

Greenhouse Gas Inventory Review and Voluntary Reduction Declaration

Sino-American Silicon Products Inc. is dedicated to the manufacturing of solar products and actively deploys in the fields of energy storage and renewable energy. We aim to become a high-quality Renewable Energy Total Solution Provider.

As a citizen of the Earth and a member of the green energy industry, we continuously fix attention on and are highly aware of the impact of greenhouse gas emissions on the environment and global climate. As such, we voluntarily conduct greenhouse gas inventory reviews to fulfill our corporate responsibilities. The following measures demonstrate our actions to control greenhouse gas generation, save energy, reduce carbon emission, and protect the planet:

1. Carry out greenhouse gas inventory reviews on each site respectively to seize the status of greenhouse gas emissions.
2. Regularly disclose information about our company's greenhouse gas inventory.
3. Implement voluntary greenhouse gas reduction plans to reduce greenhouse gas emissions.

This declaration is effective upon the date of signing.
