$ (77,425)	108,652
Items that may be reclassified subsequently to profit or loss:		
Exchange differences on translation of foreign financial		
statements	\$ 63,730	(1,232,023)

Reconciliations of income tax and income before income tax for 2022 and 2021 are as follows:

	-	2022	2021
Income before income tax	\$	20,828,706	17,205,727
Income tax using the Company's domestic tax rate		4,165,741	3,441,145
Effect of tax rates in foreign jurisdiction		(677,902)	417,117
Shares of profit of foreign subsidiaries accounted for using equity method		(504,408)	1,558,500
Tax effect of permanent differences		2,963,029	234,744
Investment tax credits		(716,829)	(363,578)
Changes in unrecognized temporary differences and others		(561,422)	(697,591)
	\$	4,668,209	4,590,337

Notes to the Consolidated Financial Statements

B. Deferred tax assets and liabilities

(a) The deferred tax assets have not been recognized in respect of the following items:

	December 31, 2022	December 31, 2021
Tax effect of deductible temporary differences (including carryforward of unused tax losses)	\$ 3,053,406	2,742,892

The R.O.C. Income Tax Act allows net losses, as assessed by the tax authorities, to offset taxable income over a period of ten years for local tax reporting purposes. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilize the benefits therefrom.

As of December 31, 2022, the information of the Group's unused tax losses for which no deferred tax assets were recognized was as follows:

Year of loss	Unuse	d tax losses	Expiry date	
2013 (examined)	\$	9,728	2023	
2016 (examined)		45,362	2026	
2017 (examined)		1,390,372	2027	
2018 (examined)		1,478,768	2028	
2019 (examined)		192,758	2029	
2022 (assessed)		71,480	2032	
	\$	3,188,468		

As of December 31, 2022, the loss deduction for unrecognized deferred income tax assets of the Group's foreign subsidiaries amounted to \$1,648,545 thousand.

(b) Deferred tax liabilities have not been recognized with respect of the following items:

	December 31, 2022	December 31, 2021	
Aggregate amount of temporary differences related			
to investments in subsidiaries	\$ (3,963,207)	(2,151,112)	

The Group is able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries as at December 31, 2022 and 2021. Also, the management considers it is probable that the temporary differences will not reverse in the foreseeable future. Hence, such temporary differences were not recognized as deferred tax liabilities.

(c) Recognized deferred tax assets and liabilities

C. Assessment of tax filings

The Company's income tax returns for the years through 2020 have been examined and approved by the R.O.C. income tax authorities.

(21) Capital and other equity

As of December 31, 2022 and 2021, the authorized common stock of the Company amounted to \$8,000,000 thousand, which was divided into 800,000 thousand shares, with a par value of \$10 per share, of which \$200,000 thousand was reserved for employee stock options, convertible preferred stock, and convertible corporate bonds. The issued and outstanding shares of common stock both amounted to \$5,862,217 thousand.

The reconciliation of shares outstanding for the years ended December 31, 2022 and 2021 was as follows (in thousands of shares):

	Common stock		
	2022	2021	
Closing balance at December 31 (i.e. closing balance at			
beginning of January 1)	586,222	586,222	

A. Issuance of common stock

The Company increased capital in GDRs of \$610,000 thousand, and issued 61,000 thousand shares of common stock on the Luxembourg on September 9, 2010. The price issued per share was US\$2.9048. The total issuance amount is US\$177,193 thousand. The cash increase was approved by the Financial Supervisory Commission No. 0990041383. Letter on August 13, 2010. All shares issued were paid and registered on September 9, 2010. The net amount issued was US\$174,931 thousand after deducting the related agent cost US\$2,262 thousand, was equivalent to \$5,580,288 thousand on the day's closing exchange rates. The total premium amounting to \$4,958,757 thousand was recognized on capital surplus after deducting the related issuance cost of \$11,531 thousand.

Notes to the Consolidated Financial Statements

B. Capital surplus

The balances of capital surplus were as follows:

	December 31, 2022		December 31, 2021	
Additional paid in capital	\$	7,195,673	8,296,480	
Difference between the consideration and the carrying amount				
of subsidiaries' share acquired or disposed		1,447,251	1,822,532	
Capital surplus recognized under the equity method		7,561,496	7,543,801	
Treasury stock transactions		33,314	33,314	
Employee stock options		608,429	608,059	
	\$	16,846,163	18,304,186	

According to the R.O.C. Company Act Section 241, the legal reserve and capital surplus may be distributed as cash dividends or stock dividends to the shareholders in proportion to the number of shares held. Distribution of legal reserve and capital surplus, by way of cash dividends, should be approved by the Board of Directors in a meeting attended by two thirds of the total number of directors, with half of the directors' agreement; thereafter, be reported in the shareholders' meeting. The distribution of legal reserve and capital surplus through issuance of new shares shall be resolved during the shareholders' meeting.

The Company's resolutions to distribute cash dividends out of capital surplus for an amount of \$486,564 thousand (\$0.8300 per share) and \$614,243 thousand (\$1.0478 per share), respectively, were approved during the shareholders' meeting held on December 8, 2022 and May 5, 2022.

The Company's resolutions to distribute cash dividends out of capital surplus for an amount of \$1,989,226 thousand (\$3.3933 per share), were approved during the shareholders' meeting held on December 9, 2021.

Relevant information can be found on the Market Observation Post System website.

C. Legal reserve

According to the R.O.C. Company Act Section 241, the legal reserve and capital surplus may be distributed as cash dividends or stock dividends to the shareholders in proportion to the number of shares held. Distribution of legal reserve and capital surplus, by way of cash dividends, should be approved by the Board of Directors in a meeting attended by two thirds of the total number of directors, with half of the directors' agreement; thereafter, be reported in the shareholders' meeting. The distribution of legal reserve and capital surplus through issuance of new shares shall be resolved during the shareholders' meeting.

Notes to the Consolidated Financial Statements

D. Special reserve

When the Company adopted the International Financial Reporting Standards (IFRSs) approved by the FSC for the first time, the Company had chosen to apply IFRS 1 "First time Adoption of the IFRSs" exemptions. Retained earnings was increased by \$161,317 thousand due to the adjustment of accumulated translation adjustment under the shareholders' equity, which exceeded the net increase of \$102,349 thousand in retained earnings on the conversion date for the first time adoption of IFRSs approved by the FSC. In accordance with Regulatory Permit issued by the FSC on April 6, 2012, a special reserve is appropriated from retained earnings based on the net increase of retained earnings arising from the first adoption of IFRSs. Under such regulation, the Company is also required to set aside an additional special reserve, as part of the distribution of its annual earnings, equal to the difference between the amount of the above mentioned special reserve and the net debit balance of other components of the stockholders' equity. The only distributable special reserve is the portion that exceeds the net debit balance of the other components of the shareholders' equity. The carrying amount of special reserve amounted to \$102,349 thousand as of December 31, 2022 and 2021.

According to the rule referred to above, while distributing the distributable earnings, the Company had additional special reserve appropriated from the current year net income and unappropriated earnings of the prior period for the difference between the net amount debited to other shareholder's equity and the balance of the special reserve appropriated in the preceding paragraph. For the amount debited to other shareholders' equity attributable to prior period accumulation, the special reserve was appropriated from the unappropriated earnings of the prior period and could not be distributed. The amount debited to the shareholders' equity reversed subsequently can be distributed as earnings.

E. Earnings distribution and dividend policy

The proposal of surplus earning distribution or loss off-setting for the first half fiscal year, together with the business report and financial statements, shall be forwarded to the audit committee for auditing before the end of the second half of the fiscal year; thereafter, be submitted to the Board of Directors for approval.

Distribution of earnings, by way of cash, shall be approved in the Board of Directors meeting. The distribution of earnings through issuance of new shares shall be resolved in the stockholders' meeting.

The Company's Article of Incorporation stipulates that Company's net earnings should first be used to offset the prior years' deficits, if any, before paying any income taxes. Of the remaining balance, 10% is to be appropriated as a legal reserve, and subsequently any remaining profit together with any undistributed retained earnings shall be distributed, in form of cash dividends, according to the distribution plan approved by the Board of Directors with two-thirds of directors present and approved by one-half of the present directors and further submitted to the shareholders' meeting, in accordance with the R.O.C. Company Act Section 240(5). The distribution plan to issue new shares should be proposed by the Board of Directors and submitted to the shareholders' meeting for approval.

Notes to the Consolidated Financial Statements

After considering both the long-term development of the business and the goal of stable growth of earnings per share, the distribution of dividends to shareholders should not be less than 50% of the distributable earnings, which is calculated using the net income of the current year, minus, legal reserve and special reserve. The distribution of cash dividends should not be less than 50% of the total dividends.

On December 8, 2022, the Company's Board of Directors resolved to distribute the first half of 2022 earnings. The earnings were appropriated as follows:

		2022	
	Divi	Amount	
Dividends distributed to ordinary shareholders:			
Appropriation of the first half of earnings	\$	2.3700	1,389,345

On May 5, 2022 and December 9, 2021, the Board of Directors resolved to distribute for the first half and second half of 2021 earnings, respectively.

Moreover, other surplus distribution has met statutory resolution threshold with electronic voting on June 21, 2022, and the general meeting of shareholders was held on June 23, 2022. On May 6, 2021, the Company's Board of Directors resolved to appropriate 2020 earnings.

The earnings were appropriated as follows:

		2021		2020			
	D	ividends per share (NT dollar)	Amount	Amount			
Dividends distributed to ordinary shareholders							
Appropriation of the first half of earnings	t \$	0.1067	62,550	3.5	2,051,776		
Appropriation of the annual earnings		3.4522	2,023,754	5.5	3,224,219		
Total	\$	3.5589	2,086,304	9.0	<u>5,275,995</u>		

The above-mentioned information is available on the Market Observation Post System website.

On May 6, 2021, the Board of Directors determined the amount of cash dividends for 2020.

Notes to the Consolidated Financial Statements

B. Contract balances

	Dec	cember 31, 2022	December 31, 2021	January 1, 2021
Notes and accounts receivable (including				
related parties)	\$	11,332,961	9,886,329	8,404,570
Contract liabilities	\$	39,561,054	29,759,181	17,896,112

The major change in the balance of contract liabilities is the advance consideration received from customers for the contracts, in which revenue is recognized when products are delivered to customers. The amount of revenue recognized for the years ended December 31, 2022 and 2021, which was included in the contract liability balance at the beginning of the period, was \$5,890,536 thousand and \$3,732,465 thousand, respectively.

The contract liabilities primarily relate to the advance consideration received from customers for the semiconductor and solar products sales contracts, in which revenue is recognized when products are delivered to customers.

(24) Remuneration to employees and directors

In accordance with the Articles of Incorporation of the Company, if there is profit in the year, the Company shall accrue 3% to 15% of the profit as employee's remuneration. The Board of Directors decides to distribute it by stock or cash, and the object of distribution includes employees meeting certain conditions; and the Board of Directors decides to accrue up to 3% of the above profit as directors' remuneration. The distribution of remuneration of employees and directors should be submitted and reported during the shareholders' meeting. In case the Company has an accumulated loss, it should reserve amounts to make up the losses prior to distributing remuneration to the employees and directors pursuant to the percentage mentioned in the preceding paragraph.

For the years ended December 31, 2022 and 2021, the Company accrued and recognized its employee remuneration amounting to \$564,770 thousand and \$438,902 thousand and directors remuneration amounting to \$55,000 thousand and \$45,000 thousand, respectively. These amounts were calculated by using the Company's pre-tax net profit for the period before deducting the amounts of the remuneration to employees and directors, multiplied by the distribution of ratio of the remuneration to employees and directors based on the Company's Articles of Incorporation, and expensed under operating costs or expenses. If there would be any changes in accounting estimates, the changes shall be accounted for as profit or loss in the following year. If, however, the shareholders determine that the employee remuneration is to be distributed through share dividends, the calculation, based on the shares, shall be calculated using the share price on the day before the Board of Directors meeting. The difference between estimated amount and actual payment, if any, will be treated as change in accounting estimate and recognized in profit or loss in the following year.

The amounts as stated in the 2022 and 2021 consolidated financial statements were not significantly different from those approved in the Board of Directors meetings. The information is available on the Market Observation Post System website.

Notes to the Consolidated Financial Statements

(28) Financial instruments

A. Credit risk

(a) Credit risk exposure

The carrying amount of financial assets represents the maximum amount exposed to credit risk.

(b) Concentration of credit risk

The main customers of the Group are from the solar and silicon wafer industries. The Group generally sets credit limits to its customers according to their credit evaluations. Therefore, the credit risk of the Group is mainly influenced by the solar and silicon wafer industry. As of December 31, 2022 and 2021, 45% and 40%, respectively, of the Group's accounts receivable (including related parties) were from the top 10 customers. Although there is a potential for concentration of credit risk, the Group routinely assesses the collectability of the accounts receivable and makes a corresponding allowance for doubtful accounts.

(c) Credit risks of receivables and debt securities

For credit risk exposure of notes and trade receivables, please refer to note 6(5). Other financial assets at amortized cost includes other receivables and investments in corporate bonds. For impairment loss on financial assets measured at amortized cost, please refer to note 6(4).

All of these financial assets are considered to have low risk, and thus, the impairment provision recognized during the period was limited to 12 months expected losses. (Please refer to note 4(7) regarding how the Group determines whether the financial instruments are considered to be low credit risk).

B. Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	Carrying amount	Contractual cash flows	Within 6 months	6-12 months	1-2 years	2-5 years or more	Over 5 years

EUR	1,305	31.32	Note			

Note: The fair value of forward exchange contracts was measured at the reporting date. For related information, please refer to note 6(2).

(b) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, notes and accounts receivable, long and short-term loans, and notes and accounts payables that are denominated in foreign currency. A weakening (strengthening) of 1% of the NTD against the USD, JPY, EUR and CNY as of December 31, 2022 and 2021, net income before income taxes would have decreased or increased by \$38,801 thousand and increased or decreased by \$238,313 thousand for the years ended December 31, 2022 and 2021, respectively. The analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the reporting date. The analysis assumes that all other variables remain constant and was performed on the same basis for both periods.

(c) Foreign exchange gain and losses on monetary exchange

Since the Group has many kinds of functional currencies, the information on foreign exchange gain on monetary items is disclosed by an aggregate amount. For the years of 2022 and 2021, foreign exchange losses (including realized and unrealized portions) amounted to \$3,986,877 thousand and \$584,952 thousand, respectively.

D. Interest rate analysis

Please refer to the notes on liquidity risk management and interest rate exposure of the Group's financial liabilities.

The following sensitivity analysis is based on the exposure to interest rates. Regarding liabilities with variable interest rates, the analysis is based on the assumption that the amount of liabilities outstanding at the reporting date was outstanding throughout the year.

Notes to the Consolidated Financial Statements

If the interest rate had increased or decreased by 0.25%, the Group's net income before income tax would have increased or decreased by \$87,520 thousand and \$25,729 thousand, for the years ended December 31, 2022 and 2021, respectively, assuming all other variable factors remain constant. This is mainly due to the Group's bank deposits and borrowings with variable rates.

E. Other price risk

For the years ended December 31, 2022 and 2021, the sensitivity analyses for the changes in the securities price at the reporting date were performed using the same basis for the profit and loss as illustrated below:

	 For the years ended December 31,						
	2022		2021				
Prices of securities at	Other nprehensive come before	Other comprehensive income before					
the reporting date	tax	Net income	tax	Net income			
Increasing 5%	\$ 72,242	457,296	64,542	908,677			
Decreasing 5%	(72,242)	(457,296)	(64,542)	(908,677)			

F. Fair value of financial instruments

(a) Fair value hierarchy

The fair value of financial assets and liabilities at fair value through profit or loss and financial assets at fair value through other comprehensive income is measured on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

	December 31, 2022					
		Carrying		Fair v	alue	
		amount	Level 1	Level 2	Level 3	Total

(b) Valuation technique for financial instruments that are not measured at fair value

The Group's valuation techniques and assumptions used for financial instruments not measured at fair value are as follows:

Financial assets measured at amortized cost

If the quoted prices in active markets are available, the market price is established as the fair value. However, if quoted prices in active markets are not available, the estimated valuation or prices used by competitors are adopted.

Notes to the Consolidated Financial Statements

(c) Valuation technique of fair value of financial instruments measured at fair value

i. Non-derivative financial instruments

A financial instrument is regarded as being quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. Whether transactions are taking place 'regularly' is a matter of judgment and depends on the facts and circumstances of the market for the instrument.

Quoted market prices may not be indicative of the fair value of an instrument if the activity in the market is infrequent, the market is not well established, only small volumes are traded, or bid ask spreads are very wide. Determining whether a market is active involves judgment.

If the financial instruments held by the Group belong to an active market, the fair value is booked as follows by category and attribute:

For financial assets and financial liabilities of the listed company's stocks, notes of exchange and corporate bonds, which are subject to standard terms and conditions and are traded in the active market, the fair value is determined by reference to market quotations.

In addition to the above-mentioned financial instruments with active markets, the fair value of the remaining financial instruments is obtained by means of evaluation technologies or reference to counterparty quotes. The fair value obtained through the evaluation technology can be based on the current fair value of other financial instruments with similar characteristics and characteristics, the discounted cash flow method or other evaluation technology, including the calculation with the model and the market information available on the consolidated balance sheet date (such as the reference yield curve of Taiwan Stock Exchange, Reuters commercial promissory interest rate average offer).

If the financial instruments held by the Group are in the non-active market, the fair value is booked as follows by category and attribute:

Equity instruments without public quotation: Estimates of fair value using the market comparable company method, the main assumptions are based on the earnings multiplier derived from the investee's net worth per share and the EV/EBIT comparable listed companies' quotes. The estimate has adjusted the depreciation impact of the lack of market liquidity of the equity securities

ii. Derivative financial instruments

Measurement of the fair value of derivative instruments is based on the valuation techniques generally accepted by market participants, such as the discounted cash flow or option pricing models. The fair value of forward currency is usually determined based on the forward currency exchange rate.

Notes to the Consolidated Financial Statements

(d) Reconciliation of Level 3 fair value

The Group's financial instruments which belong to Level 3 fair value were financial assets measured at fair value through other comprehensive income and financial assets measured at fair value through profit or loss. The movements were as follows:

	at	ncial assets fair value igh profit or loss	Financial assets at fair value through other comprehensive income
Balance at January 1, 2022	\$	195,163	401,748
Addition		28,578	331,970
Recognized in profit or loss		(29,376)	-
Recognized in other comprehensive income		-	(156,710)
Refund		(8,572)	(17,911)
Effect of changes in exchange rate			25,157
Balance at December 31, 2022	<u>\$</u>	185,793	584,254
Balance at January 1, 2021	\$	117,204	383,155
Addition		27,820	83,122
Recognized in profit or loss		50,139	-
Recognized in other comprehensive income		-	(13,632)
Refund		-	(42,267)
Effect of changes in exchange rate			(8,630)
Balance at December 31, 2021	\$	195,163	401,748

(e) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include financial assets at fair value through other comprehensive income – equity investments.

Most of the fair value measurements categorized within Level 3 use a single significant unobservable input. Equity investments without an active market contain multiple significant unobservable inputs. The significant unobservable inputs of equity investments without an active market are individually independent, and there is no correlation between them.

Notes to the Consolidated Financial Statements

Quantified information of significant unobservable inputs was as follows:

<u> </u>	Valuation technique	Significant unobservable inputs	Relationship between significant unobservable inputs and fair value
Financial assets at fair value through other comprehensive income equity investments without an active market	Comparable listed companies approach	 Equity value multiplier (as of December 31, 2022 and December 31, 2021 2.07%~ 5.85% and 3.22%~ 3.28%, respectively) Market liquidity discount rate (December 31, 2022 and December 31, 2021 were both 28%, respectively) 	 The higher the multiplier, the higher the fair value The higher the lack of market liquidity, the lower the fair value

- (d) The fair value of the Group's financial instruments that use Level 3 inputs to measure fair value was based on the price of the third party. The Group did not disclose quantified information and sensitivity analysis on significant unobservable inputs because the unobservable inputs used in fair value measurement were not established by the Group.
- (e) As of December 31, 2022 and 2021, there has been no transfer at fair value level.

(29) Financial risk management

A. Overview

The Group has exposures to the following risks from its financial instruments:

- (a) Credit risk
- (b) Liquidity risk
- (c) Market risk

The following likewise discusses the Group's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risk exposures, please refer to the respective notes in the accompanying consolidated financial statements.

B. Structure of risk management

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The board is responsible for developing and monitoring company's risk management policies. Internal auditors assist the Board of Directors to monitor and review the risk management control and internal procedures regularly and report them to the Board of Directors.

Notes to the Consolidated Financial Statements

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group's audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group audit committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, and the results of which are reported to the audit committee.

C. Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investments in debt securities.

(a) Accounts receivables and other receivables

The Group has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. Purchase limits are established for each customer and reviewed quarterly. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.

(b) Investment

The credit risk exposure in the bank deposits, investments with fixed income and other financial instruments are measured and monitored by the Group's finance department. As the Group deals with banks, financial institutions, and other external parties with good credit standing, corporate organization and government agencies which are graded above par level, management believes that the Group does not have compliance issues and no significant credit risk.

(c) Guarantee

According to the Group's policy, the Group can only provide endorsements for companies with business dealing, the companies directly or indirectly owned more than 50% shares with voting right by the Group, or the companies directly or indirectly owned more than 50% shares with voting right of the Group. As of December 31, 2022 and 2021 the Group did not provide any endorsement guarantees except to its subsidiaries.

D. Liquidity risk

There is no liquidity risk of being unable to raise capital to settle contract obligations since the Group has sufficient capital and working capital to fulfill contract obligations.

Notes to the Consolidated Financial Statements

Loans and borrowings from the bank form an important source of liquidity for the Group. As of December 31, 2022 and 2021, the Group's unused credit lines were \$53,224,688 thousand and \$35,207,145 thousand, respectively.

E. Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, which will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(a) Currency risk

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in currencies other than the respective functional currencies of the Group's entities, primarily the New Taiwan Dollar (NTD), but also include the Chinese Yen (CNY), US Dollar (USD), Japanese Yen (JPY) and Euro (EUR). These transactions are denominated in NTD, USD, JPY and EUR.

Interest is denominated in the currency used in borrowings. Generally, borrowings are denominated in currencies that match the cash flows generated by the underlying operations of the Group, primarily NTD, but also include USD.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when it is necessary to address short-term imbalances.

(b) Interest rate risk

The Group holds variable-rate assets and liabilities, which cause the exposure to interest rate risk in cash flows.

(c) Price floating risk on equity instruments

The Group is exposed to equity price risk due to the investments in equity securities. This is a strategic investment and is not held for trading.

Information on the risk was disclosed in note 6(28).

(30) Capital management

The Board of Directors' policy is to maintain a strong capital base in order to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of share capital, capital surplus, retained earnings and other equity interests of the Group. The Board of Directors monitors the return on capital as well as the level of dividends to ordinary stockholders.

Notes to the Consolidated Financial Statements

The Group's debt-to-equity ratios at the end of the reporting periods were as follows:

	December 31, 2022		December 31, 2021	
Total liabilities	\$	128,477,846	115,088,347	
Less: cash and cash equivalent		(83,247,854)	(67,117,906)	
Net debts	<u>\$</u>	45,229,992	47,970,441	
Total equity	<u>\$</u>	68,131,544	52,162,938	
Debt-to-equity ratio		66.39%	91.96%	

The decrease in the debt-to-equity ratio as of December 31, 2022 was mainly due to the increase in total equity as a result of the increase in operating profit for the period.

(31) Cash flow information

The Group's investing and financing activities which did not affect the current cash flow for the years ended December 31, 2022 and 2021 were as follows:

Lancian

For acquiring right of use assets by leasing, please refer to note 6(11).

Reconciliations of liabilities arising from financing activities were as follows:

				Foreign	
				exchange

Notes to the Consolidated Financial Statements

7. Related-party transactions:

(1) Names and relationships of related parties

The followings are entities that have had transactions with the Group during the periods covered in the consolidated financial statements:

Names of related parties	Relationship with the Group
Actron	SAS's management is the director of the
	company/ An associate of the Group
Accu Solar Corporation	An associate of the Group
Crystalwise Technology Inc.	An associate of the Group

(2) Significant transactions with related parties

A. Sales

The amounts of significant sales transactions and engineering contract revenue between the Group and related parties were as follows:

	 2022	2021
es	\$ 278,626	354,704

The sales price for sales to the related parties was determined by market price and adjusted according to the sales area and sales volume.

As of December 31, 2022 and 2021, the credit terms for third parties were 0 to 120 days after month-end. While those for related parties were 30 to 90 days after month-end and receipt in advance to 30 days after month-end, respectively.

B. Purchase and process outsourcing

The amounts of purchases and process outsourcing by the Group from related parties were as follows:

		2022	2021
ssociates	<u>\$</u>	1,528	157

The prices of purchases and process outsourcing were determined by market rates.

As of December 31, 2022 and 2021, the payment terms to third parties were 0 to 150 days after month-end and 0 to 120 days after month-end, respectively. In contrast, those to related parties were prepayment to 30 days after month-end.

Notes to the Consolidated Financial Statements

C. Receivables from related parties

The receivables from related parties were as follows:

Items	Categories	Dece	ember 31, 2022	December 31, 2021
Receivables from related	Associate			
parties		\$	77,916	65,929

D. Payables to related parties

The payables to related parties were as follows:

		Decem	ber 31,	December 31,
Items	Categories	202	22	2021
Payable to related parties	Associate	\$	73	

E. Transactions of property, plant and equipment

The disposals of property, plant and equipment to related parties were summarized as follows:

	202	2022		21
	Amount	Payable to related parties	Amount	Payable to related parties
Associates	<u>\$ 15,986</u>	-	85,542	10,989

F. Corporate bonds

As of December 31, 2022 and 2021, the interest income amounted to \$6,600 thousand and \$5,859 thousand, respectively. As of December 31, 2022 and 2021, the accumulated investment cost and interests receivable amounted to \$331,609 thousand and were recorded in financial assets measured at amortized cost-current.

G. Lease

The details of the lease rental contract between the Group and its related parties were as follows:

		2022	2021
Associates	<u>\$</u>	39,104	29,829

The Group leased its plant to associates. As of December 31, 2022 and 2021, the Group had lease receivables of \$3,133 thousand and \$2,217 thousand, respectively.

Notes to the Consolidated Financial Statements

H. Payment and advances from other transactions

(a) The receivables from related parties and payables to related parties generated from other material purchases on behalf of related parties, insurance and utilities payments and manpower support of related parties as of December 31, 2022 and 2021 were as follows:

	De	ecember 31, 2022	December 31, 2021
Associates	\$	1,994	614
Associates		(1,122)	(183)
	<u>\$</u>	872	431

(b) As of December 31, 2022, the related parties entered into offshore wind power purchase contracts for the implementation of the sustainable Green Energy Performance Plan and deposited a guaranteed amounted to \$10,000 thousand, which was recorded under other liabilities—non-current.

(3) Key management personnel compensation

Key management personnel compensation comprised of:

	<u></u>	2022	2021
Short-term employee benefits	\$	546,270	515,624
Post-employment benefits		1,924	1,132
	<u>\$</u>	548,194	516,756

8. Pledged assets:

The carrying values of pledged assets were as follows:

Asset name	Pledge or Mortgage underlying subject	December 31, 2022	December 31, 2021
Property, plant and equipment	Long-term and short-term borrowings and credit lines	\$ 3,501,797	3,438,440
Time deposits (recognized in other financial assets—current)	Performance bond	10,629	-
Time deposits (recognized in other financial assets — non-current)	Guarantee for the lease contract with the Hsinchu Science Park Bureau	51,836	51,800
Time deposits (recognized in other financial assets – non-current)	Guarantee for gas consumption from CPC Corporation	2,000	2,000
Time deposits (recognized in other financial assets – non-current))	Guarantee payment for import VAT	14,000	5,000
Time deposits (recognized in other financial assets – non-current))	Guarantee for bank financing projects	107,836	138,400
Time deposits/deposit guarantee (recognized in other financial assets — non-current))	Court litigation	19,638	34,182
Time deposits (recognized in other financial assets – non-current))	Guarantee for bank financing projects	8,000	
	<u> </u>	\$ 3,715,736	3,669,822

9. Commitments and contingencies:

The significant contingent liabilities and unrecognized contractual commitments were as follows:

(1) Significant unrecognized contractual commitments

A. The purchase amounts for future delivery from suppliers under the existing agreements and a new agreement signed with Hemlock Semiconductor Pte. Ltd. (hereinafter referred to as Hemlock) in July, 2021, as of December 31, 2022 and 2021, amounted to \$33,461,162 thousand and \$33,277,526 thousand, respectively.

Discussion of the contract litigation between Hemlock and the Company, please refer to (2) contingent liabilities.

Notes to the Consolidated Financial Statements

B. In response to the long-term purchase contract referred above, the Company has silicon wafer long-term sales contracts signed with the customers since the year 2005. These companies agree to pay the non-refundable funds to the Company. The two parties agreed to have silicon wafers sold in accordance with the agreed quantity and price from January 1, 2006 to December 31, 2019. If the delivery has not been made in compliance with the contract signed, a sales discount or an amount equivalent to 1.5-4 times of the advance sales receipts from customers as remuneration should be granted. If the delay of shipment has not been resolved for more than three months, the outstanding pre-payment should be refunded. In addition, in response to the price decline arising from the falling demand, solar energy battery customers and the Company will negotiate the selling price and adjusting the average selling price in accordance with market conditions.

The amount of delivery according to the existing contracts and current market conditions is as follows:

(Unit: currency in thousands)

	December 31, 2022	December 31, 2021	
USD	<u>\$ 21,865</u>	20,736	
EUR	\$ 13,066	15,048	

- C. As of December 31, 2022 and 2021, the significant outstanding commitments for construction and purchase of property, plant and equipment amounted to \$27,954,076 thousand and \$9,953,297 thousand, respectively.
- D. As of December 31, 2022 and 2021, the total amount of promissory notes deposited by the Group at the bank for acquiring bank financing were \$14,149,520 thousand and \$11,341,360 thousand, respectively.
- E. As of December 31, 2022 and 2021, a guarantee letter for the Customs Administration and Research and Development which the Group requested a bank to issue amounted to \$140,599 thousand and \$60,000 thousand, respectively.
- F. As of December 31 2022 and 2021, the Group's outstanding standby letters of credit that were issued amounted to \$157,689 thousand and \$322,195 thousand, respectively.
- G. The Group had a long-term sales contract with some customers and received the advance payment. The customer is required to order minimum quantity according to the contract. As of December 31, 2022 and 2021, a guarantee letter for the customer which the Group requested a bank to issue amounted to \$4,685,036 thousand and \$905,394 thousand, respectively.

Notes to the Consolidated Financial Statements

- H. GlobalWafers Co., Ltd. had made an application of the Management, Utilization, and Taxation of Repatriated Offshore Funds Act to the tax authorities on February 21, 2020 and November 28, 2019. Up to 5% of the funds could be withdrawn and freely utilized. The remaining 95% can only be withdrawn for the investments approved by the Ministry of Economic Affairs, R.O.C. upon the elapse of five full years after the date of depositing the fund into a segregated foreign exchange deposit account. GlobalWafers Co., Ltd. had made an application to utilize the fund for capital investment. The fund is planned to utilize for factory extension, purchase of factory's facilities and other related capital expenditure. GlobalWafers Co., Ltd. has applied to the Ministry of Economic Affairs for substantial investments that were expected to be used for plant expansion and capital expenditure. As of December 31, 2022 and 2021, the balance of the account was \$2,967,304 thousand and \$3,944,367 thousand, respectively, and recognized as other current and non-current financial assets.
- I. GlobalWafers Co., Ltd.'s board resolved to acquire Siltronic AG outstanding shares at EUR125 per share on December 9, 2020. GlobalWafers Co., Ltd. and Siltronic AG signed a business combination agreement on December 10, 2020, wherein the Group issued a EUR50 million letter of payment guarantee through the bank.

The Company also signed an irrevocable undertaking agreement with Wacker Chemie AG (Wacker Chemie). It was approved by German Federal Financial Supervisory Authority (BaFin) on December 21, 2020, to publish the offer document outlining terms of the voluntary public takeover offer for the acquisitions of all no par value registered shares in Siltronic AG.

On January 22, 2021, the final offer price was adjusted to EUR145 per share. As of January 31, 2022, the approval by the German government could not be obtained. Under the aforementioned business combination agreement between GlobalWafers and Siltronic AG, a termination fee of EUR 50 million was payable to siltranic AG, which was provisionally recorded as of December 31, 2021, and paid completely in the first quarter of 2022.

J. The Group entered into an offshore wind power contract with a customer under the sustainable Green Energy Performance plan in 2022 and received a guarantee deposit of \$111,800 thousand. As of December 31, 2022, the above-mentioned guarantee deposit were recorded as other liabilities—non-current.

10. Losses due to major disasters: None.

11. Subsequent Events:

- (1) On March 16, 2023, the Group's Board of Directors resolved to extend the repayment of private issued corporate bonds issued by Crystalwise Technology Inc. due on September 30, 2023.
- (2) On March 14, 2023, the Group's Board of Directors resolved to acquired private placement of shares in Billion Electric Co., Ltd. 15,000 thousand shares, amounting to \$529,800 thousand at \$35.32 per share.
- (3) To meet the market demand and expand its production capacity, GlobalWafers entered a contract for

fab design and construction, as well as project management, with a specific vendor in January 2023. The total price for the design, project management and fab construction was capped at US\$254,000 thousand (NT\$78 billion).

Notes to the Consolidated Financial Statements

3	SST	KST	2	13,701,370	1,424,296	1,403,599	1,403,599	-	51.22%	13,701,370	N	N	Y

- Note 1: The characters of guarantees and endorsements are coded as follows:
 - (1) The issuer is coded "0".
 - (2) The investee is coded consecutively beginning from "1" in the order presented in the table above.
- Note 2: The relation between guaranter and guarantee and their endorsement should be disclosed as one of the following:
 - (1) Ordinary business relationship.
 - (2) Subsidiary which owned more than 50 percent by the guarantor.
 - (3) An investee owned more than 50 percent in total by both the guarantor and its subsidiary.
 - (4) An investee owned more than 90 percent by the guarantor or its subsidiary.
 - (5) Fulfillment of contractual obligations by providing mutual endorsements and guarantor for peer or joint builders in order to undertake a construction project.
 - (6) An entity that is guaranteed and endorsed by all capital contributing shareholders in proportion to their shareholding percentages.
 - (7) The companies in the same industry provide among themselves joint and several securities for a performance guarantee of a sales contract for per construction homes pursuant to the Consumer Protection Act for each other.
- Note 3: The amount of endorsements/guarantees provided by the endorsement guarantor company for a single enterprise is limited to 10% of the net worth of the company providing the endorsements/guarantees, but for the subsidiary company, limited to one time of the net worth of the company providing the endorsements/guarantees. The total amount of accumulated endorsements/guarantees shall not exceed the net worth of the Company. The total amount of the Company's endorsements/guarantees and that for a single enterprise shall not exceed five times the net worth of the company providing endorsements/guarantees. The aforesaid net worth is based on the financial statements recently audited or reviewed by an accountant. For endorsements/guarantees due to business transactions, except subject to the provisions of the preceding item, the endorsement guarantee amount should be equal to the higher of the purchase or sales amount.
- Note 4: The Company controls the financial and operating strategies of Sulu through effective agreements with other investors of Sulu, so Sulu is considered as a subsidiary.
- Note 5: Sulu shares with the company a quota of USD 10,000 thousand and Sulu's individual quota is USD 36,000 thousand. The Company resolved on October 14, 2016 by the Board of Directors to repay part of the loan, and reduce the endorsements/guarantees quota to USD 46,000 thousand. The actual disbursement amount was reduced to USD 29,425 thousand.
- Note 6: The endorsements/guarantees quota for Sulu is calculated as the amount of sales at the time of endorsements/guarantees.

Securities held as of December 31, 2022 (excluding investment in subsidiaries, associates and joint ventures) December 31, 2022

- Note 1: The characters of business transactions between parent company and its subsidiaries are coded as follows:
 - 1. The parent company is coded "0".
 - 2. The subsidiaries are coded consecutively beginning from "1" in the order presented in the table above.
- Note 2: The relationships with transactions are as follows:
 - (1) Parent company to its subsidiaries.
 - (2) Subsidiaries to the parent company.
 - (3) Transactions between subsidiaries.
- Note 3: The ratio of the transaction amount of the consolidated total sales revenue and consolidated total assets are calculated as follows:
 - (1) For transaction amount accounted for as asset or liability, the ratio is calculated based on the closing balance amount of the consolidated total assets.
 - (2) For transaction amount accounted for as profit or loss, the ratio is calculated based on the accumulated amount at the end of the financial period of the consolidated total sales revenue.
- Note 4: The table represented the amount of significant transaction exceeding 1 percent of the consolidated operating revenue or total assets.

Independent Auditors' Report

To the Board of Directors of Sino-American Silicon Products Inc.:

Opinion

We have audited the parent-company-only financial statements of Sino-American Silicon Products Inc. ("the Company"), which comprise the balance sheets as of December 31, 2022 and 2021, the statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the parent-company-only financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying parent-company-only financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the parent-company-only Financial Statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of Republic of China and we have fulfilled our other ethical responsibilities in accordance with these requirment. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent-company-only financial statements of the current period. These matters were addressed in the context of our audit of the parent-company-only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on our judgment, the key audit matters that should be disclosed in this report are as follows:

Evaluation of investments accounted for using equity method

For the accounting policies of the assessment of the investment under equity method, please refer to note 4(8) "Investment in associates" and note 4(9) "Investment in subsidiaries" of the parent-company-only financial statements; for the assessment of the investment under equity method, please refer to the parent-company-only financial statements of note 6(6) "Investments accounted for using equity method".

Description of key audit matter:

The Company holds 51.17% of the shares in the equity investment subsidiary, GlobalWafers Co., Ltd. Given that most of the subsidiaries of GlobalWafers Co., Ltd. are mainly arising from business combinations, and GlobalWafers operates in an industry subjected to fluctuations in the market environment and other factors, the recognition of the revenue of subsidiaries and the assessment of goodwill impairment are important. It is considered to be one of the key areas in our audit.

How the matter was addressed in our audit:

The principal audit procedures performed for the recognition of revenue related to investees under equity method include understanding the accounting policies adopted for the revenue recognition; assessing the design of the internal control system of sales revenue; and testing selected samples of individual transactions to support the appropriateness of the recognition of revenue. The principal audit procedures for the goodwill impairment assessment include: assessing the cash generating unit that the management has identified to impair and indicators of impairment; assessing the reasonableness of the management's method of measuring the recoverable amount; assessing the accuracy of management's past forecasts; reviewing management's calculation of the recoverable amounts of cash generating units; evaluating various assumptions used for future cash flow projections and calculating recoverable amounts, and performing the sensitivity analysis of the key assumptions.

Responsibilities of Management and Those Charged with Governance for the Parent-Company-Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent-company-only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent-company-only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent-company-only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Parent-Company-Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the parent-company-only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent-company-only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent-company-only financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent-company-only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent-company-only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are An-Chih Cheng and Mei-Yu Tseng.

KPMG

Taipei, Taiwan (Republic of China) March 16, 2023

Notes to Readers

The accompanying parent-company-only financial statements are intended only to present the financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such parent-company-only financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying parent-company-only financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and parent-company-only financial statements, the Chinese version shall prevail.

Notes to the Parent-Company-Only Financial Statements For the years ended December 31, 2022 and 2021

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

1. Company history

Sino-American Silicon Products Inc. (hereinafter referred to as "the Company") was incorporated in accordance with the Company Act of the Republic of China in January 1981 at No. 8, Industrial East Road 2, Science Based Industrial Park, Hsinchu, Taiwan (R.O.C.). for the R&D, design, production and sale of semi-conductor silicon materials and components, rheostats, optical and communications wafer materials; and also the related technology, management consulting business, and technical services of the photo-voltaic power system generation and installation.

The Company's stocks have been traded publicly at the Taipei Exchange (TPEx) since March 2001.

For the purpose of reorganization and professional division of work and enhancing competitiveness and business performance, a resolution was reached at the shareholders' meeting on June 17, 2011 to have the semiconductor business and sapphire business (including the related assets, liabilities and business operations), by the way of incorporation and demerger, transferred to the Company's 100% owned subsidiaries, GlobalWafers Co., Ltd. (hereinafter referred to as "GlobalWafers") and Sino Sapphire CO., LTD (hereinafter referred to as "Sino Sapphire") with the record date of demerger scheduled on October 1, 2011. The Company based on the net book value of the semi-conductor business shall pay a price of NT\$ 38.5 per share for acquiring 180,000 thousand shares at NT\$ 10 par value of GlobalWafers; also, based on the sapphire business net assets shall pay a price of NT\$ 40 per share for acquiring 40,000 thousand shares at NT\$ 10 par value of Sino Sapphire.

GlobalWafers' common shares have been listed on Taipei Exchange ("TPEx") since September 25, 2015, and were delisted from the Emerging Market at the same date.

2. Approval date and procedures of the financial statements:

These parent-company-only financial statements were authorized for issuance by the Board of Directors on March 16, 2023.

3. New standards, amendments and interpretations adopted:

(1) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. ("FSC") which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its parent-company-only financial statements, from January 1, 2022.

- Amendments to IAS 16 "Property, Plant and Equipment Proceeds before Intended Use"
- Amendments to IAS 37 "Onerous Contracts—Cost of Fulfilling a Contract"
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 "Reference to the Conceptual Framework"

Notes to the Parent-Company-Only Financial Statements

(2) The impact of IFRS issued by the FSC but not yet effective

The Company assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2023, would not have a significant impact on its parent-company-only financial statements.

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"
- Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

(3) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Company, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"	Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional right to defer settlement for at least 12 months after the reporting date. The amendments has removed the requirement for a right to be unconditional and instead now requires that a right to defer settlement must exist at the reporting date and have substance.	January 1, 2024
	The amendments clarify how a company classifies a liability that can be settled in its own shares – e.g. convertible debt.	

The Company is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its parent-company-only financial position and parent-company-only financial performance. The results thereof will be disclosed when the Company completes its evaluation.

The Company does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its parent-company-only financial statements.

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 " Insurance Contracts" and amendments to IFRS 17 " Insurance Contracts"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"

Notes to the Parent-Company-Only Financial Statements

- Amendments to IFRS 17 "Initial Application of IFRS 17 and IFRS 9 Comparative Information "
- IFRS16 "Requirements for Sale and Leaseback Transactions"

4. Summary of significant accounting policies:

The significant accounting policies presented in the parent-company-only financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the parent-company-only financial statements.

(1) Statement of compliance

The parent-company-only financial statements is prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers."

(2) Basis of preparation

A. Basis of measurement

Except for the following significant accounts, the parent-company-only financial statements have been prepared on a historical cost basis:

- (a) Financial instruments measured at fair value through profit or loss are measured at fair value:
- (b) Financial assets at fair value through other comprehensive income (loss) are measured at fair value;
- (c) The defined benefit liability recognized is the net of pension assets less the present value of defined benefit obligation and the limit of recognized assets as discussed in note 4 (16).

B. Functional and presentation currency

The Company's functional currency is the currency of the main economic environment in which it operates. This parent-company-only financial statements is presented in the Company's functional currency, New Taiwan Dollar. All financial information presented in NT dollars is expressed in NT\$ thousand.

(3) Foreign currencies

A. Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currency using the exchange rate at that date.

Notes to the Parent-Company-Only Financial Statements

Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currency using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for an equity investment in equity securities designated as at fair value through other comprehensive income, which are recognized in other comprehensive income.

B. Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into New Taiwan Dollars at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into New Taiwan Dollars at the average rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Company disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Company disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(4) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current:

- A. It is expected to be realized, or intends to be sold or consumed, in the normal operating cycle;
- B. It is held primarily for the purpose of trading;
- C. It is expected to be realized within twelve months after the reporting period; or
- D. The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current:

- A. It is expected to be settled in the normal operating cycle;
- B. It is held primarily for the purpose of trading;

Notes to the Parent-Company-Only Financial Statements

- C. It is due to be settled within twelve months after the reporting period; or
- D. The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(5) Cash and cash equivalents

Cash comprises cash and cash in bank. Cash equivalents are short term and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and held for the purpose of meeting short term cash commitments rather than for investment or other purposes are classified as cash equivalents.

(6) Financial instruments

Trade receivables issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

A. Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at amortized cost, fair value through other comprehensive income (FVOCI) – financial assets, or fair value through profit or loss (FVTPL). Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

(a) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses, and impairment loss, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

Notes to the Parent-Company-Only Financial Statements

(b) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Equity investments at FVTOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Company right to receive payment is established.

(c) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL including derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

(d) Assess whether the contractual cash flow is entirely for the payment of the principal and interest on the outstanding principal amount

For the purpose of assessment, the principal is the fair value of the financial assets at the time of initial recognition. The interest consists of the following considerations: the time value of money, the credit risk associated with the amount of the outstanding principal in a specified period, and other basic loan risks and costs, and margin of profit.

Notes to the Parent-Company-Only Financial Statements

To assess whether the contractual cash flow is entirely for the payment of the principal and interest on the outstanding principal amount, the Company considers the terms of the financial instrument contract, including assessing whether the financial asset contains a contractual term that changes the time point or amount of the contractual cash flow, resulting not meeting this condition. At the time of evaluation, the Company consider:

- Any contingency that would change the point or amount of the contractual cash flow;
- The terms that adjust the contractual coupon rate, including the characteristics of the variable interest rate:
- Early repayment and extension features; and
- The Company's claim is limited to terms derived from the cash flow of a particular asset (e.g. non-recourse characteristics).

(e) Impairment of financial assets

The Company recognizes the allowance for the expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, financial assets measured at amortized cost, notes and accounts receivable, refundable deposits and other financial assets, etc.) and contractual assets.

The Company measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured by 12-month ECL:

- Debt securities that are determined to have low credit risk at the reporting date; and
- The credit risk of other debt securities and bank deposits (i.e., The risk of default on the expected duration of the financial instruments) has not increased significantly since the initial recognition.

The allowance for receivables and contractual assets is measured at the amount of expected credit losses during the lifetime.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company historical experience and informed credit assessment as well as forward looking information.

The Company considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

Notes to the Parent-Company-Only Financial Statements

The Company considers a financial asset to be in default when the financial asset is more than 180 days past due or the debtor is unlikely to pay its credit obligations to the Company in full.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

ECLs are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company procedures for recovery of amounts due.

Notes to the Parent-Company-Only Financial Statements

(f) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

B. Financial liabilities and equity instruments

(a) Classification of debt or equity

Debt or equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual agreement.

(b) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

(c) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

(d) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

Notes to the Parent-Company-Only Financial Statements

(e) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

C. Derivative financial instruments

The Company holds derivative financial instruments to hedge its foreign currency and interest rate exposures. Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss.

(7) Inventories

Inventories are measured at the lower of cost or net realizable value. The cost of inventories is based on the weighted-average-cost method and includes expenditure incurred in acquiring the inventories, production or conversion cost, and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses necessary to make the sale.

(8) Investment in associates

Associates are those entities in which the Company has significant influence, but not control or joint control, over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition, less any accumulated impairment losses.

The parent-company-only financial statements include the Company's share of the profit or loss and other comprehensive income of, after adjustments to align their accounting policies with those of the Company, from the date on which significant influence commences until the date on which significant influence ceases. The Company recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual significant influence.

Gains and losses resulting from transactions between the Company and an associate are recognized only to the extent of the Company's interests in the associate that are not related to the Company.

When the Company's share of losses or exceeds its interests in an associate, the carrying amount of the investment, including any long term interests that form part thereof, is reduced to zero, and the recognition of further losses is discontinued except to the extent the Company has an obligation or has made payments on behalf of the investee.

Notes to the Parent-Company-Only Financial Statements

When the Company subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Company's proportionate interest in the net assets of the associate. The Company records such a difference as an adjustment to investments, with the corresponding amount charged or credited to capital surplus. If the capital surplus resulting from changes in ownership interest is not sufficient, the remaining difference is debited to retained earnings. If the Company's ownership interest is reduced due to the additional subscription to the shares of the associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate shall be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

The Company discontinues the use of the equity method and measures the retained interest at fair value from the date when its investment ceases to be an associate. The difference between the fair value of retained interest and proceeds from disposing, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Company accounts for all the amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the associates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss (or retained earnings) on the disposal of the related assets or liabilities, the Company reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) (or retained earnings) when the equity method is discontinued. If the Company's ownership interest in an associate is reduced while it continues to apply the equity method, the Company reclassifies the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest to profit or loss.

(9) Investment in subsidiaries

The investees which are controlled by the Company are measured under equity method in preparing the parent-company-only financial statement. The profit, other comprehensive income and equity in the parent-company-only financial statement are equal to the profit, other comprehensive income and equity attributable to the shareholders of parent in the consolidated financial statement.

Changes in the Company's ownership interests in subsidiaries that do not result in the Company losing of control over the subsidiary are accounted for as equity transaction.

(10) Property, plant and equipment

A. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

Notes to the Parent-Company-Only Financial Statements

B. Subsequent cost

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

C. Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

(a) Buildings: 2 to 50 years

(b) Machinery and equipment: 1 to 10 years

(c) Other equipment and leased assets: 2 to 25 years

Buildings constitute mainly buildings, mechanical and electrical power equipment, and related engineering, wastewater treatment and sewage system, etc. Each such part is depreciated based on its useful life of 2 to 50 years, 5 to 25 years, and 6 to 20 years, respectively.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(11) Lessee

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

A. As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

Notes to the Parent-Company-Only Financial Statements

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- (a) fixed payments, including in-substance fixed payments;
- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- (c) amounts expected to be payable under a residual value guarantee; and
- (d) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- (a) there is a change in future lease payments arising from the change in an index or rate; or
- (b) there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee; or
- (c) there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- (d) there is a change of its assessment on whether it will exercise an extension or termination option; or
- (e) there are any lease modifications

When the lease liability is remeasured, other than lease, modifications a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Company accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases with 12 months or less and leases of low-value assets, including parking space and other equipment. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Notes to the Parent-Company-Only Financial Statements

B. As a lessor

When the Company acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

If an arrangement contains lease and non-lease components, the Company applies IFRS15 to allocate the consideration in the contract, which accounted as a single lease component.

(12) Intangible assets

A. Recognition and measurement

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Company intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

B. Other intangible assets

Other intangible assets that are acquired by the Company and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

C. Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in profit or loss as incurred.

D. Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, from the date that they are available for use.

The estimated useful lives of intangible assets for current and comparative periods are as follows:

Computer software: 3 to 10 years

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Notes to the Parent-Company-Only Financial Statements

(13) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units ("CGUs"). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or a cash-generating unit ("CGU") is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or a CGU.

An impairment loss is recognized if the carrying amount of an asset or a CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. And then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

For non-financial assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of or depreciation amortization, if no impairment loss had been recognized.

(14) Provisions

A provision is recognized if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as interest expense.

Onerous contracts

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract or the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

Notes to the Parent-Company-Only Financial Statements

(15) Revenue recognition

A. Revenue from contracts with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below:

(a) Sale of goods

The Company engages mainly in the research, development, production, design, and sales of semiconductor ingots and wafers, varistors, optoelectronics and communication wafer materials. The Company recognizes revenue when control of the products has been transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered, as this is the point in time that the Company has a right to an amount of consideration that is unconditional.

(b) Product processing services

The Company provides processing of products and recognizes the relevant revenue during the financial reporting period of the labor service. Revenue recognition for fixed price contracts is based on the ratio of services actually provided to total services as of the reporting date, which is determined by the percentage of labor performed to the total amount of labor to be performed. If the situation changes, the estimates of revenue, cost, and degree of completion will be revised, and the increase or decrease in the period when the management is aware of the change in the situation will be reflected in profit or loss.

Under the fixed price contract, the customer pays a fixed amount in accordance with the agreed time schedule. When the services provided exceed the payment, the contract assets are recognized; if the payment exceeds the services provided, the contract liabilities are recognized.

If the contract is valued based on the number of hours in which the service is provided, the revenue is recognized by the amount in which the Company has the right to open an invoice. The Company will ask customers for a monthly payment and will receive the consideration after opening the invoice.

The Company recognizes the accounts receivable when the goods are delivered, because the Company has the right to collect the consideration unconditionally at that time.

Notes to the Parent-Company-Only Financial Statements

(c) Power electric revenue

The Company recognized the power electric revenue based on the actual electric units and electric rate.

(d) Engineering contract

The Company is engaged in the contracting business of solar power plants. Since the assets are controlled by the customers at the time of construction, the revenue is gradually recognized over time based on the proportion of the engineering costs incurred to date to the estimated total contract costs. A fixed amount paid by the customer in accordance with the agreed time schedule. Certain changes in consideration are estimated using expectations from past experience; other changes are estimated at the most probable amount. The Company recognizes revenue only within the scope of the cumulative revenue level where it is highly probable that no significant reversal will occur. If the amount of revenue recognized has not been requested, it is recognized as a contract asset and the contract asset is transferred to the accounts receivable when there is an unconditional right to the consideration.

If the degree of completion of the performance obligation of the construction contract cannot be reasonably measured, the contract revenue is recognized only within the range of expected recoverable costs.

When the Company expects that the inevitable cost of performance of an engineering contract exceeds the economic benefit expected from the contract, the liability provision for the onerous contract is recognized.

If the circumstances change, the estimates of revenue, cost and completion will be revised and the changes will be reflected in gain or loss when the management is informed of the change in circumstances and the amendment is made.

B. Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(16) Employee Benefits

A. Defined contribution plans

Obligations for contributions to defined contribution pension plans are expensed as the related service is provided. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

Notes to the Parent-Company-Only Financial Statements

B. Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

C. Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(17) Share-based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards whose related services are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that meet the related services at the vesting date.

The non-vested conditions relating to the share-based payment incentives are reflected in the measurement of the fair value of the share-based payment and the difference between the expected and actual results is not subject to verification adjustment.

Grant date of a share-based payment award is the date which the Board of Directors authorized the price and number of a new award.

Notes to the Parent-Company-Only Financial Statements

(18) Income tax

Income taxes comprise current taxes and deferred taxes. Except for items related to business combinations, or items recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatment, do not meet the definition of income taxes, and therefore accounted for them under IAS37.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are not recognized except for the following:

- A. temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;
- B. temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- C. taxable temporary differences arising on the initial recognition of goodwill.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if the following criteria are met:

- A. the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- B. the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - (a) the same taxable entity; or
 - (b) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Notes to the Parent-Company-Only Financial Statements

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

(19) Business combination

The Company arising from an acquisition is measured as the excess of the consideration transferred (which is generally measured at fair value) and the amount of non-controlling interest in the acquiree, both over the identifiable net assets acquired at the acquisition date. If the amount calculated above is a deficit balance, the Company recognized that amount as a gain on a bargain purchase in profit or loss immediately after reassessing whether it has correctly identified all of the assets acquired and all of the liabilities assumed.

For each business combination, the Company measures any non-controlling interests in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets, if the non-controlling interests are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets in the event of liquidation. Other components of non-controlling interests are measured at their acquisition-date fair values, unless another measurement basis is required by the IFRSs endorsed by the FSC.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, provisional amounts for the items for which the accounting is incomplete are reported in the Group's financial statements. During the measurement period, the provisional amounts recognized at the acquisition date are retrospectively adjusted, or additional assets or liabilities are recognized to reflect new information obtained about facts and circumstances that existed as of the acquisition date. The measurement period will not exceed one year from the acquisition date.

(20) Earnings per share

The Company discloses basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as employee remuneration that could be settled in the form of stock. The Company's potential diluted ordinary share includes non-vested shares of restricted employee right and employee remuneration that has not been resolved by the Board of Directors and has been issued in the form of shares.

(21) Operating segment

The Company has the segment information disclosed in the consolidated financial statements; therefore, it will not be disclosed in the parent-company-only financial statements.

Notes to the Parent-Company-Only Financial Statements

5. Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

In preparing the parent-company-only financial statements, the management had made judgments, estimations and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in the accounting estimates during the period and the impact of those changes in the following period.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the parent-company-only financial statements is as follows:

Judgment of whether the Company has substantial control over investees

Advanced Wireless Semiconductor Company's Board of Directors was fully re-elected on June 20, 2022, and the Company obtained the majority of the directors' seats. The Company is the single largest shareholder of the investee, and the remaining voting rights in the investee are widely dispersed. Considering the Company's power over the investee, exposure or rights to variable returns, and the ability to use its power over the investee to affect the amount of the investee's remuneration, the Company obtained control over Advanced Wireless.

The Company holds 30.09% of the voting shares of Taiwan Speciality Chemicals and is the single largest shareholder. The Company used the equity method to account for the investee. The second largest shareholder of Taiwan Speciality Chemicals liquidated, and distributed Taiwan Speciality Chemicals shares in the third quarter of 2021, resulting in a change in the shareholder structure of Taiwan Speciality Chemicals. Taiwan Speciality Chemicals's Board of Directors was fully re-elected in the third quarter of 2021, and the Company obtained the majority of the directors' seats. The Company is the single largest shareholder of the investee, and the remaining voting rights in the investee are widely dispersed. Considering the Company's power over the investee, exposure or rights to variable returns, and the ability to use its power over the investee to affect the amount of the investee's remuneration, the Company obtained control over Taiwan Speciality Chemicals.

The Company holds 31.61% of the voting shares of Crystalwise Technology Inc., (Crystalwise). The remaining specific shareholders still hold significant voting shares, and it is impossible to exclude the possibility of a joint exercise of rights. The Company and other shareholders' size and participation of voting rights show that the Company has no controlling power and does not have more than half of the board seats. There were no potential voting rights or other contractual arrangements. The Company evaluated that relevant activities of Crystalwise are not determined based on the votes of the majority voting right holders. Rather, it is based on the majority of the members of Board of Directors. Therefore, the investors who have voting rights can not control the relevant activities of Crystalwise. The Company had received a variable return from the investee due to holding the ordinary share of Crystalwise. The source of return is dividends. The Company evaluated that it does not have the ability to influence Crystalwise's return due to the lack of the power to control it. The Company concluded that it has no substantive power to decide the relevant activities from the beginning. Therefore, the Company determined that it has significant influence but not control over Crystalwise.

Notes to the Parent-Company-Only Financial Statements

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is as follows. Those assumptions and estimation have been updated to reflect the impact of COVID-19 pandemic:

The Company strives to use the observable market inputs when measuring assets and liabilities. The hierarchy of the fair value categorized by the valuation techniques used is as follows:

- Level 1: quoted prices (unadjusted) in active markets for identified assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

For any transfer within the fair value hierarchy, the Company recognizes the transfer on the reporting date. For the assumption used in fair value measurement, please refer to note 6(23) of the financial instruments.

6. Explanation of significant accounts:

(1) Cash and cash equivalents

Cash on hand		ember 31, 2022	December 31, 2021	
		200	180	
Demand deposits		416,014	804,561	
Cash and cash equivalents in the statement of cash flows	<u>\$</u>	416,214	804,741	

Please refer to note 6(23) for the interest rate risk and sensitivity analysis of the Company's financial assets and liabilities.

(2) Financial assets and liabilities at fair value through profit or loss

	Dec	cember 31, 2022	December 31, 2021
Financial assets at fair value through profit or loss-current:			
Forward exchange contract	\$	-	<u>117</u>
Financial liabilities at fair value through profit or loss-current:			
Forward exchange contract	\$	-	152
Swap exchange contract		1,219	
	<u>\$</u>	1,219	<u> 152</u>

Notes to the Parent-Company-Only Financial Statements

The Company uses derivative instruments to hedge certain currency risk arising from the Company's operating activities. The Company held the following derivative instruments not used for hedging and accounted them as financial liabilities designated as at fair value through profit or loss as follows:

	December 31, 2022				
		t amount usands)	Currency	Maturity date	
Swap exchange contract:					
Currency exchange	EUR	3,500	EUR to USD	January 3, 2023 to January 10, 2023	
			December 31, 202	1	
	Contract	t amount			
	(in thou	usands)	Currency	Maturity date	
Forward exchange contracts purchased	EUR	1,300	EUR to USD	January 26, 2022	
Forward exchange contracts purchased	EUR	1,300	EUR to USD	January 6, 2022	

For the disclosure of market risk, please refer to note 6(23).

The financial assets mentioned above were not pledged as collateral.

(3) Financial assets measured at cost—current

	December 31,	December 31,	
	2022	2021	
Corporate bonds - Crystalwise	\$ 331,609	331,609	

The Company has assessed that these financial assets are held to maturity to collect contractual cash flows, which consist solely of payments of principal and interest on the principal amount outstanding. Therefore, these investments were classified as financial assets measured at amortized cost.

In October 2021, the Company purchased the private corporate bonds of Crystalwise Technology Inc. for an one-year period at a principal amount of \$330,000 thousand. The coupon rate and effective interest rate were 2.00%, and the bond is due in October 2022. On September 22, 2022, the Company's Board of Directors resolved to extend the repayment of private issued corporate bonds 6 months. The bond matures on March 31, 2023, and the capital and interest repayments will be made in full.

For the years ended December 31, 2022 and 2021, the Company has estimated gain on reversal of impairment loss amounting to nil thousand and \$3,454 thousand, respectively.

For the disclosure of credit risk, please refer to note 6(23).

The above financial assets are not pledged as collateral.

Notes to the Parent-Company-Only Financial Statements

(4) Notes and accounts receivable, net

	mber 31, 2022	December 31, 2021
Notes receivable	\$ 45,525	20,229
Accounts receivable	 759,842	550,009
	\$ 805,367	570,238

The Company applied the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all notes and accounts receivables. To measure the expected credit losses, notes and accounts receivable have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information.

The loss allowance provision of notes and accounts receivable (including related parties) was determined as follows:

			December 31, 2022		
	notes	s amount of and accounts eceivable	Weighted-average loss rate	Credit loss allowance	
Current	\$	780,316	0%	-	
1 to 30 days past due		86,737	0%	_	
	<u>\$</u>	867,053	=		
	December 31, 2021				
	notes	s amount of and accounts eceivable	Weighted-average loss rate	Credit loss allowance	
Current	\$	744,746	0%	-	
1 to 30 days past due		10,392	0%	-	
	\$	755,138		-	

The movement of the credit loss allowance for notes and accounts receivable (including related parties) was as follows:

		2022	2021
Balance on January 1	\$	-	6
Amounts written off		-	(6)
Balance on December 31	<u>\$</u>	•	

The Company's notes and accounts receivables were not pledged as collateral.

Notes to the Parent-Company-Only Financial Statements

(5) Inventories

	December 31, 2022		December 31, 2021	
Finished goods and merchandises	\$	284,224	123,464	
Work in progress		84,636	78,336	
Raw materials		720,356	522,085	
	<u>\$</u>	1,089,216	723,885	

Components of operating costs were as follows:

	2022		2021	
Cost of goods sold	\$	8,858,086	7,421,530	
Impairment loss of property, plant and equipment (note 6(7))		53,983	8,908	
Recognition (reversal) of inventory valuation loss		209,445	(15,053)	
Unallocated fixed manufacturing expense		200,116	198,504	
Reversal of provision (note 6(12))		(316,975)	(314,804)	
	\$	9,004,655	7,299,085	

The Company's inventories mentioned above were not pledged as collateral.

(6) Investments accounted for using equity method

The Company's summary of the financial information for investments accounted for using equity method at the reporting date was as follows:

	December 31, 2022		December 31, 2021	
Subsidiary	\$	35,702,506	26,358,798	
Associates		1,566,366	5,268,188	
Unrealized gains (losses) between affiliates		216,232	12,223	
	\$	37,485,104	31,639,209	

(a) Subsidiaries

Please refer to the consolidated financial statements for the year ended December 31, 2022.

Notes to the Parent-Company-Only Financial Statements

(b) Affiliated associates

		Main location/	Percentage of equity ownership interests and voting rights		
Names of affiliated companies	Relationship with the Company	country registered in	December 31, 2022	December 31, 2021	
Actron Technology Corporation (Actron)	Mainly engages in the manufacturing of electronic component.	Taiwan	22.75%	22.75%	
Taiwan Speciality Chemicals Corporation (Taiwan Speciality Chemicals)	The main business is manufacturing of semiconductor special gas and chemical materials.	Taiwan	Note (d)	Note (d)	
Crystalwise Technology Inc. (Crystalwise Technology)	Mainly engages in the manufacturing and trading of optoelectronic wafers and substrate material.	Taiwan	31.61%	35.24%	
Accu Solar Corporation (Accu Solar)	The main business is providing solar modules.	Taiwan	24.70%	24.70%	
Advanced Wireless Semiconductor Company (Advanced Wireless)	Mainly engages in the Manufacturing and trading of GaAs wafers.	Taiwan	Note (c)	22.90%	

The Company's financial information for investments accounted for using the equity method that are individually insignificant was as follows:

	December 31, 2022		December 31, 2021	
Carrying amount of individually insignificant associates' equity	<u>\$</u>	1,566,366	5,268,188	
Attributable to the Company:				
Profit (loss) from continuing operations	\$	94,572	148,858	
Other comprehensive income		(209,494)	95,598	
Comprehensive income (loss)	\$	(114,922)	244,456	

Notes to the Parent-Company-Only Financial Statements

- (c) The Company purchased outstanding shares of Advanced Wireless in the publicly traded market in the year of 2022 amounting to \$844,922 thousand. As of December 31, 2022, the accumulated shareholding was 27.62%. Advanced Wireless' Board of Directors was fully re-elected on June 20, 2022, and the Company obtained the majority of the directors' seats. Thus, the Company obtained the control over the investee and included it in the consolidated financial statements from the date of obtaining control. The remeasured gains amounting to \$23,282 thousand were recognized as other gains and losses(note6(20)).
- (d) The Company had a total of 30.93% of the common shares of Taiwan Speciality Chemicals as of August 2021. Taiwan Speciality Chemicals' Board of Directors was fully re-elected in August 2021, and the Company obtained the majority of the directors' seats. Thus, the Company obtained the control over the investee and included it in the consolidated financial statements from the date of obtaining control. The remeasured gains amounting to \$2,501 thousand were recognized as other gains and losses (note 6(20)). Taiwan Speciality Chemicals have been traded publicly at the Taipei Exchange (TPEx) in September 2022, since the Company released 1,168 thousand shares of Taiwan Speciality Chemicals, amounting to \$93,160 thousand.
- (e) The Company purchased outstanding shares of Actron in the publicly traded market in the year of 2021 amounting to \$146,837 thousand. As of December 31, 2022, the accumulated shareholding is 22.75%.
- (f) The Company invested \$20,000 thousand in 2021 to establish Sustainable Energy Solution Co., Ltd. (Sustainable Energy Solution).
- (g) For the years ended December 31, 2022 and 2021, the cash dividends from the investees were \$2,047,427 thousand and \$4,198,336 thousand, respectively, which were recognized as deductions of investments accounted for using the equity method.
- (h) The Company sold ordinary shares of Crystalwise Technology in the publicly traded market in the years of 2022 and 2021 amounting to \$60,108 thousand and \$128,629 thousand, respectively. Gains on disposal of investments amounting to \$58,049 thousand and \$110,679 thousand, respectively, were recognized as other gains and losses (note6(20)). As of December 31, 2022, the accumulated shareholding was 31.61%.

(i) Guarantee

The Company did not pledge any investments accounted for using the equity method as collateral.

Notes to the Parent-Company-Only Financial Statements

(7) Property, plant and equipment

A. The movements of cost, depreciation and impairment of the property, plant and equipment of the Company were as follows:

	2	2022	2021
Interest on lease liabilities	\$	1,877	2,206
Variable lease payments not included in the measurement of lease liabilities	<u>\$</u>	259	294
Expenses relating to short-term leases	\$	821	1,086
Expenses relating to leases of low value assets, excluding short term leases of low value assets	\$	1,795	1,720

Notes to the Parent-Company-Only Financial Statements

The amounts recognized in the statement of cash flows were as follows:

		2022	2021
Total cash outflow for leases	<u>\$</u>	34,077	34,933

A. Land and Buildings lease

The Company leases land and buildings for its facility and office space. The leases of office space typically run for a period of 7 to 20 years. Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

Land leases' additional rent payments that are based on changes in local price indices and the public facilities construction costs re-invested annually in each park will be adjusted after being assessed.

B. Other leases

The Company leases vehicles and equipment with lease terms of 2 to 3 years. In some cases, the Company has options to purchase the assets at the end of the contract term; in other cases, it guarantees the residual value of the leased assets at the end of the contract term.

(12) Provision

The details of the movement in the Company's provisions were as follows:

	0 0 0	Othors	Total
'			-
\$	3,900,040	100	3,900,140
	(316,975)		(316,975)

Notes to the Parent-Company-Only Financial Statements

The Company entered into several non-cancellable long-term material supply agreements with the suppliers of silicon materials. The Company agrees to purchase the required quantity of raw materials on schedule based on the contractual price during the commitment periods and makes a non-refundable prepayment to the suppliers. The suppliers need to deliver the required quantity of raw materials to the Company according to the contract. Provisions for the onerous contracts were made based on contractual terms and reversed profit or loss according to performance of the contract, where were recognized as cost of sales. For the related agreement, please refer to note 9.

(13) Employee benefits

A. Defined benefit plans

Reconciliation of defined benefit obligation at present value and plan asset at fair value was as follows:

	Dec	ember 31, 2022	December 31, 2021	
Present value of the defined benefit obligations	\$	(28,083)	(27,244)	
Fair value of plan assets		28,352	25,827	
Recognized assets (liabilities) for defined benefit obligations	<u>\$</u>	269	(1,417)	

The Company's defined benefit plans are appropriated to the labor pension reserve account at the Bank of Taiwan. The pension payment to each employee under the Labor Standards Act is calculated in accordance with the service points received for the years of service and the average salary six months prior to retirement.

(a) Plan assets composition

The pension fund accrued in accordance with Labor Standards Act is managed by the Labor Fund Application Bureau of the Ministry of Labor (the Labor Fund Bureau). In accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, the use of the fund, the minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The balance of the Company's labor retirement reserve account at Bank of Taiwan on the reporting date was \$28,352 thousand. For information on the utilization of the labor pension fund assets, including the assets allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

Notes to the Parent-Company-Only Financial Statements

(b) Movements in present value of the defined benefit obligations

The movements in present value of the defined benefit obligations were as follows:

	 2022	2021
Defined benefit obligations at January 1	\$ 27,244	29,990
Current service costs and interest cost	368	448
Re-measurements for defined benefit obligations		
-Actuarial gains and losses arising from experience		
adjustments	1,155	(1,294)
-Actuarial gains and losses resulting from changes in		
demographic assumptions	-	821
-Actuarial gains and losses resulting from changes in		
financial assumptions	(684)	(334)
Plan assets paid	 <u>-</u>	(2,387)
Defined benefit obligations at December 31	\$ 28,083	27,244

(c) Movements in fair value of defined benefit plan assets

The movements in fair value of the defined benefit plan assets were as follows:

		2022	2021
Fair value of plan assets at January 1	\$	25,827	27,470
Interest income		162	139
Re-measurements for defined benefit obligations			
—Return on plan asset (excluding current interest)		2,116	344
Contributions made		247	261
Plan assets paid			(2,387)
Fair value of plan assets at December 31	<u>\$</u>	28,352	25,827

(d) Change in the effect of the asset ceiling

As of December 31, 2022 and 2021, there was no effect of the asset ceiling.

(e) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the years ended December 31, 2022 and 2021, were as follows:

	2	022	2021	
Current service costs	\$	198	298	
Net interest of defined benefit obligation	<u></u>	8	11	
	\$	206	309	

Notes to the Parent-Company-Only Financial Statements

	20)22	2021
Operating Costs	\$	86	171
Selling expenses		29	27
Administrative expenses		41	49
Research and development expenses		50	62
	\$	206	309

(f) Actuarial assumptions

The significant actuarial assumptions used for the present value of the defined benefit obligation by the Company at the end of the reporting date are as follows:

	December 31,	December 31,
	2022	2021
Discount rate	1.375%	0.625%
Future salary increase rate	2.500%	2.000%

The estimated amount of contribution to be made by the Company to the defined benefit plans for the one-year period after the reporting date is \$249 thousand.

The weighted average duration of the defined benefit plan is 9.1 years.

(g) Sensitivity analysis

The following table summarizes the impact of a change in the assumptions on the present value of the defined benefit obligation as of December 31, 2022 and 2021.

	Impact on defined benefit obligations				
Actuarial assumptions		Increased by 0.25%			
December 31, 2022					
Discount rate	<u>\$</u>	(628)	646		
Future salary increase rate	<u>\$</u>	628	(613)		
December 31, 2021					
Discount rate	<u>\$</u>	(669)	690		
Future salary increase rate	<u>\$</u>	669	(652)		

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, assuming other assumptions remain constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in previous periods. There was no change in the method and assumptions used in the preparation of sensitivity analysis for 2022 and 2021.

There was no change in the method and assumptions used in the preparation of the sensitivity analysis for 2022 and 2021.

Notes to the Parent-Company-Only Financial Statements

B. Defined contribution plans

The Company contributes at the rate of 6% of each employee's monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under this defined contribution plan, the Company's contribution to the Bureau of Labor Insurance requires no additional legal or constructive obligations thereafter.

The pension costs incurred from contributions to the defined contribution plan were \$23,635 thousand and \$20,711 thousand for the years ended December 31, 2022 and 2021, respectively. Such contributions were made to the Bureau of the Labor Insurance, Ministry of Labor.

(14) Income tax

A. Income tax expense

The components of income tax expenses (benefit) in 2022 and 2021 were as follows:

	2022	2021
Current tax period	\$	911 542
Deferred tax expense (benefit)		
Temporary difference	$\underline{\hspace{1cm}}(41,$	365) 3,105
Income tax expense (benefit)	\$ (40,4	454) 3,647

The amounts of income tax benefit (expenses) recognized in other comprehensive income in 2022 and 2021 were as follows:

	 2022	2021
Items that may be reclassified subsequently to profit or		
loss:		
Exchange differences on translation of foreign financial		
statements	\$ (24,645)	12,784

Reconciliations of income tax and income before income tax for 2022 and 2021 were as follows:

	 2022	2021
Income before income tax	\$ 8,675,357	6,814,697
Income tax using the Company's domestic tax rate	1,735,071	1,362,939
Tax effect of permanent differences	(1,553,965)	(1,349,496)
Changes in unrecognized temporary differences and		
others	 (221,560)	(9,796)
	\$ (40,454)	3,647

Notes to the Parent-Company-Only Financial Statements

B. Deferred tax assets and liabilities

The Company is able to control the timing of the reversal of the temporary differences associated with investments in subsidiaries as at December 31, 2022 and 2021. Also, the management considers it is probable that the temporary differences will not reverse in the foreseeable future. Hence, such temporary differences were not recognized as deferred tax liabilities.

(a) The deferred tax assets have not been recognized in respect of the following items:

	De	cember 31, 2022	December 31, 2021	
Tax effect of deductible temporary differences	\$	991,569	1,047,094	
Carryforward of unused tax losses		475,898	723,032	
	\$	1,467,467	1,770,126	

The R.O.C. Income Tax Act allows net losses, as assessed by the tax authorities, to offset taxable income over a period of ten years for local tax reporting purposes. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilize the benefits therefrom.

As of December 31, 2022, the information of the Company's unused tax losses for which no deferred tax assets were recognized is as follows:

Year of loss	Unused tax losses	Expiry date
2013 (examined and assessed)	9,728	2023
2017 (examined and assessed)	1,189,763	2027
2018 (examined and assessed)	1,179,999	2028
	<u>\$ 2,379,490</u>	

(b) Recognized deferred tax assets and liabilities

Deferred tax assets:

	_		other			in	
	 January 1, 2021	Recognized in profit or loss	comprehensive income	December 31, 2021	Recognized in profit or loss	comprehensive income	December 31, 2022
Allowance for inventory valuation	\$ 8,106	(3,010)	-	5,096	41,889	-	46,985
Others	73,929	(95)	12,784	86,618	(524)	(24,645)	61,449
	\$ 82,035	(3,105)	12,784	91,714	41,365	(24,645)	108,434

C. Assessment of tax filings

The Company's income tax returns for the years through 2020 have been examined and approved by the R.O.C. income tax authorities.

Notes to the Parent-Company-Only Financial Statements

(15) Capital and other equity

As of December 31, 2022 and 2021, the authorized common stock of the Company amounted to \$8,000,000 thousand, which was divided into 800,000 thousand shares, with a par value of \$10 per share, of which \$200,000 thousand was reserved for employee stock options, convertible preferred stock, and convertible corporate bonds. The issued and outstanding shares of common stock amounted to \$5,862,217 thousand.

The reconciliation of shares outstanding for the years ended December 31, 2022 and 2021 was as follows (in thousands of shares):

	Common stock		
	2022		2021
Closing balance on December 31 (i.e. opening balance			
on January 1)	\$	586,222	586,222

A. Issuance of common stock

The Company increased capital in GDRs of \$610,000 thousand, and issued 61,000 thousand shares of common stock on the Luxembourg on September 9, 2010. The price issued per share was US\$2.9048. The total issuance amount is US\$177,193 thousand. The cash increase was approved by the Financial Supervisory Commission No.0990041383. Letter on August 13, 2010. All shares issued were paid and registered on September 9, 2010. The net amount issued was US\$174,931 thousand after deducting the related agent cost US\$2,262 thousand, was equivalent to \$5,580,288 thousand on the day's closing exchange rates. The total premium amounting to \$4,958,757 thousand was recognized on capital surplus after deducting the related issuance cost of \$11,531 thousand.

B. Capital surplus

The balances of capital surplus were as follows:

	De	ecember 31, 2022	December 31, 2021
Additional paid in capital	\$	7,195,673	8,296,480
Difference between the consideration and the carrying amount			
of subsidiaries and associates' share acquired or disposed		1,447,251	1,822,532
Capital surplus recognized under the equity method		7,561,496	7,543,801
Treasury stock transactions		33,314	33,314
Employee stock options		608,429	608,059
	\$	16,846,163	18,304,186

Notes to the Parent-Company-Only Financial Statements

According to the R.O.C. Company Act Section 241, the legal reserve and capital surplus may be distributed as cash dividends or stock dividends to the shareholders in proportion to the number of shares held. Distribution of legal reserve and capital reserve, by way of cash dividends, should be approved by the Board of Directors in a meeting attended by two-thirds of the total number of directors, with half of the directors' agreement; thereafter, be reported in the shareholders' meeting. The distribution of legal reserve and capital reserve through issuance of new shares shall be resolved during the shareholders' meeting.

The Company's resolutions to distribute cash dividends out of capital surplus for an amount of \$486,564 thousand (\$0.83 per share) and \$614,243 thousand (\$1.0478 per share), respectively, were approved during the shareholders' meeting held on December 8, 2022 and May 5, 2022.

The Company's resolutions to distribute cash dividends out of capital surplus for an amount of \$1,989,226 thousand (\$3.3933 per share), were approved during the shareholders' meeting held on December 9, 2021.

Relevant information can be found on the Market Observation Post System website.

C. Legal reserve

According to the R.O.C. Company Act Section 241, the legal reserve and capital surplus may be distributed as cash dividends or stock dividends to the shareholders in proportion to the number of shares held. Distribution of legal reserve and capital surplus, by way of cash dividends, should be approved by the Board of Directors in a meeting attended by two thirds of the total number of directors, with half of the directors' agreement; thereafter, be reported in the shareholders' meeting. The distribution of legal reserve and capital surplus through issuance of new shares shall be resolved during the shareholders' meeting.

D. Special reserve

When the Company adopted the International Financial Reporting Standards (IFRSs) approved by the FSC for the first time, the Company had chosen to apply IFRS 1 "First time Adoption of the IFRSs" exemptions. Retained earnings was increased by \$161,317 thousand due to the adjustment of accumulated translation adjustment under the shareholders' exceeded the net increase of \$102,349 thousand in retained earnings on the conversion date for the first time adoption of IFRSs approved by the FSC. In accordance with rule by the FSC, a special reserve is appropriated from retained earnings based on the net increase of retained earnings arising from the first adoption of IFRSs. Under such regulation, the Company is also required to set aside an additional special reserve, as part of the distribution of its annual earnings, equal to the difference between the amount of the abovementioned special reserve and the net debit balance of other components of the stockholders' equity. The only distributable special reserve is the portion that exceeds the net debit balance of the other components of the equity. The carrying amounts of special reserve amounted to \$102,349 shareholders' thousand as of December 31, 2022 and 2021.

Notes to the Parent-Company-Only Financial Statements

According to the rule by the FSC, while distributing the distributable earnings, the Company had additional special reserve appropriated from the current year net income and unappropriated earnings of the prior period for the difference between the net amount debited to other shareholder's equity and the balance of the special reserve appropriated in the preceding paragraph. For the amount debited to other shareholders' equity attributable to prior period accumulation, the special reserve was appropriated from the unappropriated earnings of the prior period and could not be distributed. The amount debited to the shareholders' equity reversed subsequently can be distributed as earnings.

E. Earnings distribution and dividend policy

According to the Company's Articles of Incorporation, the proposal of surplus earning distribution or loss offsetting for the first half fiscal year, together with the business report and financial statements, shall be forwarded to the audit committee for auditing before the end of the second half of the fiscal year; thereafter, be submitted to the Board of Directors for approval.

Distribution of earnings, by way of cash, shall be approved in the Board of Directors meeting. The distribution of earnings through issuance of new shares shall be resolved in the stockholders' meeting.

The Company's Article of Incorporation stipulates that Company's net earnings should first be used to offset the prior years' deficits, if any, before paying any income taxes. Of the remaining balance, 10% is to be appropriated as a legal reserve, and subsequently any remaining profit together with any undistributed retained earnings shall be distributed, in form of cash dividends, according to the distribution plan approved by the Board of Directors with two-thirds of directors present and approved by one-half of the present directors and further submitted to the shareholders' meeting, in accordance with the R.O.C. Company Act Section 240(5). The distribution plan to issue new shares should be proposed by the Board of Directors and submitted to the shareholders' meeting for approval.

After considering both the long-term development of the business and the goal of stable growth of earnings per share, the distribution of dividends to shareholders should not be less than 50% of the distributable earnings, which is calculated using the net income of the current year, minus, legal reserve and special reserve. The distribution of cash dividends should not be less than 50% of the total dividends.

On December 8, 2022, the Company's Board of Directors resolved to distribute the first half of 2022 earnings. The earnings were appropriated as follows:

	2022		
	Dividends per share (NT dollar)		Amount
Dividends distributed to ordinary shareholder:			
Appropriation of the first half of earnings	\$	2.3700	1,389,345

Notes to the Parent-Company-Only Financial Statements

On May 5, 2022 and December 9, 2021, the Company's Board of Directors determined the amount of cash dividends for the first half and the second half of 2021, respectively. Moreover, other surplus distribution has met statutory resolution threshold with electronic voting on June 21, 2022, and the general meeting of shareholders was held on June 23,2022. On May 6, 2021, the Company's Board of Directors resolved to appropriate earnings in 2020.

The earnings were appropriated as follows:

		2021		202	20	
	Dividends per share (NT dollar)		Amount	Dividends per share (NT dollar)	Amount	
Dividends distributed to ordinary shareholder:						
Appropriation of the first half of earnings	\$	0.1067	62,550	3.5	2,051,776	
Appropriation of the annual earnings		3.4522	2,023,754	5.5	3,224,219	
Total	\$	3.5589	2,086,304	9.0	5,275,995	

The above-mentioned information is available on the Market Observation Post System website.

Northeast Asia (Japan and Korea)		152,398	479,967
Europe		600	2,362
Other areas		-	10,947
	<u>\$</u>	10,217,338	8,137,094
Major product categories			
Solar cell	\$	3,523,022	2,485,299
Solar ingot		2,764,045	1,624,328
Solar module		15,694	57,772
Solar wafer		273,021	217,029
Others		3,641,556	3,752,666
	<u>\$</u>	10,217,338	8,137,094

B. Contract balances

	De	cember 31, 2022	December 31, 2021	January 1, 2021
Notes and accounts receivable (including				
related parties)	\$	867,053	<u>755,138</u>	466,811
Contract liabilities	\$	1,692,211	2,863,962	1,175,853

The major change in the balance of contract liabilities is the advance consideration received from customers for the contracts, in which revenue is recognized when products are delivered to customers. The amount of revenue recognized for the years ended December 31, 2022 and 2021, which was included in the contract liability balance at the beginning of the period, was \$55,247 thousand and \$156,102 thousand, respectively.

The contract liabilities primarily relate to the advance consideration received from customers for the solar products of sales contracts and project payment received in advance, in which revenue is recognized when products are delivered to customers.

Notes to the Parent-Company-Only Financial Statements

(18) Remuneration to employees and directors

In accordance with the Articles of Incorporation of the Company if there is profit in the year, the Company shall accrue 3% - 15% of the profit as employee's remuneration. The Board of Directors decides to distribute it by stock or cash, and the object of distribution includes employees meeting certain conditions; and the Board of Directors decides to accrue up to 3% of the above profit as directors' remuneration. The distribution of remuneration of employees and directors should be submitted and reported to the shareholders' meeting. In case the Company has an accumulated loss, it should reserve amount to make up losses before distributing remuneration to the employees and directors in pursuant to the percentage mentioned in the preceding paragraph.

For the years ended December 31, 2022 and 2021, the Company accrued and recognized its employee remuneration amounting to \$564,770 thousand and \$438,902 thousand and directors' amounting to \$55,000 thousand and \$45,000 thousand, respectively. These amounts were calculated by using the Company's pre-tax net profit for the period before deducting the amounts of the remuneration to employees and directors, multiplied by the distribution of ratio of the remuneration to employees and directors based on the Company's Articles of Incorporation, and expensed under operating costs or expenses. If, however, the shareholders determine that the employee remuneration is to be distributed through stock dividends, the calculation, based on the shares, shall be calculated using the stock price on the day before the Board of Directors meeting. The difference between estimated amount and actual payment, if any, will be treated as change in accounting estimate and recognized in profit or loss in the following year.

The amounts as stated in the parent-company-only financial statements, were identical to those of the actual distributions for 2022 and 2021, approved in the Board of Directors meetings. The information is available on the Market Observation Post System website.

(19) Interest income

(23) Financial instruments

A. Credit risk

(a) Credit risk exposure

The carrying amount of financial assets represents the maximum amount exposed to credit risk.

(b) Concentration of credit risk

The main customers of the Company are from the solar industries. The Company generally sets credit limits to its customers according to their credit evaluations. Therefore, the credit risk of the Company is mainly influenced by the solar and silicon wafer industry. As of December 31, 2022 and 2021, 95% and 94% respectively, where were both of the Company's accounts receivable (including related parties) were from the top 10 customers. Although there is a potential for concentration of credit risk, the Company routinely assesses the collectability of the accounts receivable and makes a corresponding allowance for doubtful accounts.

(c) Credit risk of receivables and debt securities

For credit risk exposure information on notes and accounts receivables, please refer to note 6(4). Other financial assets measured at amortized cost include other receivables and investments and ordinary corporate bonds. The impairment loss of financial assets measured at amortized cost, please refer to note 6(3).

All of these financial assets are considered to have low risk, and thus, the impairment provision recognized during the period was limited to 12 months expected losses. (Please refer to note 4(4) regarding how the Company determines whether the financial instruments are considered to be low credit risk).

Notes to the Parent-Company-Only Financial Statements

B. Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	Carrying Amount	Contractual cash flows	Within 6 months	6-12 months	1-2 years	2-5 years or more
December 31, 2022						
Non-derivative financial liabilities						
Short-term borrowings \$	3,150,000	(3,155,231)	(3,155,231)	-	-	-
Notes and accounts payable (including related parties)	913,630	(913,630)	(913,630)	-	-	-

Non-monetary Items					
EUR	1,300	31.320	Note		

Note: The fair value of forward exchange contracts was measured at the reporting date. For related information, please refer to note 6(2).

Notes to the Parent-Company-Only Financial Statements

(b) Sensitivity analysis

The Company's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts receivable, and accounts payable that are denominated in foreign currency. A weakening (strengthening) of 1% of the NTD against the USD, JPY and EUR, as of December 31, 2022 and 2021, would have increased or decreased the net income before income tax by \$8,722 thousand and \$15,680 thousand, respectively. The analysis is based on foreign currency exchange rate variances that the Company considered to be reasonably possible at the reporting date. The analysis assumes that all other variables remain constant and was performed on the same basis for both periods.

(c) Foreign exchange gain and losses on monetary exchange

The exchange rate information and the exchange gain or loss (including realized and unrealized) of the Company's monetary items converted into functional currency (i.e. the Company's expression currency) were as follows:

	202	22	2021	
	Foreign exchange gains (losses)	Average rate	Foreign exchange gains (losses)	Average rate
USD	\$ 110,268	29.8489	(35,019)	27.998
EUR	8,295	31.351	4,175	33.114
JPY	231	0.2272	68	0.2550
CHF	18	31.19	(12)	30.64
RMB	374	4.4218	(37)	4.340
	<u>\$ 119,186</u>		(30,825)	

D. Interest rate analysis

Please refer to the notes on liquidity risk management for interest rate exposure of the Company's financial assets and financial liabilities.

The following sensitivity analysis is based on the exposure to interest rates. Regarding liabilities with floating interest rates, the analysis is based on the assumption that the amount of liabilities outstanding at the reporting date was outstanding throughout the year.

If the interest rate had increased or decreased by 0.25%, the Company's net income before income tax would have decreased or increased by \$1,584 thousand and increased or decreased by \$1,727 thousand, for the years ended December 31, 2022 and 2021, respectively, assuming all other variable factors remain constant. This is mainly due to the Company's bank deposits and borrowings with variable rates.

Notes to the Parent-Company-Only Financial Statements

E. Fair value of financial instruments

(a) Fair value hierarchy

The fair value of financial assets and liabilities at fair value through profit or loss and financial assets at fair value through other comprehensive income is measured on a recurring basis. The carrying amount and fair value of the Company's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

	December 31, 2022					
	_	Carrying				
		amount	Level 1	Level 2	Level 3	Total
Financial assets measured at amortized cost

Subtotal	\$	2,133,794				

(b) Valuation technique of fair value of financial instruments that are not measured at fair value

The Company's valuation techniques and assumptions used for financial instruments not measured at fair value are as follows:

Financial assets measured at amortized cost

If the quoted prices in active markets are available, the market price is established as the fair value. However, if quoted prices in active markets are not available, the estimated valuation or prices used by competitors are adopted.

Notes to the Parent-Company-Only Financial Statements

(c) Valuation technique of fair value of financial instruments measured at fair value

i. Non-derivative financial instruments

A financial instrument is regarded as being quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. Whether transactions are taking place 'regularly' is a matter of judgment and depends on the facts and circumstances of the market for the instrument.

Quoted market prices may not be indicative of the fair value of an instrument if the activity in the market is infrequent, the market is not well established, only small volumes are traded, or bid ask spreads are very wide. Determining whether a market is active involves judgment.

If the financial instruments held by the Company belong to an active market, the fair value is booked as follows by category and attribute:

For financial assets and financial liabilities of the listed company's stocks, notes of exchange and corporate bonds, which are subject to standard terms and conditions and are traded in the active market, the fair value is determined by reference to market quotations.

In addition to the above-mentioned financial instruments with active markets, the fair value of the remaining financial instruments is obtained by means of evaluation technologies or reference to counterparty quotes. The fair value obtained through the evaluation technology can be based on the current fair value of other financial instruments with similar characteristics and characteristics, the discounted cash flow method or other evaluation technologies, including the calculation with the model and the market information available on the balance sheet date (such as the reference yield curve of Taiwan Stock Exchange, Reuters commercial promissory interest rate average offer).

If the financial instruments held by the Company are in the non-active market, the fair value is booked as follows by category and attribute:

Equity instruments without public quotation: Estimates of fair value using the market comparable company method, the main assumptions are based on the earnings multiplier derived from the investee's net worth per share and the EV/EBIT comparable listed companies' quotes. The estimate has adjusted the depreciation impact of the lack of market liquidity of the equity securities.

ii. Derivative financial instruments

Measurement of the fair value of derivative instruments are based on the valuation techniques generally accepted by market participants, such as the discounted cash flow or option pricing models. The fair value of forward currency is usually determined based by the forward currency exchange rate.

Notes to the Parent-Company-Only Financial Statements

(d) Reconciliation of Level 3 fair value

The Company's financial instruments which belong to Level 3 fair value were financial assets measured at fair value through other comprehensive income and financial assets measured at fair value through profit or loss. The movements were as follows:

	mea fai thro comp	nancial assets asured at ir value ugh other orehensive ncome
January 1, 2021	\$	6,095
Recognized in other comprehensive income		(6,095)
December 31, 2021	<u>\$</u>	-

(e) Quantitative information on significant unobservable inputs (Level 3) used in fair value measurement

The Company's financial instruments that use Level 3 inputs to measure fair value include financial assets at fair value through other comprehensive income – equity investments.

Most of the fair value measurements categorized within Level 3 uses a single significant unobservable input. Equity investments without an active market contains multiple significant unobservable inputs. The significant unobservable inputs of equity investments without an active market are individually independent, and there is no correlation between them.

Quantified information of significant unobservable inputs were as follows:

Item	Evaluation technology	Significant unobservable input value	Relations between significant unobservable input value and fair value
Financial assets measured at fair value through other comprehensive income-equity instrument investment without active market	Comparable listed companies approach	 Equity value multiplier (December 31, 2022 and December 31, 2021 are 2.17~2.85 and 3.22~3.28) Lack of market liquidity discount (December 31, 2022 and December 31, 2021 were both 28%) 	 The higher the multiplier, the higher the fair value The higher the lack of market liquidity discount, the lower the fair value

(f) The fair value of the Company's financial instruments that use Level 3 inputs to measure fair value was based on the price of the third party. The Company did not disclose quantified information and sensitivity analysis on significant unobservable inputs because the unobservable inputs used in fair value measurement were not established by the Company.

Notes to the Parent-Company-Only Financial Statements

(g) As of December 31, 2022 and 2021, there has been no transfer at fair value level.

(24) Financial risk management

A. Overview

The financial instrument that the Company is using is exposed to the following risks:

- (a) Credit risk
- (b) Liquidity risk
- (c) Market risk

The following likewise discusses the Company's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risk exposures, please refer to the respective notes in the accompanying parent-company-only financial statements.

B. Structure of risk management

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The board is responsible for developing and monitoring Company's risk management policies. Internal auditors assist the Board of Directors to monitor and review the risk management control and internal procedures regularly and report them to the Board of Directors.

The Company's risk management policy is established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risk and the compliance with risk limits. Risk management policies and systems are reviewed regularly to reflect the changes in market conditions and the Company's operations. Also, develop a disciplined and constructive environmental control through training, management standards, and operating procedures in order to help all employees understand their roles and obligations.

The Company's audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company audit committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, and the results of which are reported to the audit committee.

C. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.

Notes to the Parent-Company-Only Financial Statements

(a) Accounts receivables and other receivables

The Company has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Purchase limits are established for each customer and reviewed quarterly. Customers that fail to meet the Company's benchmark creditworthiness may transact with the Company only on a prepayment basis.

(b) Investment

The credit risk exposure in the bank deposits, investments with fixed income and other financial instruments are measured and monitored by the Company's finance department. As the Company deals with banks, financial institutions, and other external parties with good credit standing, corporate organization and government agencies which are graded above par level, management believes that the Company do not have compliance issues and no significant credit risk.

(c) Guarantee

According to the Company's policy, the Company can only provide endorsements for companies with business dealing, the companies directly or indirectly owned more than 50% shares with voting right by the Company, or the companies directly or indirectly owned more than 50% shares with voting right of the Company. As of December 31, 2022 and 2021 the Company did not provide any endorsement guarantees except to its subsidiaries.

D. Liquidity risk

There is no liquidity risk of being unable to raise capital to settle contract obligations since the Company has sufficient capital and working capital to fulfill contract obligations.

Loans and borrowings from the bank form an important source of liquidity for the Company. As of December 31, 2022 and 2021, the Company's unused credit lines were \$11,585,930 thousand and \$8,300,477 thousand, respectively.

E. Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, which will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(a) Currency risk

The Company is exposed to currency risk on sales, purchases and borrowings that are denominated in currencies other than the respective functional currencies of the Company, primarily the New Taiwan Dollar (NTD). These transactions are denominated in NTD, USD, JPY and EUR.

Notes to the Parent-Company-Only Financial Statements

Interest is denominated in the currency used in borrowings. Generally, borrowings are denominated in currencies that match the cash flows generated by the underlying operations of the Company, primarily NTD.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when it is necessary to address short-term imbalances.

(b) Interest rate risk

The Company holds assets and liabilities with floating interest rates, resulting in a cash flow interest rate risk exposure.

(c) Equity instrument

The Company is exposed to equity price risk due to the investments in equity securities. This is a strategic investment and is not held for trading.

Please refer to note 6(23) for the risk of change.

(25) Capital management

The Board of Directors' policy is to maintain a strong capital base in order to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of share capital, capital surplus, retained earnings and other equity interests of the Company. The Board of Directors monitors the return on capital as well as the level of dividends to ordinary stockholders.

The Company's debt-to-equity ratios at the end of the reporting periods were as follows:

	De	December 31, 2021	
Total liabilities	\$	13,145,264	12,228,359
Less: cash and cash equivalents		(416,214)	(804,741)
Net debts	<u>\$</u>	12,729,050	11,423,618
Total equity	<u>\$</u>	31,872,572	28,537,082
Debt-to-equity ratio		39.94%	40.03%

The increase in operating profits resulted in the debt-to-equity ratio to decrease as at December 31, 2022.

(26) Cash flow information

The Company's investing and financing activities which did not affect the current cash flow for the years ended December 31, 2022 and 2021 were as follows:

For acquiring right of use assets by leasing, please refer to note 6(9).

Notes to the Parent-Company-Only Financial Statements

Reconciliations of liabilities arising from financing activities were as follows:

	J	anuary 1, 2022	Cash flows	Others	December 31, 2022
Short-term borrowings	\$	1,495,303	1,654,697	-	3,150,000

Payables to related parties		192,610	(192,610)		
Total liabilities from financing activities	<u>\$</u>	1,275,092	<u>371,143</u>	2,910	1,649,145

7. Related-party transactions:

(1) Names and relationship with related parties

The subsidiaries and other parties involved in the transaction of the Company during the period cover in the parent-company-only financial statements were as follows:

Names of related parties	Relationship with the Company
Sino Silicon Technology Inc. (SSTI)	Subsidiary directly held by the Company
GlobalWafers	Subsidiary directly held by the Company
Aleo Solar GmbH (Aleo Solar)	Subsidiary directly held by the Company
Aleo Solar Distribuzione Italia S.r.l (Aleo Solar Italia)	Subsidiary indirectly owned by the Company
SAS Sunrise Inc.	Subsidiary directly held by the Company(Note 3)
SAS Sunrise Pte. Ltd.	Subsidiary indirectly owned by the Company
Sulu Electric Power and Light Inc. (Sulu)	Subsidiary indirectly owned by the Company (Note 1)
AMLED International Systems Inc. (AMLED)	Subsidiary indirectly owned by the Company (Note 2)
Taiwan Speciality Chemicals Corporation (TSCS)	Subsidiary directly hold by the Company (Note 5)

Notes to the Parent-Company-Only Financial Statements

Names of related parties	Relationship with the Company			
SAS Capital Co., Ltd. (SSH)	Subsidiary directly held by the Company			
Sustainable Energy Solution Co., Ltd. (SES)	Subsidiary directly hold by the Company (Note 4)			
Sunrise PV Electric Power Five Co (Sunrise PV Five)	Subsidiary indirectly held by the Company			
Sunrise PV Three Co., Ltd. (Sunrise PV Three)	Subsidiary directly owned by the Company			
Sunrise PV Four Co., Ltd. (Sunrise PV Four)	Subsidiary indirectly owned by the Company			
GlobalWafers Japan Co., Ltd. (GWJ)	Subsidiary indirectly owned by the Company			
Topsil GlobalWafers A/S (Topsil A/S)	Subsidiary indirectly owned by the Company			
GWC Capital Co., Ltd(GWCH)	Subsidiary indirectly owned by the Company			
Kunshan Sino Silicon Technology Co., Ltd. (SST)	Subsidiary indirectly owned by the Company			
Kunshan SST Trading Co., Ltd. (KST)	Subsidiary indirectly owned by the Company			
GlobiTech Incorporated.(GTI)	Subsidiary indirectly owned by the Company			
GlobalWafers Singapore Pte. Ltd. (GWS)	Subsidiary indirectly owned by the Company			
GlobalWafers B.V. (GWBV)	Subsidiary indirectly owned by the Company			
MEMC Japan Ltd. (MEMC Japan)	Subsidiary indirectly owned by the Company			
MEMC Electronic Materials SpA (MEMC SpA)	Subsidiary indirectly owned by the Company			
MEMC Korea Company (MEMC Korea)	Subsidiary indirectly owned by the Company			
MEMC LLC (MEMC LLC)	Subsidiary indirectly owned by the Company			
MEMC Electronic Materials, Sdn Bhd (MEMC Sdn Bhd)	Subsidiary indirectly owned by the Company			
Accu Solar	An associate of the Company			
Crystalwise Technology	An associate of the Company			
Advanced Wireless	An associate of the Company (Note 5)			
Actron	An associate of the Company			

- Note 1: The Company can control the financial and operating strategies of Sulu through valid agreements with other investors of Sulu, so Sulu is considered as a subsidiary.
- Note 2: The Company does not have an owners' equity of AMLED. However, the Company controls the financial and operating strategies of AMLED and receives all benefits of its operations and net assets based on terms of the agreement. AMLED is considered a subsidiary.
- Note 3: SAS Sunrise Pte. Ltd. completed the liquidation process in 2022.
- Note 4: SES was established in April 2021.

Notes to the Parent-Company-Only Financial Statements

Note 5: TSCS became a subsidiary after August 25, 2021. Advanced Wireless became a subsidiary after June 20, 2022

(2) Significant transactions with related parties

A. Sales

The amounts of significant sales transactions and engineering contract revenue between the Company and related parties were as follows:

		2022	2021
Subsidiary-Global Wafers	\$	1,725,101	2,090,890
Subsidiaries		313,350	260,640
Associates			64,818
	<u>\$</u>	2,038,451	2,416,348

In 2022 and 2021, the Company's processing revenue from related parties was \$52,234 thousand and \$47,963 thousand, respectively, recognized in the reduction of operating costs.

The selling price for sales to the related parties was determined by market price and adjusted according to the sales area and sales volume.

In 2022 and 2021, the credit terms for third parties were receipt in advance to 60 days from the end of next month and 0 to 120 days after month end, respectively, while those for related parties were 30 days of current month to 60 days after month end and receipt in advance to 30 days of current month, respectively.

- Note 1: The characters of guarantees and endorsements are coded as follows:
 - (1) The issuer is coded "0".
 - (2) The investee is coded consecutively beginning from "1" in the order presented in the table above.
- Note 2: The relation between guaranter and guarantee and their endorsement should be disclosed as one of the following:
 - (1) Ordinary business relationship.
 - (2) Subsidiary which owned more than 50 percent by the guarantor.
 - (3) An investee owned more than 50 percent in total by both the guarantor and its subsidiary.
 - (4) An investee owned more than 90 percent by the guarantor or its subsidiary.
 - (5) Fulfillment of contractual obligations by providing mutual endorsements and guarantor for peer or joint builders in order to undertake a construction project.
 - (6) An entity that is guaranteed and endorsed by all capital contributing shareholders in proportion to their shareholding percentages.
 - (7) The companies in the same industry provide among themselves joint and several securities for a performance guarantee of a sales contract for per construction homes pursuant to the Consumer Protection Act for each other.
- Note 3: The amount of endorsements/guarantees provided by the endorsement guarantor company for a single enterprise is limited to 10% of the net worth of the company providing the endorsements/guarantees, but for the subsidiary company, limited to one time of the net worth of the company providing the endorsements/guarantees. The total amount of accumulated endorsements/guarantees shall not exceed the net worth of the Company. The total amount of the Company's endorsements/guarantees and that for a single enterprise shall not exceed five times the net worth of the company providing endorsements/guarantees. The aforesaid net worth is based on the financial statements recently audited or reviewed by an accountant. For endorsements/guarantees due to business transactions, except subject to the provisions of the preceding item, the endorsement guarantee amount should be equal to the higher of the purchase or sales amount.
- Note 4: The Company controls the financial and operating strategies of Sulu through effective agreements with other investors of Sulu, so Sulu is considered as a subsidiary.
- Note 5: Sulu shares with the company a quota of USD 10,000 thousand and Sulu's individual quota is USD 36,000 thousand. The Company resolved on October 14, 2016 by the Board of Directors to repay part of the loan, and reduce the endorsements/guarantees quota to USD 46,000 thousand. The actual disbursement amount was reduced to USD 29,425 thousand.
- Note 6: The endorsements/guarantees quota for Sulu is calculated as the amount of sales at the time of endorsements/guarantees.

Securities held as of December 31, 2022 (excluding investment in subsidiaries, associates and joint ventures) December 31, 2022

- Note:1 A limited company.
- Note 2: The investment gain or loss recognition includes the investment cost and the amortization of the net equity acquired.
- Note 3: The Company does not hold the ownership interests of AMLED, but the Company can control the financial and operating strategies of AMLED and obtain all the benefits of its operations and net assets in accordance with the terms of the agreements with such standalone, so AMLED is considered as a subsidiary.
- Note 4: The investor's profits and losses included the profits and losses of the investees; therefore, the investee's profits and losses need not be disclosed.
- Note 5: The aforementioned inter-company transactions have been eliminated in the consolidated financial statements.
- Note 6: The Company resolved on December 8, 2022 by the Board of Directors to debt transferred to capital \$400,000 thousand.
- Note 7: Advanced Wireless's Board of Directors was fully re-elected on June 20, 2022, the Company obtained control over Advanced Wireless, transformed from an associate to a subsidiary.
- Note 8: GWA was a newly established subsidiary by GTI in August 2022.
- Note 9: For the purpose of accounting impact of adjustment of group structure.
- Note 10: Liquidation procedures of GWI were completed in November 2022.
- Note 11: GlobalWafers in response to the group adjusted its organizational structure, the company resolved on September 1,2022 by the Board of Directors to purchase the entire GWBV equity held by GWS in the form of equity transaction, which completed the equity transaction on November 7, 2022.
- Note 12: SAS Surise Pte. Ltd had completed the deregistration process, and AMLED was changed to SAS Sunrise Inc.

Sino-American Silicon Products Inc. Information on investment in mainland China For the year ended December 31, 2022

Table 9 (In Thousands of New Taiwan Dollars)

(1) The names of investees in Mainland China, the main businesses and products, and other information

				Accumulated outflow of	Investme	ent flows	Accumulated outflow of investment from			Investment		Accumulated
			Method	investment from			Taiwan as of	Net income	Percentage	income		remittance of
